supplies and the trade was slow. Encouraging reports from eastern points and the light receipts here gave sellers an opportunity to push prices upward and the market was in better shape than at the close of last week. On the opening trading was a little slow, but buyers and sellers soon got together and most of the stuff was picked up in fair season. Desirable light and butcher weights were in fair demand and commanded the best prices. The general market was about 24,65c higher than Saturday, the bulk of the hogs selling at \$5.346.55, with the long string at \$5.346.55. With the long string at \$5.374.
