

GRAIN AND PRODUCE MARKET

Official Figures Make Condition of All Grains Good.

GOVERNMENT REPORT IS BEARISH

Wheat Breaks and Finishes Cent Lower Than Yesterday-Corn Holds Firm-Export Basis Predicted for Wheat.

OMAHA, August 10, 1905. The government report was considered bearish on spring wheat and the market broke, reaching a point of weakness shortly after noon. There was a slight reaction later. Dennis at Chicago says the export basis for wheat, September closed at 83 1/2c, December at 85 1/2c and May at 87c.

The report on corn was moderately bearish, but it is said to indicate a yield of less than 100,000,000 bushels more than last year. There was no tendency toward breaking of the market on the strength of the report. Decreasing stocks continue to help the bulls. The close on the September option was a shade higher to 40 1/2c at 82 1/2c. Old September at 82c, December at 84c, old December at 84c and May at 86c.

The market for oats was steady. Oats finished with September at 28c, December at 27c and May at 29c. Liverpool closed higher on wheat and also higher on corn. There is an increased demand for corn in Europe.

Table with columns for 'Articles Open', 'High', 'Low', 'Close', 'Yesterday'. Lists various grain prices like wheat, corn, oats, and flour.

WEATHER IN THE GRAIN BELT

Warm Generally East of the Rocky Mountains.

OMAHA, Aug. 10, 1905. Warm weather in the central valley where east of the Rocky mountains, and temperatures are somewhat higher in the central valley and somewhat lower in the lower Mississippi valley. The Pacific coast temperature has fallen on the Pacific coast and will probably be slightly lower over the central valleys tonight and Friday.

OMAHA DISTRICT AVERAGES

NEW YORK STOCKS AND BONDS

Oscillation of Prices Slightly Wider Than Average Daily Range for Few Days.

SHARP GAINS IN VALUES EARLY IN DAY

Several Railway Issues Later Make New High Records—Peace Negotiations and Crop Reports Are Moving Factors.

NEW YORK, Aug. 10.—Operators in stocks had a break today with news of far-reaching and radical consequences to values. The report of the Agricultural Department of the United States that the grain crop and the presentation of terms of peace by the Japanese to the Russians might either check or hasten the peace negotiations.

Early in the day, after an opening resistance to the selling which was in evidence, the market broke and prices advanced. The market was variously interpreted as a movement to take speculative profits in anticipation of a favorable government report. The character of the support encountered on the downward course of prices proved more impressive to sentiment than the selling itself and a break recovery followed.

The figures of the government report, while proving fully as good as anticipated, had little effect on the market. The news from Portland was less reassuring because of a deficit in the presentation of definite proposals from the Japanese. The market closed steady at almost precisely yesterday's final quotations.

Table listing stock and bond prices with columns for 'Name', 'Price', and 'Change'. Includes companies like Adams Express, Am. Copper, and various bonds.
