Japan has not yet intimated its terms and the reports of its alleged terms are generally speculation. Hints have been dropped by Russia from time to time through British and other sources, but nothing positive has yet been proposed and we have been informed that Japan will lay definite propositions only before the Washington conference. The Japanese have great confidence in M. Witte and M. Witte has streat admiration for them. The personnel of Russia's commission should convince the Japanese that peace depends on the reasonableness of their terms. I believe Russia's acceptance of peace proposals is a greater show of strength than a continuation of the struggle for the sake of pride. Ending the war and turning its attention to internal improvement and the development of its industries will enhance the presige of Russia more than a continuation of the conflict until Japan is finally overcome.

M. Routkowski said he thought the arrangements for a Russian loan would probably be made in Paris prior to M. Witte's departure from that city.

Oregon Congressman Acoused of Conspiracy Testifies in His Own Behalf.

MAKES GENERAL DENIAL OF CHARGES

Was Not in Princville in July, but is Not So Certain When Confronted by Hotel Register.

PORTLAND, Ore., July 17 .- Congressman John Newton Williamson was on the witness stand in the United States circuit court in his own behalf today. The defense has contended that Williamson was at Prineville for a short time in July, 1903 and when the same thing was affirmed on the stand by Williamson today he was confronted by District Attorney Hency with the register of the Poindexter hotel in which, under date of June 15, 1902, was found the singuature, "John N. Williamson." The congressman said the signature was not his own, but he admitted that the word "Prineville," following his name, ap peared to be in his writing. Moreover, he was not prepared to swear that he was not in Prineville at that time.

This point fits in with the theory of the government that Williamson was in Princville two weeks before the filings were made; that there was a perfect under standing between the defendants; that he arranged with his wife to file and that he then went back to The Dalles and negotiated a loan to make payment on the claims. after his departure.

Letter to Binger Hermann

Mr. Heney offered in evidence a letter from Congressman Williamson to Binger Hermann, then commissioner of the general land office, in which he sought to influence the commissioner to enlarge the Blue Mountain forest reserve so as to furnish lands for a further extension of their sheep range and to crowd out the cartlemen grazing in that district. The defense objected to the letter and the court ruled against its admission.

In testifying in his own behalf, the con gressman from the Second district merely entered a general denial of the allegations of the government and on two occasions, in answer to questions by his counsel, declared that he had no part in or knowledge of any conspiracy to suborn perjury, and that he knew of no violation of the law. He denied having seen two of the entry men who have appeared against him until just recently, and at no time before the

About the colony were scattered altars of wood and tinsel, before which Italians knelt in the streets, and on which many of them laid wax reproductions of fingers, limbs or other parts of the body, with their prayers to the saints who heal. The rear end of the long street parade was made up of barefoot women and children, carrying candles melting under the combined heat of their own light and the sun. Candles, many of which were expensive importations from Italy, were an mportant part of the festival, and it was intimated that more than seven tons of them were used today.

Hundreds of pilgrims from out of town were forced to live in the streets and 300 patrolmen were detailed to preserve order.

BRANCH STATIONS CUT OUT Four Sub-Postoffices in the City Are Abolished-Others Not Affected.

The postoffice stations known as Nos. 2. 8 and 10 of this city have been discontinued. These stations are what were known as numbered stations and were located at stores in different parts of the city. They were created simply for the convenience of the general public in the purchase of stamps, money orders and for registered letters, but not for the reception or delivery of letters. The discontinnance of these numbered stations does not affect the status of Station A, on North Twenty-fourth street, and Station B, at Leavenworth street and Park avenue, as nearly so many as the way they run them | they are regular substations for the reception and delivery of mail.

> D. F. Burns, a workman employed by the Union Pacific ice gang loading cars near the Union depot, attempted to board a moving passenger train about 6 o'clock Monday evening and fell in such a manner as to throw his right hand beneath the wheels of the train. The hand was so badly mashed that it had to be amputated just above the wrist.
>
> Burns had just finished his day's work and as train No. 5 of the Northwestern was pulling out he thought he would get on and ride to his home in Council Bluffs. Hurns' family lives in the Bluffs. He was taken to St. Joseph's hospital where Dr. Smith of the Union Pacific performed the operation. Workman Loses a Hand,

PETERMAN'S ROACH FOOD

The most improved method to free a house of large or small roaches is to use the contents of a box of "Peterman's Roach Food" at one time. Shake it on joints so some of it will penetrate and remain to keep the premises continuously free. Roaches eat it as a food; it is the most destructive remedy on this earth to them, and it will not scatter them to other places to live on and multiply.

as a food; it is the most destructive remedy on this earth to them, and it will not scatter them to other places to live on and multiply.

BEDBUGS.—"Peterman's Discovery"
(I hick), a quicksliver cream, is invaluable to kill bedbugs. Apply lightly with brush on beds when apart, on backs of pleture frames, mouldings, etc. It will remain permanent, and is the only remedy that they absorb, and kills those that go over where it has been lightly brushed on. It will not rust iron, harm furniture or bedding.

"Peterman's Discovery" (liquid), in flexible cans, handy to force in joints for quick application, will kill bedbugs and their eggs instantly.

"Petermen's Ant Food"—A strong powder to kill and drive away ants.

"Petermen's Rat-Mouse Food" makes rats or mice wild; they will leave and not return. Take no other, as time may be even more important than money.

JUDGE SEARS SIGNS ORDER IN OMAHA

BLAIR, Neb., July 17 .- (Special Telegram.)-At 3 o'clock this afternoon Attorney Francis A. Brogan, representing the Omano Elevator company in the case of the Worrall Grain company against the above company and others, filed with the clerk of the district court an order which was granted in chambers before Judge Sears in Omaha on a petition asking for the removal of the case from the district court of this county to the United States circuit court at Omaha. Bonds were given for the expenses already incurred in this court, said bonds being

signed by two prominent business men of this city. Judge Sears' order is as follows:
