KAISER GUARDS CZAR

Russia Now Feels Famine War May Make It Difficult for Other Nations to Help the Starving.

FRANCE DRIVEN TO ALLIANCE WITH BRITAIN

Action of Nicholas May Mean Loss of Friendship for His Ally.

GERMANY MAY PROTECT RUSSIAN THRONE

War and Rebellion May Force Joint Action of Rulers.

DELICASSÉ TALKS OF PRESENT CONDITIONS

Understanding between Britain and France Will Mean Peace of the World Unless Germany Starts Trouble.

PARIS, Aug. 5.—(Special Cablegram to The Bee.)—Not since the meeting on the field of the cloth of gold has there been coming together of two sovereigns which has attracted as much attention as the mysterious meeting in the north sea of Emperor William and the czar.

This is the way the leading Paris newspapers are talking of the situation. Every where it is recognized that the meeting is of tremendous import in world politics. It is regarded as indicating that there is an understanding between Germany and Russia which will at least demonstrate to the world that the "yellow peril" will be held in check. The consensus of the opinions of the greatest writers upon European politics is to the effect that the czar has practically assured the czar that the Japanese shall not be allowed to exact terms which it is not so noteworthy perhaps between the two nations which might have been regarded as absolutely impossible a few years ago. The scene at Brest is one that will linger long in the memories of the world. The incidents which occurred there were not so noteworthy perhaps between the two nations which might have been regarded as absolutely impossible a few years ago. The scene at Brest is one that will linger long in the memories of the world. The incidents which occurred there were not so noteworthy perhaps between the two nations which might have been regarded as absolutely impossible a few years ago.

DELIVE FRANCE TO BRITAIN.

This is now believed to be the secret of the entente cordiale between France and Great Britain. The Brest festivities demonstrated a feeling of friendship between the two nations which might have been regarded as absolutely impossible a few years ago. The scene at Brest is one that will linger long in the memories of the world. The incidents which occurred there were not so noteworthy perhaps between the two nations which might have been regarded as absolutely impossible a few years ago.

THE QUESTION WHICH IS TODAY AGITATING EUROPE IN WHETHER THE CZAR OF THE RUSSIAN EMPIRE HAS OFFERED TO DELIVER FRANCE TO BRITAIN.

Therefore the statements of M. Delicassé take high rank. While they cannot be regarded as official documents, nevertheless they are of the greatest importance. In his latest announcements, M. Delicassé, after affirming that he had succeeded in establishing harmony among the three Latin nations, M. Delicassé remarked in reference to the entente cordiale with England that "seeing that the entente cordiale is not carried on with sentiments of sympathy or antipathy, with memories and regrets, with retrospective considerations. It was based upon the present and upon the interests of the future. There would be the interests of France, of England, of Germany or on the side of England." Our commercial balance sheet can at once furnish the reply. Which is the better customer? England. We sell it every year for millions of dollars worth of merchandise. But the commerce between the two nations is not so profitable for Germany to go to war with us.

MAKING DECIMAL WEIGHTS

British Board of Trade Takes Another Step Toward the American System.

LONDON, Aug. 5.—(Special Cablegram to The Bee.)—The Board of Trade has driven the tin end of the decimal weight a little further into the table of British weights and measures. Two years ago the board authorized the use of 30-pound weights at Liverpool, and at a meeting of the Dock board just held it is stated that the department has now legalized the use of 30-pound, 10-pound and 5-pound weights.

ARRANGING FOR GRAND ARMY

Denver is Preparing to Give Royal Reception to Veterans of Civil War.

DENVER, Aug. 5.—It is now just a month until the national encampment of the Grand Army of the Republic begins in this city. The committees having the matter in charge are actively making preparations to take care of the veterans in shape commensurate with the importance of the occasion. The reunion of these rapidly thinning ranks.

MURDER IN SAN FRANCISCO

William W. Stevenson Shot and Instantly Killed by His Wife's Poisonous in Rooming House.

SAN FRANCISCO, Aug. 5.—William W. Stevenson was shot today and killed by Chillon Bowen in a room of a Market street rooming house, where the murdered man had found Bowen in company with Stevenson's wife. Bowen and Mrs. Stevenson are in prison charged with murder. Bowen admits having done the shooting. He says that he knew Stevenson had killed two men and therefore shot him when he burst in the door.

EARTHQUAKE LEAVES RECORD

Indian Instruments Record Phenomenon Which May Have Taken Place in Asia.

SIMLA, Aug. 5.—(Special Cablegram to The Bee.)—A severe earthquake, believed to have taken place some 2,000 miles distant, probably in Central Asia, has affected the seismographs at Simla and Bombay. The indicator needles of the instruments in both cases were made to travel off the paper on which the marks are supposed to be recorded by the violence of the shock.

SAV STRIKE IS OVER

Northern Railway Officials Declare Operations Running Practically on Time.

Over Three-Fourths of the Offices Are Again Open.

ADVISES MEN TO RETURN TO WORK

Strike Chairman of Idaho Division Admits Fight is Lost.

HE IS REMOVED BY PRESIDENT PERHAM

Telegraphers Expect J. J. Hill to Intervene—Government to Investigate Alleged Interruption of Communication.

ST. PAUL, Aug. 5.—At the end of the fourth day of the telegraphers' strike on the Great Northern and Northern Pacific systems the officials of both railroads declare that the strike is practically a closed incident. According to information given out at the general offices more than 80 per cent of the strikers on the Northern Pacific and 70 per cent on the Great Northern are now supplied with agents, a number claimed to be sufficient to tide over traffic until the remaining places can be filled. Trains reached the union station here today at 10 o'clock, and the telegraphers' strike on the Northern Pacific was five hours late and the Twin City Express on the same road six and a half hours behind time. Superintendent Bennett at Spokane today advised General Manager Horn of the Northern Pacific that Strike Chairman Haney of the Idaho division had given out a statement in which he declared that the strike was already a failure and advised the men on the division he reported to report for re-employment at once. The action is said to have had a significant effect on applications for reinstatement coming in from the Idaho division. President Perham of the Telegraphers, now in St. Paul, admits defeat and said he had expelled Haney from the union.

LOCATES ORIGINAL OF OTHELLO

Document Throws Light on People in Shakespeare's Great Tragedy.

MILAN, Aug. 5.—(Special Cablegram to The Bee.)—An interesting discovery has been made amongst a series of ancient documents collected from the archives of the Careggi family, and presented to the Royal Institute of Sciences and Letters at Venice by Signor Cosma Levi. An inspection of these documents has revealed the identity of Othello, the protagonist of Shakespeare's tragedy, who proves to have been one Nicolaus Querini, son of Francesco, who died in 1511, in Candia, where he was a Venetian merchant.

RUSSIANS WANTED A BRIBE

Kief Novost Tells Why the Deal for South American Ships Failed.

ST. PETERSBURG, Aug. 5.—(Special Cablegram to The Bee.)—The inner story of the attempt by Russia to buy up the navies of the South American republics—so persistently repeated and so vehemently denied—is given to the public by the Novost of Kief.

FAMILIES SPLIT ON POLITICS

Russians Divided as to Best Plan for Reforming the Present Government.

ST. PETERSBURG, Aug. 5.—(Special Cablegram to The Bee.)—The line of cleavage between the supporters of the autocracy and the supporters of the republic is in the different families of nobles between brother and sister, mother and son, of prayers to leave the service and of young officers forbidden to visit their homes on account of their advanced views. The situation is in many respects similar to that of the American civil war, when families were divided and brothers often fought with opposing armies.

AMERICAN DOCTOR IN TROUBLE

Takes Picture of Defenses of Kingston, Jamaica, and Must Face Prosecution.

KINGSTON, Jamaica, Aug. 5.—(Special Cablegram to The Bee.)—Dr. Frank Clarke, the American doctor who was arrested charged with breach of the official secret service act by taking photographs of the defenses of Port Royal, has pleaded that he is innocent of any intentional wrongdoing. Pictures of some of the outlines of the fortifications were found upon him. He claims that his action was entirely without political or military significance. Dr. Clarke has been a resident of the island for four months. He is a graduate of Harvard and is well educated.

SOUTH AFRICAN RAILROADS

Plan on Foot to Divide Tonnage So All Lines Will Pay Expenses.

JOHANNESBURG, Aug. 5.—(Special Cablegram to The Bee.)—An informal conference on railway matters between the Cape and Natal governments and the high commissioner has just been concluded. The intercolonial conference held in February agreed to reduce the preference enjoyed by the Transvaal by lowering the railway rates from other ports. The matter was referred to Portugal for the approval of the terms of the modus vivendi. Portugal refused to accept the recommendations of the colonial governments and the coast colonies urged the high commissioner to denounce the agreement with Portugal, pointing out that Lord Milner clearly indicated that this will be the only course open in the event of Portugal's opposition to the findings of the conference.

ENVOYS SHAKE HANDS

Japanese and Russians Exchange Cordial Greetings at Oyster Bay.

INTRODUCTIONS BY PRESIDENT ROOSEVELT

After the Ceremony Luncheon is Served in Cabin of a Yacht.

INCIDENT THAT MAKES HISTORY

Formal Beginning of Conference that May End a Great War.

CHIEF EXECUTIVE'S TACTFUL TOAST

He Proposed the Prosperity of Rulers and Peoples of the Two Nations and Success of the Negotiations for Peace.

OYSTER BAY, N. Y., Aug. 5.—History was made today in Oyster Bay, Russians and Japanese clasped hands and greeted one another with all outward evidence of cordiality and for the first time since nations began to have relations one with another, an executive of a great power received the envoys of two belligerent countries on a mission of peace.

CHINESE RAILROAD PAYING

Imperial Government May "Clean Up" Three Million Dollars During the Year.

PEKING, Aug. 5.—(Special Cablegram to The Bee.)—The net profits of the Chinese Imperial railways for the six months ending March 1, 1905, as shown in figures just made public, amount to over \$3,250,000. If this rate of progress is maintained, the year's profits will, after paying interest on the loan and providing the stipulated sum for amortization, amount to over \$3,000,000. In view of these favorable circumstances and conditions the Chinese government has already commenced the construction of the 25-mile line to Kalgan, a contract for a large portion of the rails having been awarded to a French firm.

STUDY MUNICIPAL OWNERSHIP

Civic Federation Appoints Committee to Collect Authentic Data in Europe and America.

NEW YORK, Aug. 5.—Plans on a great scale to collect accurate data concerning municipal ownership in both Europe and America have been made by the executive committee of the National Civic Federation. This body has selected a committee of about twenty-five members and including some of America's best known lawyers, scholars and business men, to meet early this fall and determine on methods for accomplishing this work. The need for accurate data to exist in the contradictory and unsatisfactory information now available concerning the operation of public utilities.

INTERSTATE CONFLICT AT AN END

There Will Be No Further Trouble Between Guards of Louisiana and Mississippi—Quarantine Causes Shortness of Food.

NEW ORLEANS, Aug. 5.—The record up to 4 p. m. is as follows: Total to date, 2,000; Deaths, 1,000; Total deaths, 1,000; New sub-fatal, 1,000; Total sub-fatal, 1,000. The small number of new cases is counterbalanced by the number of new feet which equals half of the total cases reported for the morning. The original point of infection is now in the main center. Of the deaths five were in the emergency hospital and three in the original district. One of the day's victims is Archbishop Chappelle, whose case was reported by Dr. Larus, his family physician. He was stricken yesterday noon, but the diagnosis of the case was not confirmed until today. Tonight he is reported as being in a serious condition. Mr. Chappelle recently returned from Havana, being the apostle delegate to that island and in practical charge of all the affairs of the Roman Catholic church there. The marine hospital service has not yet taken control of the situation here. Dr. White received advice at midnight last night indicating that he would be placed in charge, in accordance with the message of President Roosevelt to General Wyman, but so far as known here, the definite orders have not been received. Dr. White went to Gulf Port and Fontainebleau today to get Dr. Waddell of the marine hospital service, who is in charge of the quarantine, and Governor Vardaman, who went down from Jackson, but did not return here tonight, as was expected. The city will continue to exercise its police authority in co-operation with the federal surgeons; the municipal authorities and the citizens will continue to carry on the campaign of cleaning up, the health boards are to perform many of their functions in conjunction with the marine hospital service and New Orleans expects still to be called upon to furnish funds to carry on the work. The final handling of the fever situation here is in the hands of the direction of the government, which is expected to send a large number of yellow fever experts to work under the supervision of Dr. White. Rigid rules are to be made and efficiently carried out in connection with the sanitation of the city. The federal officers make no attempt to conceal the fact that the situation is serious, but they say it is not without hope, and that success is possible in spite of the headway the fever has gained, particularly in the foreign neighborhood in the Canal street. The fact that the infection in the First, Fourth, Sixth and Seventh municipal districts, which lie above Canal street and constitute modern New Orleans, is relatively small, leads to the hope that vigilant observation of all cases in that quarter, while the more drastic campaign progresses below, will enable the authorities to keep more than half of the city free from serious infection. Of the deaths to date only five have occurred above Canal street and of these four were Italian, the two left the infected neighborhood in the vicinity of the French market, and the fifth was a merchant who did business in that quarter. Of the cases, except those most recently reported, all have recovered or are on the way to recovery. Interstate Conflict Ends. The trouble on Lake Borgne between Mississippi guards and the Louisiana naval brigade is considered to have ended. So encouraging were the conditions today that Governor Blanchard sent orders to Commander Bostick to withdraw part of his force. The Southern Pacific railway is still having trouble in handling the United States mail. It has used an engine and a freight car to go through Calcasieu, but finds the method of handling it troublesome and expensive. The report gave as the reason for its dissatisfaction growing out of the action yesterday in asking the government to take control. At Dr. Bouchon's office the report was promptly denied. Considerable complaint is being received in the city from people living in the country districts. The report gave as the reason the rules that have been put into effect. The result of them is that many communities already beginning to run short on supplies and it is desired that the authorities shall do what is possible to secure a relaxation. Crew of El Paso Held. The crew of the El Paso, from New Orleans, were removed from their ship today at quarantine because of high temperatures. They were taken to Hoffman's island for observation. The steamer Lighter, from Port Arthur, was detained at quarantine today and one member of the crew was removed to Hoffman island for observation. Shaw Issues Order. WASHINGTON, Aug. 5.—Secretary of the Treasury Shaw has wired Captain Ross of the revenue cutter service to proceed at once to New Orleans personally to superintend the revenue cutter service at that point with a view of strictly maintaining quarantine. Captain Ross is now making an annual inspection of the service on the Atlantic coast and today is at Portland, Me. It is expected he has already left there for New Orleans. Secretary Shaw said today that the strongest possible effort will be made to confine the scourge inside the city limits of New Orleans and he had every reason to believe that this would be accomplished. Cleveland's Go to Funeral. WHITEFACE, N. H., Aug. 5.—Grover Cleveland and Mrs. Edith were in their summer home today for what will be their last where they will attend the funeral of Mrs. John C. White, wife of President Cleveland's secretary of the treasury.

EIGHT MORE VICTIMS

Spread of Yellow Fever in New Orleans and Vicinity Continues.

THIRTY NEW CASES DURING THE DAY

Archbishop Chappelle Suffering with Mild Case of the Malady.

MARINE HOSPITAL TAKES CHARGE MONDAY

Original Point of Infection No Longer the Main Center.

INTERSTATE CONFLICT AT AN END

There Will Be No Further Trouble Between Guards of Louisiana and Mississippi—Quarantine Causes Shortness of Food.

NEW ORLEANS, Aug. 5.—The record up to 4 p. m. is as follows: Total to date, 2,000; Deaths, 1,000; Total deaths, 1,000; New sub-fatal, 1,000; Total sub-fatal, 1,000.
