naval militia was purely for effect and not to stop their further depredations in Louisiana waters. They found out their mistake when the flagship of the patrol squadron, the Grace, and another vessel, the Topsy, stationed at Lake Borgne canal, were seized, their flags hauled down and the officers and crew placed under arrest. The crew of the Topsy will be taken to St. Bernard parish while the crew of the Grace will be brought to this city, both to await the action of the grand jury of the respective parishes, in which their alleged offenses were committed.

The Topsy, accompanied by a launch, was guarding the mouth of Lake Borgne canal, which connects Lake Borgne with the Mississippi river, six miles distant. President issues order. WASHINGTON, Aug. 4.—President Roosevelt tonight forwarded to Surgeon General Wyman of the public health and marine hospital service a telegram from Governor Blanchard of Louisiana requesting that the United States government take control of the yellow fever situation in New Orleans. The president directed the surgeon general to notify him what further action is advisable and possible for the federal authorities to take.

Dr. Wyman acknowledged the president's telegram and will make a report to him tomorrow. Dr. Wyman will confer tomorrow with Secretary Shaw, the surgeon in the marine hospital service and others as to the best course to pursue on Governor Blanchard's request, and on their conclusions Dr. Wyman's report to the president will be based. There are several precedents of comparatively recent date which warrant the government in taking charge of the whole yellow fever situation, notably at Brunswick, Ga., and of the epidemic at the National Soldiers' home at Hampton, Va., in both of which cases the marine hospital service practically took charge of affairs until the disease had been stamped out. The officials of the marine hospital service are anxious to co-operate in every way with the local authorities in fighting the disease and cordial acquiescence in the request made by Governor Blanchard and the citizens of New Orleans is anticipated. The government has at its disposal what is known as an epidemic fund, available however, only in part for occasions like that at New Orleans and expenditures from that fund are usually supplemented by those from local quarters. Dr. Wyman declines tonight to discuss what the probable nature of his report to the president would be.

Missouri Drains Lines.

ST. LOUIS, Aug. 4.—The quarantine order issued by the Missouri Board of Health against districts affected by yellow fever of the state as well as St. Louis, along the entire southern border, and along the western border as far north as Kansas City. The establishment of quarantine or detention camps will be in the hands of the different local boards of health, unless it is found necessary by the state board to inter-

vene. In case persons succeed in entering the state from the danger zones of the south they will be detained in cities or towns farther in the interior if unable to exhibit a bill of health. A steady stream of people poured into the dispensary division of the city health department today to secure health certificates in order to proceed to southern points. Those who were not able to prove that they had been in the city for five consecutive days past were refused certificates.

EAST ST. LOUIS, Aug. 4.—The health and police authorities have established strict precautions to prevent infection from yellow fever, although no absolute quarantine rules have been established. Every train from the south is visited by inspectors and orders have been issued by the Board of Health that any passengers who are apparently in ill health and might be suspected of having yellow fever shall immediately be placed in ambulances and hurried to the detention hospital temporarily established outside the city limits. Herds of tramps are arriving from the south and policemen have been stationed along railroads where tramps alight from trains to take them into custody and immediately start them back south. The Board of Health will hold a special meeting to devise a permanent method of keeping them out of the city.

Kentucky an Open State.

LOUISVILLE, Ky., Aug. 4.—The state Board of Health has issued a proclamation announcing that Kentucky will be an "open state" as far as refugees from the fever infected districts of the south are concerned. Refugees will be subjected to examination, however, and will be detained temporarily in camps which will be established at once near the principal cities and towns of the state.

Suspects at New York.

NEW YORK, Aug. 4.—Four fever suspects were taken from the steamer Nueces from Galveston today at quarantine and transferred to Hoffman island for observation as to the cause of abnormally high temperatures. One was a steerage passenger and the others members of the crew.

CHARLES F. PFISTER INDICTED

Prominent Milwaukee Capitalist Charged with Larceny as Bailor.

CAUSES GREAT SENSATION IN CREAM CITY

Bill Accuses Him of Retaining \$14,000 Paid Him to Be Used in Securing a Garbage Contract.

MILWAUKEE, Wis., Aug. 4.—Charles F. Pfister, one of the wealthiest citizens of Milwaukee, was indicted by the grand jury of Milwaukee county today, charged with stealing \$14,000 belonging to the Wisconsin Rendering company of this city. At the same time indictments were returned against four others, the charge of bribery being alleged in three of the indictments and one of perjury. The indictments are as follows: Charles F. Pfister, capitalist, one indictment; bribery; George F. Reicher, supervisor, one indictment, embracing fourteen counts; bribery; Barney A. Eaton, state senator, one indictment; bribery; John P. Dittmar, formerly newspaper reporter, one indictment; perjury.

The indictment against Mr. Pfister alleges that on March 20, 1901, the accused was bailor of \$14,000 amount being deposited with him for the Wisconsin Rendering company for the purpose of obtaining for the company a valuable contract from the city of Milwaukee for the disposing of garbage. If not so used the money was to be returned to the company. It is charged that Pfister converted it to his own use.

The indictment caused a profound sensation. Mr. Pfister is engaged in many of the biggest enterprises of Milwaukee. He is a director of one of the leading banks, owns a large interest in a big tannery, is proprietor of a large hotel and owns one of the leading newspapers of the city.

Mr. Pfister issued a statement declaring the charge absolutely false and with no foundation whatever. The other four indictments are in no way connected with the charges against Pfister.

Tonight's batch of indictments makes the total number so far returned by the present grand jury 123. The jury has taken a recess until August 22.

PEACE ENVOYS WILL MEET

(Continued from First Page.)

the president's household and escorted by the officers were directed to a carriage which President Roosevelt had sent to the station to convey to Sagamore Hill. Neither Baron Rosen or M. Witte would make any comment on their visit. They entered the carriage in waiting and, with Secret Service Detective Burns on the front seat, were driven rapidly to the president's home in time for luncheon. President Roosevelt gave M. Witte, who was presented to him by Ambassador Rosen, a most cordial greeting and they chatted informally and intimately before the luncheon was served.

It was the desire of M. Witte to pay his respects to President Roosevelt before the formal reception of the envoys tomorrow. That his visit was of some significance is, perhaps, beyond doubt, but positive assurances were given that it did not differ materially from that of Baron Kurama last week. The subject of the pending peace negotiations was discussed generally, but beyond that no statement concerning the conference was made. Neither the president nor M. Witte seemed to make any announcement about it for publication.

M. Witte and Baron Rosen left on the 4:20 p. m. train for New York, occupying their special car alone, as on the journey to Oyster Bay.

School Funds Landed Out.

PIERRE, S. D., Aug. 4.—(Special.)—The state land department has in the first six months of the present year placed \$265,000 of the permanent school fund, the greater part of it \$181,111 being farm loans; and the balance on school and municipal bonds. School districts of the state took \$25,750 and municipal corporations \$11,000. The county auditors over the state, who are looked to by the department to keep the appointments of their counties bearing interest are keeping the uninvested permanent fund down to bedrock under present laws. Loans have been made in all the counties of the state for the first six months in the year with the exception of Custer, Hughes, McCook and Stanley.

Sunday School Workers Protest on Method of Conducting Chautauquas.

Was Among Insurance Companies Has Resulted in a Decrease in Rates for Farm Property.

(From a Staff Correspondent.) DES MOINES, Aug. 4.—(Special.)—A special meeting of the executive committee of the Chautauque school association was called to meet at Colfax today to protest against the action of the chautauquas of the state in neglecting the Bible instruction feature of the chautauquas. B. F. Mitchell, the state secretary, stated today: "The original idea of the chautauquas was for religious instruction. It was planned by Bishop Vincent and the first chautauquas were strong in that feature. Now it is proposed to drop that entirely. The Sunday school workers propose to use every means possible to get it restored. We propose to show them they do so and will protest vigorously." At the meeting today resolutions were adopted and plans discussed to enter a protest and arouse an interest with the public in the Bible feature.

Hear Clearfield Arguments.

State Superintendent John F. Riggs today heard arguments in the case from Clearfield where there is a desire to relocate a school house. About twenty men from Clearfield were present to attend the hearing. The majority of the houses are in one end of the district and the majority of the children are in the other. The school house is now located in the end where there are the most houses and fewest children. Prof. Riggs took the question under advisement and will announce his decision in a few days.

The map will be done from Des Moines as a center and the map is to show all the features of the country that are of value as war information.

Explosion Injures Two.

While carrying five gallons of formaldehyde upstairs at the plant of the Rex Fluid company at 98 Walnut street yesterday afternoon there occurred an explosion and fire. The stairs opened into a room in which was kept a year's supply of permanganate of potash and the formaldehyde mingled with it and in an instant the building was in flames. Patterson and Manager W. S. Chamberlain were both overcome and badly burned.

Claims to Be Alice Roosevelt.

The police of this city are endeavoring to ascertain the identity of a woman whom they have under arrest and who claims to be Alice Roosevelt. She wanted to visit in Des Moines on the Topsy street railway from the Philippines. She is about 50 years old and when this fact was pointed out and her attention was called to the fact that Alice Roosevelt was a young woman she said she fished appearance was due to her complexion. Last night she claimed to be Mrs. Grover Cleveland in disguise, and finally admitted that she was really Maude Adams getting pointers for a new play.

Dubuque Makes a Gain.

Dubuque county has gained 987 in population since 1900 and this year it is practically all made by the City of Dubuque. Five years ago the population of the county was 56,000 and this year it is 57,000. The city of Dubuque made a gain from 24,257 to 24,487. Case county shows a loss, according to the official returns. The population is now 20,500 and five years ago it was 21,274. The city of Atlantic has gained from 6,046 to 6,138.

Denison Has No Interest.

Governor Cummins is in receipt of a letter from W. J. Connell of Omaha, attorney for Tom Denison, denying that Mr. Denison has any interest in the chautauque. Mr. Denison is a resident of Omaha as claimed by Attorney Thomas in the hearing before Governor Cummins a few days ago. He states that he is really desirous of having Sheriff remain in the state and testify.

Powell Clayton Here.

General Powell Clayton of Arkansas is in Iowa. He is visiting his son and son-in-law, both of whom are captains of the Eleventh cavalry. He will remain at the fort for a time and later in the month will leave for Colorado to visit for a time. He was a predecessor to Mr. Conger as ambassador to Mexico.

War for Farm Insurance.

There is a war on in this state for farm insurance. The war is between the Iowa and the eastern companies. The first cut on the 2 per cent rate that has prevailed here was last fall by the Continental of New York, American of Newark and German of Freeport. There have been other cutters since then.

EVER TREAT YOU SO?

Coffee Acts the Jonah and Will Come Up. A clergyman who pursues his noble calling in a country parish in Iowa, tells of his coffee experience: "My wife and I used coffee regularly for breakfast, frequently for dinner and occasionally for supper—always the very best quality. I confess coffee never could find a place on our table. In the spring of 1896 my wife was taken with violent vomiting which we had great difficulty in stopping. "I intended to come from coffee drinking but we could not get away from an accident. In the following July, however, she was attacked a second time by the vomiting. I was away from home filling an appointment, at the time, and on my return I found her very low, she had literally vomited herself almost to death, and it took some days to quiet the trouble and restore her stomach. "I had also experienced the same trouble, but not so violently, and had relieved it, each time, by a resort to medicine. I read the little book, 'The Coffee and the Vomiting,' and the use of coffee was at the bottom of our troubles, and so we stopped it forthwith and took Postum Food Coffee. The old symptoms of disease disappeared and during the nine years that we have been using Postum instead of coffee we have never had a recurrence of the vomiting. We never weary of Postum, to which we know we owe our good health. This is a simple statement of facts." Name given by Postum Company, Battle Creek, Mich. Read the little book, "The Coffee and the Vomiting," in each package.

SENATOR FARRIS GAINS POINT

Court Finally Excludes Evidence Relative to Alleged Boodler's Bank Account.

DEFENDANT TESTIFIES IN HIS OWN BEHALF

He Denies Every Accusation Made Against Him by John A. Lee—Will Be Cross-Examined Today.

JEFFERSON CITY, Mo., Aug. 4.—Upon the resumption today of the trial of Senator Frank H. Farris on the charge of bribery, the point in controversy at the conclusion of yesterday's session over the admission of the books of the Steelville bank, a service to show deposits made by Farris on March 21, 1901, was settled by Judge Davis, who ruled that the introduction of the books as evidence be allowed. J. T. Coffey, cashier of the bank of Steelville, who was on the stand when the point in controversy arose today, identified the books introduced. Thomas A. Gibson, who was cashier of the bank in 1901 and who kept the books of the bank, was placed on the stand to identify the handwriting as his own. Attorney General Hadley asked the witness to say if his own personal knowledge whether Farris had deposited a large sum of money in the bank on March 21, 1901. Witness did not remember. Judge Davis then decided to exclude the books from being used as evidence.

Teller Identifies Draft.

W. H. Hettle, teller of the American Exchange National bank of St. Louis, was identified a \$7,000 draft as the one that was paid Lee through the bank. He also identified the signature of John A. Lee to a letter written to D. J. Kelly of New York stating that he (Lee) was going before the grand jury and would protect all parties. Lee had denied the authorship of the letter. Another attempt was made by Attorney General Hadley to have the Steelville bank books admitted as evidence, but Judge Davis strictly adhered to his ruling not to admit them. The state then offered depositions taken by the defense more than two years ago, and which have been in the custody of the clerk of the court, from D. J. Kelly, a New York witness. Kelly had been indicted and had gone to Canada from New York. These depositions were refused by the court as incompetent.

Senator Farris on the Stand.

The state then rested its case and the defense began examination of witnesses. Senator Farris took the stand in his own behalf. He denied every accusation made against him by John A. Lee. He admitted talking to Lee about the alium bill and said he told Lee that he was opposed to it. He denied the meeting with Senator Morton and Lee at the Madison hotel. He denied emphatically that he went to St. Louis on the 6 o'clock train with Lee and Kelly and declared that Lee did not visit him in his room at the Laclede hotel in St. Louis, nor gave him any money there. Attorney General Hadley will cross-examine him tomorrow.
