BELGIAN OLD-AGE PENSIONS

Four Years in Force. SMALL RELIEF FOR WORN OUT WORKERS

Semething About the Law that Ras Been

State Makes Some Provision for Those Who Are No Longer Able Because of Years to Support Themselves.

Article ix of the law of May 10, 1900, pro vides that a pension of 65 francs (\$12.55) per annum shall be granted to every Belgian workman being in a state of need and having his residence in Belgium and who was of the age of 65 on January 1, 1901. Workmen who were at least 55 years of age on January 1, 1991, shall be allowed the same privileges as they reach respectively the age of 65. However, those under the age of 58 on January 1, 1901, are excluded from the benefit of the grant, if for a period of at least three years they have not effected deposits with the government annuity fund of at least 3 france per year and forming a total of 18 francs. The qualifications for receiving the annual pension

of 65 francs are as follows: The pensioner must be a Belgian subject. Must reside in Belgium. Must be at least 68 years old. Must be or have been a laborer. Must be in want.

Laborers for the purpose of this act are defined as follows: Men and women who for wages work with their hands for a master and are paid for their time by the piece and who work on the premises of the master or at home. No distinction is made between the domestic servant, farm laborer or factory hand. Those who are considered ex-workmen are those whose past life corresponds with the above definition. The wife or the widow of a laborer sidered in want and receive benefits under or ex-laborer is for the purposes of this this act, whose joint income amounts to act also considered a laborer.

Determination of Want. Those who are considered to be in need for the purposes of this act are those whose resources are insufficient to meet their obligations without assistance and to establish this qualification the following circumstances are taken into consideration: RESOURCES.

The wages of the interested party, of his wife, of his children or of his relatives living with him.

The value of their personal property and of the premises which they rent.

The nature of their savings, if any.

The amount of public charity received, otc.

OBLIGATIONS. Cost of housekeeping as compared with that of the other laborers in the same trade and in the same neighborhood, taking into consideration the number and age of those who compose the family.

Care of the infirm and sick.

Rent, taxes, etc. All foreigners, no matter what may be the legislation of their country or the length of their residence in Belgium, are excluded from the benefits of this law, unless they have become naturalised. However, a foreign woman who marries a Beigian becomes a Belgian subject and remains such, even after the death of her

The burgomaster will then refer the application to what is known as LOOKS FOR WHILE LIKE FUR WOULD FLY the committee of patronage, a local body, which has under its supervision all mat ters relating to workmen's habitations and charitable institutions. It is the committee of patronage which decides upon the merits of all applications and advises the applicant and the governor of the province of its decisions. Against the finding of the committee there is an appeal to the governor of the province. The final decisions are transmitted by the governor to the minister of industry and labor at Brussels and the Bureau of Labor orders the payment, which is made in two installments of 32 and 50 france (\$6.28) through the local postoffices, where the beneficiaries must appear in person and sign their receipts. The old age pensions are paid by the na-

tional treasury from the budget. The Department of Commerce and Labor sends to the burgomasters during the month of January of each year a list of the persons residing in their district who receive the pension. The burgomaster notes on this list all deaths and changes of residence and any change in the financial circumstances of a pensioner which may have taken place, and if the condition of the pensioner is found to have improved during the last year and that he is able to maintain himself, the pension ceases.

This pension of \$13.55 per annum granted without prejudice to the pensioners receiving further relief from the Board of Public Charity.

Persons Not in Want. No person of the age of 65 may be con sidered in want whose revenue for his own use amounts to \$70 per annum and no married couple of the age of 55 can be con-\$120 per year.

Employes of the state, especially postnen, rural police, etc., who are pensioned by the treasury, cannot be considered as laborers under this act, but those having been employed by the government rallway may be so considered.

The present number of old age pensioners now on the list and receiving aid from the Belgian government is something over CHURCH HOWE. 200,000.

STORM AT THE CITY HALL Escape Uninjured.

Aftermath of First Ward Councilman's Defeat at the Club Friday Night Draws Big Crowd.

The aftermath of the turning down of Councilman Back in the reorganization of First Ward Republican club Friday night nad a sensational ciimax Saturday morning in the main entrance to the city hall, when Back and Health Officer George Cathro exchanged personal compliments that oose the skylights. The rotunda from floor to dame was filled with a great volume of voice. In less than twenty seconds every officer, clerk and stenographer in the building dropped his work and rushed to the stood in attitudes like Jeffries just before he took the belt.

"Where is the end seat hog that won't move over?" demanded President Zimman. rolling up his sleeves and rushing forward to learn the reason of the din. "Let 'em fight it out on the voting machine, sample right here all ready for usecan be operated by the smallest child."

People in the city hall and on the street thought it was a fire or Jerry McMahon boosting his Third ward councilmante candacy. Everybody got to the hall as juickly as he could, but the actors grew timid and quit at sight of an audience. Councilmen Back and Evans were stand ing in the corridor near the city clerk's office chatting when Cathro came in. He passed them, but Back made some remark about Cathro's republicanism and fidelity to the city ball machine and the health officer flared up. Back wanted to know if it wasn't true that Cathro had taken demo crats and Tenth warders into the First ward club's meeting the night before and with their aid elected Frank Honza, an dren, mothers and bables is the latest anti-machine man, president, instead of old barn on the east end of Leavenworth laudable work in which the Salvation Army Back's choice, Tom Astleford, Back street, Councilman Zimman said: is engaged. MANAWA HAS MORE TO OFFER Lakeside Resort Holds Out Many Attractions to the Pleasure Seekers.

The popularity of Lake Manawa is increasing to such an extent that the street railway company has doubled the regular car service on the Manawa line and will continue this extra service just so long scorched the Italian marble and jarred as the big attendance lasts. Manhattan beach is especially favored and the daily average of bathers in attendance is larger than ever before and keeps right on growing. Al Foll, the expert swimmer in attendance, has a constantly growing class forgery and obtaining goods under false storm center, where Back and Cathro of women to whom he is giving instructions and among the gentler sex a little rivalry for pretty bathing costumes has developed. Besides the boating, bathing, fishing, bowling alleys, penny vaudeville, novelty gaileries and numerous regularly established pastimes in the parks, the program of free shows for today and the ensuing week will be lengthy and varied. The Devoe brothers scored so nicely with their remarkable feats of equilibrism that they have been engaged every afternoon and evening for another week. G. L. Heffner, the handsome oung baritone, will sing several new illustrated ballads at the Casino each evening, while an entirely new series of motion pictures, including "The Enchanted Melon," "A Dance Plastique," "The Performing Dogs," and "The Incendiary, or the Gypsy Fire Starter," will be shown by the kinetogoing to the health department and Back scope. A complete change of music will rendered by Covalt's concert band, including several solo features. A balloon ascension at 6:45 p. m. today and a high dive in the afternoon and a fire dive at night by "Dare Devil" Fackler will constitute two thrillers for those who like something sensational. At the ball park the Neumayers and the Storz teams will cross bats at I o'clock this afternoon.
