ARMY NOTES AND NEWS.

War Department and Admission of Liquor to Indian Territory. Army and Navy Register.

The War department continues to receive applications for the admission into the Indian Territory of certain wines and liquors For several years one solicitous individual

fall would prevent him from "butting in" has been asking that he be allowed to import a small quantity of wine for medicinal at this late day. purpose, the patient being his wife who is troubled with chills, a disability which fors not seem to be removed by the application of the wine, since his request is almost periodical. A recent application has been received from some wine dealers, who the South Omaha stock yards. Is not to said their material was destined for sacramental purposes. Some years ago this question came up in the same form and it but Omaha had better be good and not was then determined that the wine could be taken into the territory for church purposes when the application was made by the clergyman who has charge of the wine through his ecclesiastical superior or with other evidence of authority. Several times permission has been given clergymen to have sent them five gallons each month, that being the amount which the church authorities believed to be sufficient for the purpose. The wine dealers who the Indian Territory will be informed that law of nature. they must have the endorsement of the

church people, and that the request must come from the clergymen who intend to use the wine in religious services.

Eleven of the enlisted men who took the examination for appointment as second lieutenant in the army will be provided with letters of eligibility, because they were reported as qualified for commissions in the military service. At the same time these letters are not destined to mean much, since it is admitted at the War department there are no vacancies to which the young conform to popular demand. men may be appointed. There is nothing in sight and they must take a position after that of the graduates of the military academy. There are those who cherish the idea that something may be done for the enlisted men who are candidates for comnissions, but if is guite evident that it will require a fight at the White House.

The War department has been advised that General Thomas H. Barry, Colonel John Van R. Hoff of the medical department, and Captain S. H. Cloman, Twentythird infantry, have left St. Petersburg for Moscow, and are now supposed to be or was entitled to. well on their way to Irkutsk, where they were to receive orders relating to their with the Russian army in the field. While in St. Petersburg General Barry and Captain Cloman were received personally by

"Instead." checks for those millions which he admits says that paper, "with a more efficient were wrongfully taken from the American service and a larger expenditure, the de- people. partment should get acreage county by county far closer than today. The monthly report should give in detail how many acres promise a yield equal, above

or below the known and recorded yield of the year before. Such a report would give facts, arithmetical facts and not impressions. It would not be subject to manipulation. It would be of much more use to the farmer than to the speculator.' The reports of condition now published are declared to be antiquated, inaccurate and to put a premium on faking and

There is unquestionably merit in this view. Those who urge that the government crop reports be wholly discontinued are not meeting with general approval, but there is plenty of evidence that those interested in such reportsand it is presumed that practically the entire farming community takes an interest in them-do not want guesses, but accurate-facts which, as the Press says, would not be subject to manipulation. Perhaps in the matter of reporting "condition" the Department of Agriculture has followed old world methods, but if so it appears very clear that they are far

more trustworthy there than here. At all events, it seems to have been pretty conclusively demonstrated that our system of government crop reporting must be

thoroughly reformed and every sugges tion as to how this may be accomplished should receive careful consideration. Let the monthly reports be continued. It is not to be doubted that the agricultural producers very generally desire this and first consideration. But let these reports give well ascertained facts and not consist largely of guesses. Indeed, this must be done if the crop statistics of the government are hereafter to command con-

fidence. The distrust that has fallen upon them cannot be removed if the methods that have long been pursued are changes looking to the prevention of leak-

Speakers preparing words of greeting a perilous undertaking, requiring more, and trustworthy and this is only to be but there appears to be a fascination in in the nature of guessing. They must

A Future for Ex-Presidents,

Public Opinion. When Mr. Cleveland resumed the prac-

tice of law in 1889, it was felt that he had settled the vexed question, "What shall we do with our ex-presidents?--or rather, What shall they do with themselves?" As nine out of ten of them have been lawyers, his solution of the problem bade fair to prove applicable to almost every case. But when his second term ended, in 1897, and he did what other ex-presidents had done paring vouchers, as hitherto. before him, which was just nothing at all. the whole question was re-opened. Of late years, however, Mr. Cleveland has shown

disposition to answer it anew, and if future presidents see the matter as he does, we may look to see them, on their sian, Bohemian, Roumanian, Finnish, retirement, with one accord turn author. And if their work commands such prices as the sage of Princeton is understood to receive, they will suffer nothing by abandoing the pursuit of the legal profession For papers on fishing, duck shooting, rabbit hunting, etc .- to say nothing of women's clubs-honorariums are believed to be paid which a prosperous barrister would by no means scorn; and if Mr. Cleveland a statement of facts as nearly as possible accepted all the offers he receives from ditors and publishers, he could soon afford to enter the market for works of art partment a couple of days ago, but Egcompetition with his old friend, Mr. Morgan. It is much to be regretted that him thus far the ex-president has not seen his way to give the public a budget of his late Joe Jefferson.

MIDDLE WEST WILL DECIDE.

Winning Tip for the Benefit of Eastern Political Prophets. Springfield (Mass.) Republican (ind.).

Mr. Root, being labelled the greatest man of whom Mr. Roosevelt has personal knowledge, it becomes evident at once to the political prophets that he is not likely to attempt to make Secretary Taft his successor in the White House. There is the possibil their wish in the matter is entitled to ity, of course, that Mr. Root may not deaire to be nominated for the presidency, but may prefer to resume his income of \$300,000 a year as a lawyer at the end of the present administration in March, 1909. In that event it will be possible for Mr. Roosevelt and Mr. Root to co-operate in securing the nomination of Judge Taft. But

the presidency is a great office, and it is hardly probable that Ellhu Root has made up his mind that it is beyond his reach or his desire. On the other hand, Mr. Taft fa known to be willing to have the nomin tion come his way. He has no Mark Hanna to corral the southern delegates for him, and he is not entirely certain of the support of his own state, Ohlo. Mr. Root can probably have the New York and New England delegates, if he wants them, and it will be for the middle west to decide be tween the two leaders.

The chances in such a contest will be naturally in favor of Judge Taft. The western politicians and business men are likely to prefer the Cincinnati lawyer and judge to the New York lawyer. There is the further possibility to be taken into account that Judge Taft may find the great office of chief justice of the supreme court open to him before June, 1909, and that he may take it and ask his friends to support Mr. Root for the presidency. At the present time the two men are on friendly terms. and it is not probable that as associates in

Mr. Roopevelt's cabinet during the next two years they will develop a personal incompatibility.

When Sir Wilfrid Laurier first formed

Word has been received by Prof. Todd of Amherst college from Heldelberg of the naming of two small planets Mabella (528) and Davida (530). They were discovered by Dr. R. S. Dugan, who graduated at Am herst six years ago. He had previously named a planet (also discovered by him) Amherstia (516), in honor of his alma mater. Davida (530) is a planet of exceptional brightness at opposition, approaching the eight stellar magnitude.

It is a curious fact that Mr. Gully, former speaker of the British House of Commons, at one time was very despondent as to his future, and that the despondency was shared by two of his comrades in the legal profession. There is a story of those three discussing seriously whether they had not better throw up England altogether and seek fortune in india or one of the colonies. Luckily they decided to give fortune another chance with very notable results. Mr. Gully ended as speaker of the House of Commons another became lord chancellor; the third

everyone must sell out his stocks and thus bring the multi-millionaires to their knees

"That brother of yours, Lucy," said the man of the house, "seems to be a pretty tough character." "Deed, he is, suh," replied the colored maid. "He jos' natchelly seems to be de white sheep ob our fambly, sho' nuff."-Philadelphia Press.

"You say you think the new boarder is in love with you? Has he made any ad-vances?"

"No; but he says he will as soon as his father remits."-Cleveland Plain Dealer.

The Editor, gloomily-I must say you ion't seem to realize how terrible it is to

don't seem to realize how terrible it is to lose you. The Authoress, sweetly-You mustn't take it too much to heart, my friend. Rejection does not necessarily imply lack of merit.-Judge.
