(From a Staff Correspondent.) LINCOLN, Aug. 7 .- (Special.) -- Advises reaching the city indicate there is a panscky feeling among the grain men who are the defendants in the injunction suit filed by Attorney General Brown. The disclosures which will be made at the hearing before the supreme court are believed to be responsible for this feeling and there are some who have already reached the condition of miad where they are willing to turn state's evidence.

"They are scared, and just about ready to run," said a man wao is pretty close in touch with the situation. "They realize Attorney General Brown has them Their attorneys are just beginning to realize the extent of his coup in bringing the injunction suit in the supreme court instead of instituting criminal proceedings. He has now at his command the most summary process known to law for the punishment of those who violate the order and there will be no dilatory procedure and appeals to bar his way."

It is known that some of the dealers are so badly frightened that they will help the state with evidence, that they Stephen J. Coal and Lumber Dealers Anxious. The coal and lumber dealers are very anxlous, too. Reports reaching the statehouse indicate that there are dealers in these two by the attorney general is a mere prelude what is coming and they are correspond ingly alarmed. The state law officer, on the other hand, maintains such absolute, sphinx like silence that the very absence of comment from him serves only to add to their uncertainty. To those who predict that further suits will be started against the business men alleged to be in the various other combinations, this very secrecy of of the dearth of any disclosures before the present suit was started.

Still more important in this connection is the fact that the suit against the grain men will bring out damaging evidence against the alleged coal and lumber comlso carry lines of coal and lumber and their books will show all their accounts. thus giving the clues needed by the state as the basis of any suit. The petition filed by discovery, which will bring all of this matter before the court for use as evidence.

In addition, a contract was let to J. B. Herman of Norfolk for the restoration of the burned building at the Norfolk asylum. The total amount of his contract is \$17,169.
