Superior Court Takes Same View as Justice Field of Case.

LESS EVIDENCE THAN IN FIRST HEARING

Sheriff Announces He Will Continue Work with View of Breaking Down Alibi of Tratner and Doran.

Judge Scott of the superior court, at the close of the preliminary hearing yesterday morning, decided that the state had falled to produce sufficient evidence to warrant him in holding the alleged car bandits, Barney Doran and Joe Trattner, to the suspected them of being hold-up men. He grand jury on the charge of holding up was fired at several times and ran to his two motor cars and robbing the crows on the night of Sunday, July 2, near the east end of the bridge over the Missouri, if he had the time. "You bet I have," he and he accordingly discharged the two answered and pulled out his revolver and suspects.

No further informations in connection with the holdup were filed against Doran and Trattner and they were allowed to board the car for Omaha without being further molested. The charge against to be no particular explanation of the epi-Doran of alleged perjury in connection with his sworn statement as to his age at the time he secured a marriage license in this city was dismissed.

The testimony for the state at the hearing before Judge Scott was, if anything, weaker than that before Justice Field, almen as the bandits who held him up. The night of the holdup Louch stated to the police officers that he was unable to give any description of the bandits, and when asked by Attorney Organ, counsel for the defendants, how it was that he was now so sure of his identification, he replied that he made that statement to the police because he preferred giving what informa tion he could to the sheriff and his deputies This statement on the part of Motornian Louch created no little surprise.

Sheriff Canning stated that he had no intention of letting the matter drop, de-Justice Field had refused to hold the sus-It is understood that the sheriff's force will endeavor to secure evidence to disprove the alibi established by the two men, and if they can do this will bring the natur before the grand Jury which will be dinvened in September.

BURGLAR SCARE AT CAPITAL Fifteen Gurgiaries and Holdups the Record for One Night.

(From a Staff Correspondent.)

DES MOINES, July 21 .- (Special.) - Des

There were fifteen burgiaries and hold-ups last night in various parts of the city and the police seem to be powerless. In fact however, and probably will not be. the more the talk of burglars the more the citizens' clothes patrol the streets only to F. E. Duncan, going home last night took the middle of the street and came nearly being killed by policemen in plain clothes who mistook him for a burgiar, while he home. J. S. Bulger, a St. Paul traveling man, was accosted on the street and asked began shooting. One of the men escaped him and the other threw up his hands and was murched to the police attation, where he is held. Thus far but little money has been secured by the robbers. There seems demic. Undoubtedly part of it is just fright, but the police admit that crime is

rampant in the city and that just at presint they are powerless to subdue it. The people of Clarinda, where Governo August 15, want him to change the date to though Motorman Leuch insisted he was the day following, and are trying to arstill positive in his identification of the two range with the people of Grant in Cass mty, where the governor is to speak on the 16th, to make a trade of dates. The reason given is that the railroads have secured a representative to speak at Clarinda on the railroad side of the rate question on the 16th and the other element wants the governor to be there on the same day

and represent the people's side. At a reception to Dr. Loran D. Osborn the new president of Des Moines college, it was announced last night that the college was out of debt, every cent of indebtedness having been paid, and that there was every encouragement that the spite the fact that both Judge Scott and \$100,000 endowment would be raised by next year, besides the money for the erection of two new buildings. It is proposed to have the city of Des Moines erect one of these and the state the other and the subscriptions are rapidly coming in.

There are four candidates for the post tion of grand chancellor of the Knights of Pythias, the election to which will take place at the convention in Davenport the first of next month. They are Judge F. H. Duncan of this city, James W. Hunter of Newton, a traveling man; Rice H. Bell of Keckuk, a lawyer; F. L. Perris of Sloux company, the money for the payment of City, a lawyer. T. B. Hanley of Tiptor, creditors of Mr. Woodbury having head of the Modern Brotherhood of Amer ica, is a candidate for re-election as representative, as is also Hen L Sallinger of

Hot weather tended to retard activity in many productive undertakings and post-poned forward business that could be de-layed without loss, but accelerated the consumption of seasonable merchandles and advanced the crops much nearer ma-wheeling. W. Va. and advanced the crops much nearer maturity. Confidence in the future increases with each day favorable for harvesting and much of the winter wheat is now beyond danger, while corn is regaming lost ground. There is a general disposition to provide for a large fall and winter business, clothing manufacturers receiving large orders from traveling salesmen. Heat estate transfers are large and building operations numerous. There is comparaestate transfers are large and building operations numerous. There is comparatively little interruption from labor disputes and the net result in all commercial and manufacturing branches is exceptionally satisfactory for this midsummer period. Some improvement is noted in the demand for pig iron, which has been the least active of the industrial undertakings, while footwear factories are less eager to secure forward business because of another advance in hides. BRADSTREET'S REVIEW OF TRAD! Widespread Hot Weather Retards Distribution and Production. NEW YORK, July II.-Bradstreet's to

MEW FORK, July 1.—Bradstreet's tomorrow will say:

A widespread hot wave has retarded distributive trade and interfered with manufacturing industry, but has stimulated cropgrowth and thereby strengthened the outlook for fall trade. Retail trade in summer
goods has been benefited by the heat, as
has also summer resort business. Wholesale and jobbing trade is of good volume,
considering the weather, and compares well
with a year ago. Confidence in fall trade
is unimpaired and there is more liberal
tendency in placing fall orders. More activity in pig fron has led to a stronger tone
and higher prices for that product in leading markets. The quiet in industry is
merely of a temporary character. Manufacturing is really more active than usual
at this time, and summer shutdowns are
not such a feature this year as in former
periods. Money has been remarkably easy
for this season of the year, considering
the nearness of crop moving requirements.
Bailway carnings are favorable, those for
the first half of July showing 7 per cent
gain on 1964. The industrial situation is, on
the third half of July showing 7 per cent
