Premium is Small-Corn and Oats Both Decline-Drouth in Hungary and Roumanin-Rust Strustion.

OMAHA, July 26, 1905.

OMAHA, July 2, 1965.

September wheat sold at a premium over July a good part of the day and at the close it was a split above July. September was ick lower than yesterday and July was like lower. The market was weakened by large receipts and the fact the northwestern rust reports are not given a great deal of credence. July reached its low point for September. July closed at 85%c. September at 85%c and this was also the low point for September. July closed at 85%c. September at 85%c, day for an December at 87%c. Corn was off 160%c. Good crop conditions were mainly responsible and lower cables contributed to the tendency. July closed at 187%c, old July at 56c. September at 25%c. old September at 85%c. December at 45%c. Oats opened at yesterday's close, but declined with the general market. July closed at 30%c. September at 25%c and December at 19%c.

Liverpool closed unchanged to 1/4 lower on wheat and 3/4 lower on corn. Crops are reported damaged by drought in Hungary and Reumania. There is strong demand from the continent for corn.

Primary receipts of wheat were 1,286,000 bushels against 502,000 bushels last year. Primary corn receipts were 604,000 bushels against 502,000 bushels last year. Thirty-one loads of corn were taken for export at New York.

Black rust has been discovered in eight counties in Minnesota by the government

one loads of corn were taken for export at New York.

Black rust has been discovered in eight counties in Minnesota by the government crop reporters. According to the Minnesota weekly crop builtein, black rust has been identified by microscopic examination, but up to the present time little or no damage is apparent. It is figured by Chicago wheat traders that the Watson buil element and their friends are long between 7,000,000 and 8,000,000 bushels at Chicago. They are betting on extensive damage to the spring wheat crop by black rust and blight.

It is said that they control the Minneapolis market and are working to buil prices to make another killing. From John Geddes, who runs an elevator at Winnipeg, comes the report that wheat is in good condition and a full normal yield is expected. Telegrams from station agents over 2,000 miles of milroad in John Newska. South

and a full normal yield is expected. Telegrams from station agents over 2,000 miles of railroad in Iowa, Nebraska, South Dakota and Southern Minnesota say there is no rust.

Prom today's Inter Ocean: "A. I. Valentine, who went to the northwest to investigate the crop a few days ago, was back yesterday. He said: 'With favorable weather the northwest will have an average crop, but with unfavorable weather it will not. The most of the damage has been found in Hennepin and Wright counties, in Minnesota, where weather conditions have been most unfavorable. The fields around Cokato, Minn., have been swept bare by the crop experts, who found black rust there. There are also fields that will go 25 to 35 bushels to the acre. Whenever a new spot is mentioned as having black rust the crop experts are hustled out in make investigations. There is more rust in Minneapolis than any other place."

GRAIN AND PRODUCE MARKET | July, SILMS; September, new, 810; Septem- | NEW YORK STOCKS AND BONDS

CHICAGO GRAIN AND PROVISIONS Features of the trading and Closing Prices on Board of Trade.

CHICAGO, July 36 - steports deciaring fawith whose caused fresh weakness here to-

sown whost caused from weakness here totay. At the close september wheat was
nown ago. Corn as off at. Once show a nose
at here. Frovisions are practically unchanges.

benimment in the wheat pit was bearish
almost without variation from beginning to
end. Notwithstanding named prices for
wheat at Laverpool the market here opened
weak, with September down appet to gap
at sogging, Longs were merke seiers. There was also consideration seining
for short account. The situation in the
northwestern wheat neight formed the principal source of weakness. Inc. fact that
harvesting operations in the southern pornorthwestern wheat heads formed the principal source of weakness. Inc fact that harvesting operations in the southern portions of minnesota and South Dasota are expected to be in full swing early next week was largely instrumental in dispending doubt as to the condition of spring wheat in that territory. About the only ray of hope for the bulls was gleaned from a prediction of showers throughout the northwest. The prediction caused a slight rally soon after the opening, September selling up to 87c. The advance was quickly followed by increased profit taking. As a result September dropped to 50%C. The market closed weak, with September at 50% upolyc. Clearances of wheat and floor were equal to 35,600 bushels. Primary receipts were 1,385,000 bushels, compared with 70%,500 bushels a year ago. Minneapoils, Duluth and Chicago reported receipts of 444 cars, against 185 cars last week and 219 cars a year ago.

Larger receipts than estimated caused weakness in the corn market. Some of the leading bulls were active asiles.

a year ago.

Larger receipts than estimated caused weakness in the corn market. Some of the leading buils were active sellers. Cash houses also sold freely. The selling by cash houses was probably due to more liberal acceptances from country dealers. Crop reports generally were of a bearish nature and weather conditions were extremely favorable for the new crop. The price of cash corn was legic lower. The market closed weak. September opened a shade higher at 54%c, sold off to 33%c and closed at 53%g65%c. Local receipts were 366 cars, with 54 cars of contract grade.

The feature of trading in oats was liquidation by several prominent holders. Under this selling pressure the market became quite weak. The free movement of the new crop was one of the chief depressing factors. In today's arrivals 42 cars were new eats. The market closed weak. September opened a shade higher at 20c, sold off to 25%c and closed at 25%c. Local receipts were 161 cars.

The provisions market felt the effect of the weakness in the grain juts, but prices showed only slight losses. An advance of 5c in the price of live logs had a steadying influence. At the close September pork was off 5c at \$15.05. Lard was a shade lower at \$7.20@7.22%. Ribs were up a shade at \$7.57%. Estimated receipts for tomorrew: Wheat, 217 cars; corn, 228 cars; oats, 198 cars; hogs, 23.000 head.

The leading futures ranged as follows:

23,000 head.

Foreign Financial. LONDON, July 26.—Money was in increased demand for Stock exchange requirements. Trading on the Stock exchange was quietly cheerful, operators being engaged in the carrying over, which was light. Consols hardened. Americans opened dull and rose slightly to over parity. The dealings were few and the market closed quiet. Foreigners were quietly firm. Russians were supported in view of the peace anticipations. Japanesse were irregular. The new Japanesse loan was much wanted. Mexican rails were strong on the traffic increase. Japanese imperial de of 1904 were quoted at 104. crease. Japanese imperial 6s of 1904 were quoted at 104. BERLIN, July 26.—Prices on the bourse

berlin, July 28.—Prices on the bourse today were generally unchanged.

PARIS, July 26.—Prices on the bourse today were strong and steady. Russians were not very buoyant on the approach of peace negotiations. Russian imperial 4s were quoted at 88.90 and Russian bonds of 1904 at 502. Bank Clearings.

CMAHA, July 26 -Bank clearances for today were \$1,371,983.81 and for the corres-ponding date last year \$840,102.81. Wool Market.

BOSTON, July 28.—WOOL—New strength is found in the wool market. This is partly a result of the satisfactory opening of the better grades of men's wear woolens for spring. In view of large sales and the satisfactory condition of the goods market lower prices in the near future are not sooked for, on the contrary the tendency is believed to be distinctly upward. Territory wools have been in fair movement. There is a steedy demand for pulled grades. Foreign wools are firm. Leading quotations follow: Ohio and Pennsylvania XX and above, 38237c; X, 34356c; No. 1, 41342c; No. 2, 42343c; fine unwashed, 25333c; quarter blood, unwashed, 25333c; unwashed delaine, 30331c; unmerchantable, 32335c; fine washed delaine, 30331c; unwashed delaine, 33634c; three-eighths blood, 34535c; fine washed delaine, 28c, Kentucky and Indiana three-eighths and quarter blood, 36537c. 42
Huffman
Squires
S. & S.

Other buyers corn-feds were what were wanted and on these kinds trading was active and the market generally 5giloc higher. The bulk of the steers, however, were western and Texas staff, and buyers were slow to take hold of them. Trading was dull and draggy and prices a little weaker. Packers claim a poor outlet for beef at present and that their coolers are full, and as a consequence they are rather poor buyers.

The cow and helfer trade was slow today, there being but little activity to the demand. Buyers were indifferent on the western stuff and prices ruled a little weaker. Corn-feds, however, while not any higher, were in fair demand at just about steady prices. orn-feds were what were wanted and on

prices.
The bull market was unsatisfactory, buy-The bull market was unsatisfactory, buyers overlooking anything that was not very
good. Prices on the common stuff were
lower, but veal calves and stags were about
steady.

There was a fair supply of stockers and
feeders on sale today and there was a good
demand for the stuff. Trading was fairly
active on these kinds and the market was
stronger. Benresenfaire sales.

80

SHEEP-There were about ten cars of sheep held over from yesterday, making with the eighteen cars received today, about twenty-eight cars on sale. There is a good deal of sameness to the murket, no new features developing. As noted yesterday, the break in prices at eastern points and the small outlet for mutton has demoralized the market at all points, and as values have been too high all along conditions have been sgainst selling integests all the week. Buyers again today showed but little interest in the receipts and very little was done in the killer line till well along in the forenoon. The feeder trade was better, there being a good demand for the stuff, but it sold at easter prices.

Quotations on fat sheep and lambs: Good to choice yearling wethers, \$4.0005.00, good to choice wethers, \$4.3504.50; good feeding yearlings, \$4.3504.50; good feeding yearlings, \$4.3504.50; good feeding wethers, \$3.3504.10; good feeding ewes, \$2.7503.50.

YOUNG GIRLS ARE RESCUED Two Young Women of Tender Age with Consort Land in Custody of Police.

William Maloney, alias William Manning, of 1508 avenue C. Council Bluffs, was arrested Tuesday evening by Officer Shields at the house of Jennie Martin, 822 Dodge street. With Manning at the time of the arrest were two young women who gave their names as Margeret Pinhero and Mary Hall, of 1616 and 1823 avenue C, respectively, Council Bluffs. Until the case could be investigated Manning was charged with procuring, but a complaint of being an inmate of a disorderly house was filed against him in police court.

Judge Berka will pass on the case Thursday merning. The young women were placed in charge of Matron Anderson until their parents could be notified. The Hall girl says she is but 16 years of age. Manning maintains he had no wrong designs in taking the yonug women to the Martin house of illfame.
