PRICES IN GENERAL RULE EASIER

Large Estimated Receipts for Saturday Offsets Northwestern Rains-Rust Scare Makes Commission Business Smaller.

OMOHA, July 28, 1966.

With only fair cash demand and heavier receipts expected tomorrow than is usual on saturday, wheat developed a bearish tendency, heavy rains last night in Minnesota and Dakota, was responsible for a little better prices early in the morning, but the tendency was checked by reports of fair weather today. July closed at 85c, September at 35 he and December at 85 he with very favorable weather for corn, futures in that grain were steadled by an active cash demand and prices were off about he. July closed at 55 he, old July at 54 he, is eptember at 18 he, cold September at 18 he, and December at 18 he, cold september at 25 he, cold september at OMOHA, July 28, 1906.

A week ago the Omaha commission A week ago the Omaha commission houses were doing an enormous business in wheat. In the last few days it has fallen off, in some cases as much as 50 per cent. This if due to conflicting rust reports from the northwest, which put the traders on the auxious seat and make them afraid to open new deals. The reports are attributed to the northwestern bull interests, who are said to be trying to kill the crop and firming the trade. Several of the largest Chicago commission houses say their business has fallen off 50 to 60 per cent largest Chicago commission houses say their business has fallen off 50 to 60 per cent

largest Chicago commission houses say their business has failed off 50 to 50 per cent in the last week.

Argentina wheat shipments for last week were 2.456,000 bushels, or 92,000 bushels more than the week before and more than 1,000,000 bushels ever the same week last year. Corn shipments from Argentina were 5.459,000 bushels, a decrease of 24,000 bushels.

The cash demand yesterday at Minneapolis was poor. Millers from that place are now in the southwest, buying in competition with Chicago houses, and it is likely that a liberal volume of southwestern wheat will move toward Minneapolis in a few days. The news comes from Minneapolis that Jones is to be out shortly with a very bullish report on wheat. The government monthly crop report, to be out August 10, will be issued at noon, instead of afternoon. This is to enable American markets to get ahead of European markets. tets.

Liverpool closed with wheat unchanged to 14d lower and corn 34d lower

NEW YORK STOCKS AND BONDS | FEBR. 613, 873; gold coin and builton, \$47,062,633. OMAHA LIVE STOCK MARKET REPORT OF THE CLEARING HOUSE Transactions of the Associated Banks | Beef Steers a Dime Higher, with Cown Market is Broader and More Animated

Paring the Week.

NEW YORK, July 28.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended July 27, with the percentage of increase and decrease as compared with the corresponding week last year: CITIES. Clearings. Inc. Dec.

New York .... \$1,373,190,855 23.0 181, 439,082 135,096,171 119,560,138 51,013,968 48,653,223 33,781,218 Chicago Boston Philadelphia NEW YORK, July 28.—The creeping upward movement of prices which has been in progress for several days flared up into a flash of speculative spirit today and the stock market was broader and more animated than for a considerible time. The sales effected in the two hours to noon equalled the maximum for a whole day recently. Thereafter there was a decided failing off in activity and some hesitation in pursuing of the holdings acquired in the early part of the day.

The upward movement was not expected by any immediate event and seemed to result rather from a crystallization of confidence which has been gathering from day to day. The movement continued largely professional and there was evidence of manipulation here and there in the volatile rise of closely held stocks of which little increase of the supply in the market results from a bidding up of the price. The very large occasional transactions in some of the market leaders of which the market supply is large also suggested a process of churning designed for effect upon the price or upon the sentiment on observers rather than for the accumulation of stock. Commission houses, however, reported an appreciable increase in orders from miscellancous sources, presumably of less highly speculative origin.

The tone of the bond market was also sensibly improved and the broadening of \*St. Louis .....
