Secretary Bennett Mails Out Certificates to the Various Counties.

TOTAL REVENUE IS OVER TWO MILLION

Pormer Chief Justice Sullivan is to Assist Attorney General in Grain Companies Injunction

(From a Staff Correspondent.)

LINCOLN, Aug. 4.-(Special.)-Today Secretary Bennett of the State Board of Equalization and Assessment completed his work on the assessments and prepared the certificates of the state board's action for mailing to the counties, thus bringing the work to conclusion in record-breaking time, much to the surprise of the members of the board, who had feared that it would be unable to do the work by August 8, the statutory limit.

The total revenue on the valuation of \$304,419,340.62, the revised and corrected figures for the grand assessment roll is \$2,130,933.35, of which Douglas county contributes about one-tenth, \$206,935.11. The total revenue for the general fund on the schools, derived from the 1/4-mill levy it is \$162,309.68. In the university fund and floating debt funds each will get \$304,419.32 from a 1-mill levy.

The fact that there will be a surplus in the general fund above the current expenses leads Governor Mickey to believe that in the two years of his second administration one-half of the \$2,000,000 floating debt can be retired, according to a state ment made today, in which he said that that result would carry out his pledge to the people to reduce the amount of the state's obligations.

The following table gives the assessment roll of each county as equalized by the state board, and also the amount which each county will contribute under the 7-
