

CONDITION OF OMAHA'S TRADE

Some Lines Very Quiet, Others Enjoy Good Demand.

LULL COMES WITH HOTTER WEATHER

Cottons Reach High Figures—Coffee Crop Is Late—Sockeye Salmon Won't Run—California Fruit Pack Poor.

With the advance of hot weather comes a lull in business in general. Hardware dealers for dry goods quiet, indeed. House and building contractors have been increasing from week to week and an enormous fall business is expected.

Cotton Goods Soaring.

Omaha dry goods jobbers buying cotton in the east are confronted with a level of prices that is approaching the quotations of 1926. The mills are in shape to command high prices, and together with the fact that the stocks of grain and cotton are exceptionally low, makes a market decidedly favorable to high prices.

Asiety as to Coffee.

Coffee has advanced a cent a pound since Tuesday. The Brazil crop is reported to be higher than New York. Receipts in Brazil of the new crop are expected to be about the estimate made some time ago. They are now on the eve of the marketing of the crop in the United States.

Reports of unfavorable conditions affecting the fishery.

Reports of unfavorable conditions affecting the fishery in the Pacific have been received. The increase has been on five-pound fish and 20-pound fish. Prices for September delivery of new goods are making a new high on the stock market, showing that their outlook is higher.

Prices on salmon named by the Alaska Packers' association.

Prices on salmon named by the Alaska Packers' association are a cent lower. If that the association named last year. It seems there doubtless will be an early advance in Red Alaska. Prices on pink salmon are steady, but a few are high enough that the goods can scarcely be made a 10-cent seller.

California Fruit Pack.

Syrup prices hold about the same. Raisins are holding stiffly to quotations and are in a class of goods which are in demand. California is at present experiencing the hottest season it had for many years.

Spot dried fruit shows several changes.

Spot dried fruit shows several changes. Raisins have advanced a cent a pound. Apples are a cent higher. Seedless raisins of a fine class are in demand.

Philadelphia Produce Market.

Philadelphia Produce Market. Butter—Firm; extra western creamery, 21¢; extra fresh, 20¢; standard, 19¢.

Minneapolis Grain Market.
