HANKOW RAILROAD UNDER DISCUSSION

Chinese Government Desires to Purchase the Line Which is Controlled by American Capitalists.

OYSTER BAY, N. Y., Aug. 7.—J. Pierpont Morgan had a conference today with President Roosevelt, lasting an hour and a half. The president himself is practically entirely in the case of the Hankow railroad of China, a controlling interest in which is owned by J. P. Morgan & Co.

Incidentally and as relating in a measure to the railroad interests held by Americans in China, the pending peace negotiations formed a topic of conversation by the president and Mr. Morgan.

Mr. Morgan came to Oyster Bay unheralded. While his visit was by appointment, he was not announced until he had gone. Shortly after noon Mr. Morgan's big steam yacht Corsair, anchored in the lower bay, about three-quarters of a mile from the dock of the Swanwick-Corinthian Yacht club.

It is estimated tonight that upwards of 1,000 men are on strike in Manhattan, and the leaders express their intention of closing every "kiosher" bakery in the borough of Manhattan and to call a strike to the Hebrew quarters of Brooklyn.

A meeting held this afternoon at the strike headquarters in Great Central palace was the occasion of wild excitement and disorder, many of the speakers being arrested and taken into the street.

Resolutions were adopted declaring that the employers had hired gangs of roughs to intimidate the men and that the strikers were not responsible for the disorders that have attended the strike.

The strikers held a meeting last night and said that they were determined to remain out of employment until a 10 hour work day is granted. They say they are 1,500 strong and that the bosses cannot go on without them.

At midnight, after a conference with his delegates, President Kurtz of the bakers' organization said there would be no settlement with the boss bakers until they give the strikers all the conditions they demand.

Crisis Comes in Five Days.

NEW YORK, Aug. 7.—According to Brigadier General Arlene Perillat, chief of ordinance of Louisiana, it will be five days before New Orleans will face a crisis in the yellow fever situation.

General Perillat arrived here from the south last night.

"New Orleans is suffering more from commercial anxiety," said he, "but residents of the city feel that the health officials and the various committees, aided by the federal authorities, will cope with the fever. In the meantime business in that section of the state is at a standstill."

Officials distinguish between the disease and the various states and its commercial interests are suffering in consequence. The city is opposed to the parades and the parishes are arrayed against one another with the abrogation of quarantine.

The mosquitoes which made the disease, breeds in clean, stagnant water. New Orleans is safe, I am sure. By this time New Orleans is protected. The exodus from New Orleans is a little more than usual at this time of the year. While commercial interests are paralyzed now, I think that the situation will clear within two weeks. We will stamp out the disease."

Mr. Patrick Manson, K. C. M. G., medical adviser to the British and Chinese governments here on his way to San Francisco, declares that mosquitoes are among the greatest curses of mankind.

"We are yet in the infancy of the discovery of the transmission of such diseases by insects," he said, "but the matter of yellow fever infection all credit should be given to the Yankees, who went ahead of our eminent men and demonstrated that the steamer was the vehicle that caused all the instances of the disease, there should be a law in every state making it a criminal offense to a high degree to fail to report immediately the prevalence of a case of yellow fever. The slightest attempt at concealment by a physician should be followed by summary punishment."

The steamer Comus, from New Orleans, was stopped at quarantine today and will be held there, with ninety-eight passengers and a crew of sixty-five, until a period of five days out of the port of New Orleans has elapsed. This is the time limit for yellow fever infection to show itself. If five days will expire tonight and no medical examination of those on the vessel will be made until the time limit is passed.

Suspected Cases Released.

PHILADELPHIA, Aug. 7.—British steamer Barton, which arrived at the Delaware breakwater on Saturday from Port St. Mary, Haiti, with fifteen of the crew ill with fever, docked at this port today. The Barton was held by the government quarantine officials pending an investigation as to the character of the fever, but after careful observation the steamer was permitted to come to port, the physicians finding the steamer suffering from tropical malaria.

Illinois Licensure Certificates.

CAIRO, Ill., Aug. 7.—The state board of health in connection with the yellow fever quarantine today ordered a restriction in the issuance of health certificates and in future they will be issued only to citizens of Illinois and to persons who are vouchered by Illinoisians. Health certificates have heretofore been issued to all who applied.

Mr. J. A. Egan departed for Springfield today to be absent until the latter part of the week. Dr. George T. Palmer, assistant to Secretary Egan, is in charge of the inspectors. Health certificates of health ship come to the notice of the inspectors.

Before leaving for Springfield Dr. Egan started a campaign against mosquitoes. He

Bitter, Black Bile and How Right Food Corrects It.

Biliousness, from incorrect food, opens the way for an outbreak of dandruff, not only the body, but the mind as well.

The world is a dark or gloomy place to the victim, whether millionaire or mendicant.

The wife of the head of a great insurance office in an eastern city was cured completely of this wretched affliction by the use of Grape-Nuts. She says:

"For years I was a constant sufferer from biliousness and extreme constipation, and suffered from the most dreadful headaches once a week, which sometimes lasted three or four days at a time. Grape-Nuts food came to my notice about five years ago. I liked it from the first and began to use it because I liked it, without any thought that it might help my health. To my surprise I noted that after a short time all my ailments began to decrease, and they gradually but surely disappeared. I am now, and have been for years, completely free from them and enjoy perfect health."

"Everyone in my house now eats Grape-Nuts regularly, even my 2-year-old little girl likes it with her Postum Coffee (another thing we never without), and prefers it through a difficult period of teething during the hot weather—she never refused Grape-Nuts when other food could not tempt her to eat. It is the first food I intend to give my baby boy when I wean him."

"My husband eats more Grape-Nuts food at every meal than of any other one dish. It acts as a powerful laxative, and he finds that it regulates his bowels perfectly." Nano given by Postum Co., Battle Creek, Mich.

There's a reason.
