COUNCIL BLUFFS

ACTION ON DRAINACE DITCH | leaving the store by the back door, which

Pottawattamie and Harrison County Boards Scheduled to Meet Today.

MAMAGES THE ONLY KNOTTY PROBLEM

ort western Railroad Awarded Ten Thousand Dollars by the Appraisers and Demands Four Times that Amount.

There seems to be little doubt that when the boards of supervisors of Pottawattamie and Harrison countles meet together here comorrow, final action in establishing the joint drainage district will be taken. The only difficulty, which the two boards appointed will have to contend with, is the matter of the amount of damages to be awarded. That this question will result in litigation appears to be inevitable as many of those entitled to compensation have declined to accept the award of the appraisers.

Since the last joint session of the two boards, when final action on the establishment of the ditches was postponed on account of the discovery that a number of interested parties had not been served with the required notices, this defect has been The Harrison county people have been hard at work, and it is stated that waivers have been secured from every interested party on whom notice had been neglected to be served. These waivers will be presented at the meeting tomorrow.

The question of damages, however, will be a harder matter to dispose of. That appraisers were not over liberal in their award, is the general opinion. The Northwestern railroad, which will have construct three new bridges in the event of the ditches being dug has already begun su't against the two boards to enjoin the construction of the ditches until its matter of damages is settled. The Northwestern claims that it will be put to an expense of at least \$41,000 in constructing its three new bridges but the appraisers considered that \$10,000 would be sufficient. When the ditches were first proposed the appraisers at that time awarded the railroad some thing over \$38,000 but the whole thing fell through and the proceedings to establish the drainage district were begun anew.

Officials of the Northwestern state the railroad will never consent to the \$10,000 award. Thomas Tostevin, county surveyor of Pottawattamie county, who made the survey on behalf of his county of the proposed ditches is of the opinion that the appraisers take a wrong view of the matter as to the amages to which the Northwestern is entitied. He says that the Northwestern is entitled to the full amount which it asks and which is no more than the actual cost of the bridges it will be required to

After taking final action in establishing the joint ditches, the two boards will have to advertise for bids for their construction and this will require at least thirty days. so it is not likely that even under the most favorable circumstances, work can be commenced this year. It is hoped, however, that everything can be got in proper shape so that the work of construction may be mmenced next spring, unless the hands of the two boards are tled up by injunction suits, which is not altogether unlikly as there are a number of interested parties who from the first have been strongly opposed to the proposed ditches.

INCENDIARY FIRES AT AVOCA Buildings Fired Since

Fourteenth of July. Avoca, the principal town in the eastern part of Pottawattamie county, is experlencing a number of incendiary fires. Following Tanke's elevator Friday night, an attempt was made Saturday to burn down the oil this left him still minus \$78 on the deal. of the Rock Island railroad, this and now he demands in the district court the seventh incendiary fire the that the judgment be raised to \$133. Each town has suffered since July 14. The fire. owever, was discovered in time to prevent the matter to the supreme court if he should the destruction of the building, which formed one of the group set after July 14. All efforts on the part of the authorities to and already the court costs have run up cate or secure any clew to the incendiary incendiaries have signally failed. The nethod adopted by the incendiary in start-

fires has been the same in each case. Large quantities of railroad waste saturated well with oil have been used to set the buildings on fire and this leads to the belief that the incendiary is some dis-charged employe of the railroad who is thus endeavoring to obtain revenge for his

SEARCHING CRAFT

Secretary Wilson Will Probe Every Bureau of His Department.

WORK HAS BEEN GOING ON FOR SOME TIME Number of Employes Have Been

Quietly Dropped from Rolls-President Has Confi. dence in Wilson.

OYSTER BAY, N. Y., July 30 .- Secretary Wilson of the Department of Agriculture is expected at Sagamore Hill tomorrow His visit will enable him and the president to discuss the situation in the department as it relates to the investigation now in progress. All rumors of the intention of Secretary Wilson to resign from the cabinet may be put aside as merely conjectural The secretary has no present intention of leaving the cabinet and the president knows of no reason why he should resign. The president, it may be said, reposes implicit confidence in Secretary Wilson and is thoroughly satisfied that he will solve the difficulties now presented to the entire satisfaction of the chief executive and of the country.

It is probable that Secretary Wilson yacht, Hohenzollern, for Copenhagen, to would have come to Oyster Bay before this had it not been for the unsettled condition of his department, which rendered it practically impossible for him to leave Washington. He is pressing every phase of the without help, when burned or wounded. investigations now in progress and will develop every fact which the country ought to know. That the president is confident the secretary wil purge the department of any scandal that may attach to it is evidenced by the fact that he has not interfered with the pending investigations. All the matters brought to his attention have been turned over to Secretary Wilson with instructions to inquire into them. This the secretary has done and his work has the approval of the president.

It is the determination of both the president and Secretary Wilson to clear the Department of Agriculture of every form of "graft." To this end the likelihood is that every bureau of the department will be inquired into carefully with a view to ascertaining whether any such condition exists as was developed in the bureau of statistics. Quietly, but effectively, Secretary Wilson has been working to this end for many months. Many employes of the department have been dropped from the rolls, practically without the knowledge of the general public. Some have been in the west portion. Tuesday fair and dismissed outright, while others have been permitted to resign. Assurance is given that no stone will be left unturned to eliminate every taint of scandal in the Department of Agriculture.

FLOOD OVERTAKES CAMPERS People Escape, but Water Carries Away Clothing and Camp

Equipage. JUNCTION CITY, Kon., July 30.-Near Wreford, six miles south of town, a cloudburst caused Lyon's creek to rise more than twenty feet. The creek overflowed its banks, doing much damage to farm lands. About 1,000 feet of the Missourl. Kansas & Texas railway track was washed out. Today's trains have been running by of the Union Pacific and Rock Island between this city and White City.

A party of about thirty persons from this city. Chanute and Topeka were in camp close to Lyon's creek, and the flood came upon them while they were asleep. All members of the party escaped in their night clothes. Their camp equipment and clothes were washed away by the flood.

THUNDERCLAP SAVES A LIFE Wakens Daughter in Time to Save Father Who Had Been Chloroformed by Robbers.

CLEVELAND, O., July 20.-A crash of thunder woke up Leola Morton, daughter of Melville Morton, early this morning in time to save her father from death on account of chloroform administered by bur-

The burglars had broken in and chloro formed Morton, and had succeeded in ransacking the house, securing a small amount of booty, when a terrible thunderstorn broke, waking the daughter. She was hurrying to her father's room when she per ceived the odor of the drug and called for help. Morton was revived after neighbors had worked for an hour over him.
