Trade in Leading Grains Shows Opposite Tendencies.

WHEAT GOES UP AND CORN DECLINES Report that Rain is Damaging Wheat

Obts sustained a decline September closed at 27%c, December at 25%c and May at 30%c.

The Liverpool close was 1,40%d higher on wheat and 16d higher on corn.

Argentina shipments of wheat last week were 2,016,000 bushels, against 2,64,000 bushels the week before. Corn shipments were 2,551,000 bushels, against 3,64,000 bushels the week before. Frimary receipts of wheat were 552,000 bushels and bilipments \$21,000 bushels. Last year receipts were \$60,000 bushels. Last year receipts were \$60,000 bushels and shipments \$21,000 bushels. Corn receipts were \$48,000 bushels and shipments \$25,000 bushels. Corn receipts were \$40,000 bushels and shipments \$25,000 bushels. Corn receipts were \$60,000 bushels and shipments \$25,000 bushels. The Duluth Commercial Record has received reports from fifty stations through North Dakota and Minnesota and there is not a bad one in the lot. Charles Kennedy of Buffalo says New York has raised the biggest wheat crop it ever had. Antwerp cabled: "The Hungarian and Roumanian corn crop damaged by drought. We have no occasion to change our opinion of the Russian wheat crop." The Siberian wheat crop is said to be above the average.

American exporters are saying that wheat prices in Chicago are far out of line with those abroad. They hear of wheat selling c. i. f. Rotterdam, at 99c from Baltimore. It is a great deal poorer than Chicago wheat, as the good wheat there brings nearly 90c, to say nothing of charges east of Buffalo, which amount to 49c a bushel. It can be seen that European prices are out of line for Chicago business.

Nebraska was the only state that sold corn to any extent yesterday. One Chicago house bought \$0,000 bushels in the state at equal to \$6c for No. 3 on track Chicago house bought \$0,000 bushels in the state at equal to \$6c for No. 3 on track Chicago house bought \$0,000 bushels in the state at equal to \$6c for No. 3 on track Chicago house bought \$0,000 bushels and lowa were small, this being attributed to extreme lightness of stocks there. Putter of Chicago is credited wi

WEATHER IN THE GRAIN BELT Clear from Mississippi Valley to the Pacific Coast,

Pacific Coast.

OMAHA, Aug. 4, 1905.

Generally clear weather provalls from over the Mississippi valley to the Pacific coast. No precipitation worthy of mention has occurred in the central valleys since the last report. Light and scattered rains have fallen in the lake region, Ohio valley and southern states, and generally cloudy weather prevails in those sections

morning.

The weather is warmer everywhere east of the Rocky mountains; it is cooler in the northwest and on the Pacific coast, and will be slightly cooler in the central valleys teatured. Saturday,
Omaha record of temperature and precipitation, compared with the corresponding day of the last three years:

Other buyers

With the receipts light and a good feeling prevailing after the slight advance yester-day sellers found themselves in a position to bull the market to some extent. Beef to built the market to some extent. Beef steers, although they constituted the big end of the receipts, were in small supply, and on this account they were picked up in good season. Buyers wanted supplies and went right after the cattle, taking on
