Lighter Corn Receipts Cause Better Prices in that Cereal-Data Strong Through Session-The Foreign Sitzation.

OMAHA AUGUST 1, 1905. government weekly crop report, at noon, was hearlish on spring it caused September wheat to wheat. It caused September wheat to close about a cent below yesterday. The opening was a little easier than yester-day's close, but there was little wheat opening was a little easier than yester-day's close, but there was little wheat offered at the figures, and a better tone developed, Bestember reaching 80%c at the high figure and December 87%c. With rust talk and reports of Russia crop failure there was a general uneasiness about the market, but any tendency to higher prices was offset by the large receipts and the prospect for as large, a quantity tomorrow. market, but any tendency to higher prices was offset by the large receipts and the prospect for as large a quantity tomorrow. The government report came, the market broke. September closed at \$85 grids, December at \$6c and May at \$85.c.

Lighter corn receipts were largely responsible for strength in that market. September closed at \$35 grids, old September at \$25c, old December at \$25c, old December at \$25c, old better throughout the session. September finished at 175c, December at 284c and May at 25c, old December at 284c.

c and May at 19 willoo. dverpool closed 34d higher on wheat and Foreign eron por Foreign crop prospects are beginning to be a factor and may be more in the future. Russian crops are almost a tailure in some provinces. The trade had a report yesterday which puts the situation in a serious way. It is believed that the foreign situation will make better prices. The Russian wheat yield is estimated at 50,000,000 bushels abort.

wheat yield is estimated at 60,000,000 bushels short.

Total stock of wheat in all positions in Chicago were 2.19,000 bushels, an increase of 1,014,000 bushels. Corn stocks ary 5,823,000 bushels, an increase of 55,000 bushels, an increase of 65,000 bushels. Deliveries there on July contracts yesterday were 700,000 bushels of wheat, 700,000 bushels of corn and 200,000 bushels of oats. Kansas City reports 150,000 bushels of wheat delivered there. Primary receipts of wheat delivered there. Primary receipts of wheat were 1,175,000 bushels, against 1,729,000 last year. Primary receipts of oorn were 65,000 bushels, as compared with 560,000 bushels last year and corn shipments were 386,000 bushels as compared with 324,000 bushels last year.

Lake freights are up 4c and boats are scarce. Rates have been so low that vessels have sent their boats for ore rather that take corn at lo, as the ore pays better. There were charters pesterday of 400,000 bushels on the basis of 14,6114c for corn to Buffalo.

Pringle, Fitch & Rapkin at Minneapolis

to Buffalo.

Pringle, Fitch & Rankin at Minneapolis sent the following wire to the George A. Adams Grain company: "Hokason of Hector phoned me the wheat fields there were

tor 'phoned ms the wheat fields there were ripeaing since Saturday with nothing in the heads." The same firm got other reports from Minneapolis that the northwest crop is the best in twenty years.

Snow, Minneapolis crop expert, issued a report today. He says: "I find black rust in practically every section of the northwest. If it should not develop with more intensity than is now apparent the crop loss will be ineignificant. There is a good stand and a generally vigorous plant, so that, aside from rust probability, the present prospect is for at least a full average crop. Conditions are favorable for maturing the crop ahead of full rust develop-

WEATHER IN THE GRAIN BELT Light Showers General in Mountains;

Good Rains in Nebraska.

Good Rains in Nebraska.

OMAHA, Aug. 1, 1905.

Light showers were quite general in the mountains within the last twenty-four hours, and thunderstorms, with fairly good rains, are reported in central Nebraska this morning. Conditions are favorable for light local rains in the Missouri valley tonight and probably Wednesday with no important change in temperature.

The weather is slightly cooler east of the Mississippi river and in the southern portion; it is slightly warmer in the Missouri valley and west to the mountains.

Omaha record of temperature and precipitation, compared with the corresponding day of the list three years.

1905, 1904, 1903, 1902.

Normal temperature for today, 76 de-Deficiency in precipitation since March 1, 7.71 inches. 71 inches. Deficiency corresponding period in 1904, 78 inches Deficiency corresponding period in 1903,

higher, but the general run of she stuff sold at stronger prices, as noted above. Bulls, veal calves and stags sold at just about ateady prices, there being little change in market conditions on this class of stuff.

There was a fair supply of stockers and feeders here, mostly range stuff. There was a good active demand in this division and trade was brisk, the receipts being cleaned up early at stronger prices. Representative sales:

HOGS-With a very light run for a Tresday and eastern markets reporting favorable conditions, prices had an unward tendency. resulting in a good active market. There were only eighty-six loads on sale, and with such light receipts both packers and shippers were good buyers and the stuff was all picked up in good scason. Light hogs were in the best demand and ruled generally logisc higher than yester-flay, while the heavy weights were about 10c higher. The general market could best be quoted as 10ui5c higher. The bulk of the hogs sold at \$6.51400.73%. Some heavies seld early down around \$6.52%. Tops reached \$5.75, with the popular price at \$5.0. Representative sales:
