OLD PEOPLE AND THEIR TROUBLES

Old People have more of the pains, aches and discomforts of life than do the g. This is perfectly natural, be-their blood is not so vigorous, nor their powers of resistance so great, and troubles that a younger, healthy constitution could resist often afflict them.

During the civil war I contracted Catarrh and suffered with its affects for many years. I tried various ramedias and doctors, but with no good result. One day I found one of your pamphlets and read it carafully. I decided S. S. S. was the medicine I was in need of and I began its use at once. My health was dreadful, and as I was getting along in years. I had most of the pains and all-ments incident to that time of life; but after taking this great remedy for awhile I began to improve and soon found my-self a strong, well man. I am now more than 75 years of age, but my health is good, because I take an occasional bettle of S. S. S. Nothing equals it as a tonic and blood purifier, and I recommend it to those needing such a medicine.

Fordyoe, Ark. L. S. LOCKEIDGE.

Rheumatic pains, sleepless nights, fickle appetites, etc., are not imaginary with old people, as is sometimes thought. They need a medicine that will supply their blood with its lost vigor and build up and strengthen their constitutions. S. S. S. is the ideal remedy for Old Peo-It is made entirely from roots, ple. It is made entirely from roots, herbs and barks, and does not injure the system in the least as do those medicines containing mineral ingredients. S. S. S.

is gentle in its action, purifying the blood of all poisons and relieving old age of its discomforts by

supplying a ro-bust, healthy PURELY VEGETABLE. constitution. It the greatest of all tonics for increasing the appetite, toning up the stomach, promoting the di-gestion and building up the entire system. THE SWIFT SPECIFIC CO., Atlanta, Ga.

The report of the grand trustees on the same subject recommended turning the control of the home over to the governors.

The last week has been cold with about normal rainfall. The mean daily temperature has averaged 5 degrees below normal. The winter wheat harvest, although retarded some by the showers, has on the whole progressed nicely. A little threshing has been done in southeastern counties, the yield being good and the quality excellent. Spring wheat has improved somewhat in condition. Early oats are ripesing and the harvest has begun in southeastern counties. The heads are well filled, but the stand thin and the straw short. Late oats promise a better crop. Considerable Report of the Secretary. the stand thin and the straw short. Late oats promise a better crop. Considerable hay was damaged by rain. The wild or prairie hay crop will be heavy, especially in northern and western counties. Corn hims grown fairly well, is healthy and in good condition, but needs higher temperature. Cultivation has been retarded by rain, and only a small part of the crop has been laid by. The second crop of alfalfa is about ready to cut. The report of General Secretary Fred C. Robinson contained the following: The success of the past year has exceede all expectations and has been most gratiall expectations and has been most grall-fying. Fifty-three new lodges have been added to the long list and those lodges already in existence have been materially strengthened by large accessions in mem-bership. We have made at increase of 22,888 in membership, giving us today 388 lodges and a total membership of 200.040. With "quantity" of membership is coming "quality." The successful year just passed is the result of the harmony now existing throughout our wide domain. Last year WEEKLY REPORT ON CROPS Temperature Conditions Generally

WASHINGTON, July 11.—The weather
bureau's weekly bulletin summarizes crop
conditions as follows:
In the district east of the Rocky mountains temperature conditions were generally
favorable, though cool in the Missouri valiey. Over much the greater part of the
country from the south Ariantic guif coasts
and the Dakotas, excessive rainfall greatly
finindered the cultivation of crops, caused
rapid growth of weeds and in places injured hay and harvested grain. There was
practically no rain in New England, only
light showers on the immediate middle
Atlantic coast and none in the Rocky mountain and Pacific coast regions. In central

Winter wheat harvest continues in the northerly districts and is largely finished cisewhere. Rainy weather has extensively interfered with threshing and has caused damage to grain in shock in portions of the middle Atlantic states and central valleys. The abnormal heat on the north Pacific coast during the latter part of the week probably caused damage to the wheat crop in Washington.

In portions of South Dakota and Minnesota spring wheat on low lands has suffered from overflows, but elsewhere in the spring wheat region the crop is in promising condition. Rust continues in South Dakota and Minnesota, though not materially increasing, and is beginning to appear in North Dakota. Spring wheat continues promising in the north Pacific coast, although exposed to trying heat conditions during the latter part of the week.

Complaint Alleges that Company Accepted Illegal Rehates from Railroads Amounting to Five Millions.

CHICAGO, July 11 .- Another attack was made this afternoon upon the International Harvester company by Rodney B. Swift, formerly head of the experimental department of the McCormick branch of the harvester company. Swift's connection with the company was severed several menths ago and suit commenced against him by the officials of the company, who alleged that he-had defrauded them in the sale of a patent. In his bill filed this afternoon, Swift, as a stockholder, demands ar accounting from the company and demands that the court force the company to cease taking rebates from railroad companies and also compel the company to return to the railroads moneys, said by Swift to have been illegally exacted from the railroads in the past Swift declares that up to September 20, 1902, the McCormick branch of the harvester company alone forced the railroads to pay it through rebates and 500.00 the operation of the Illinois Northern road a sum in excess of \$3,000,000. Up to the same date, the money received in rebates by the Plano branch of the harvester company through the agency of the Chicago, West Puliman & Southern railroad amounted to \$500,000

Since September 30, 1902, it is declared that nine other railroad companies have been making payments of rebates to the International Harveser company under the gulse of an alleged division of freight rates with the Illinois Northern company Swift asserts that the alleged illegal rebates made to the international company since 1902 amount to more than \$1,000,000.

Details of Organization. Swift goes into the details of the organization of the International Harvester company, declaring that shortly after its formation an arrangement was made between President Cyrus H. McCormick, Charles Deering, George W. Perkins and Saturday night rolls around the \$100,000 William C. Peter E. Her says: "Grading has been completed and ties are being laid for the interurban road ten miles out of Lincoln. Rails have been shipped and are on the way. I have positive assurance that a gang of men will be set to work between here and Sarpy City within a month. This is to follow out the plan of working from both termini to a central point. Conditions generally regarding the road are satisfactory and before long I look to see the rate of construction greatly accelerated."

DEAFNESS, HEAD NOISES. DEAFNESS, HEAD NOISES.

A well known railroad engineer on the U. P., cured of deafness, head noises and catarrie, says: "I have been troubled with eatarrie of the head and throat, was hawking and spitting, nose stopped up, would take cold easily. I had constant noises in my head, which would almost drive me frantic, my ears would stop up, my hearing was bad, worse some days than others. I could see I was rapidly getting deaf. A friend of mine told me of Dr. Branaman curing so many, so I went to him; his new system convinced me he could cure me, which has been done. I am now free from head noises, my hearing is perfect, my head is free and clear—to make a long story short. I am cured completely.

my head is free and clear—to make a long story short. I am cured completely. I recommend Dr. Branaman to all railroad men who are deaf. WENCEL FRANTA. 2227 S. Eleventh St."
