BOOMERS START ON A TOUR Special Train Carries Them Through Southwestern Part of Iowa.

FIRST NIGHT IS SPENT AT CLARINDA Second One at Creston and the Third Sees the End of the First Trade Excursion from This City.

With the strenuous whistle blown by the Bluff City laundry attached to the engine and tooting for all it was worth the Burlington special bearing the first Council Bluffs trade excursion pulled out of the depot yesterday morning shortly after 8 o'clock. The party numbered about fifty exclusive of the band from Neola which headed the procession to the depot and will be used to enlighten things on the three days' trip.

The party, each individual carrying a bright yellow umbrella, formed at the Commercial club rooms on Pearl street and headed by the band marched in a body to the depot where the train was waiting. In honor of the occasion the Burlington officials had provided a brand new engine and Conductor Richard McCoy was in charge of the train. Accompanying the party were T. A. Barker, contracting agent for the Burlington in this city, and W. H. Matsum of Burlington, industrial agent of the railroad. City Passenger Agent J. E. Swan will join the party today and stay with it until its return tomorrow night.

The party occupied two Pullman sleepers while a tourist sleeper was provided for the band and there was a baggage car to carry the mass of advertising literature to be distributed en route, as well as the "pink lemonade" and other supplies that will be needed to prevent the members of the party succumbing to the heat.

Big streamers bearing the legends "Council Bluffs Commercial club" and "Trade Extension" adorned the sides of the tourist sleeper and baggage car, but owing to the rules of the Pullman company prohibiting the use of streamers not decorated by the railroad, the streamers were removed. The party, according to the itinerary, spent the first night at Clarinda, where the touring "boomers" were made guests of honor at the Chautauqua now in session here. Tonight the party will rest at Creston, where the citizens have made elaborate preparations to entertain their visitors.

Included in the advertising matter taken along by the party are 2,000 handomely illustrated souvenir pamphlets setting forth the advantages of Council Bluffs as a wholesale and retail business center, owing to its unequalled railroad facilities.

Chapin to Be Held for Holdings.

The authorities regarding a man named Chapin, who was arrested at Clarinda, Iowa, on August 10, are reported to have been held for a hearing at the court of Justice Gardner, which was granted. Chapin has to serve out a fine of \$100 for carrying concealed weapons and by the time he does this the district court jury will have convened for its September session.

Mrs. Lizzie Keegan, who was arrested for being in company with Simpson, was given ten days on bread and water yesterday morning by Judge Scott, which she will serve out at the city jail unless the sentence is suspended. Mrs. Keegan's husband, who resides in Omaha, called to see his wife and expressed considerable surprise at her being with Chapin. He said that they became acquainted with Chapin last May and that since then he had traveled about with them selling horses. While Keegan admitted he was aware of Chapin's past record he claimed that he knew nothing against him.

MANIFESTO MAY BE DELAYED

Scheme for Popular Assembly Will Not Be Completed in Time to Be Proclaimed Saturday.

ST. PETERSBURG, Aug. 10.—The proclamation calling together the national assembly is meeting with unexpected and undesired delay. It is possible now that the project will not be ready for issuance on Saturday. After the conclusion of the conference at St. Petersburg, the reports entrusted with the transcribing of the completed project found a number of inconsistencies and omissions, due to the haste with which the work of revision was done, and the council of ministers was convened. The council will endeavor to bring the project into shape. Possibly the emperor may issue a manifesto outlining the assembly in general terms, but it is stated in high quarters that the whole matter may be deferred perhaps until the christening day of Grand Duke Alexei Nikolaievitch, heir to the Russian throne.
