Japan's demands, as predicted, have served to array the Russian government and people under the same banner for the first time since the beginning of the war, and it is evident that M. Witte will find almost solid support at his back in what ever answer he may make to Baron Komura's communication. The government permitted and encouraged the publication of the full Associated Press dispatches ontaining the Japanese conditions, which, like a flery cross, rallied Russia's disunited clans, reactionary, conservative, liberal and radical. With scarcely an exception

ernment to hold out against Japan's principal demands. Opinion in Great Britain. LONDON, Aug. 11 .- The Japanese peace terms exclusively given in the Portsmouth dispatches of the Associated Press are not considered excessive by the British government, nor as being sensibly reducible in the main points. The terms the emperor of O'Neill, who was one of the party, was ent negotiations were not communicated soap factory in West Twelfth atreet to searchers found him lying on a stairway the battle of Mukden the Foreign office day. mands would be increased. Since the naval victory and the occupation of Sakhalin the Japanese have added the cession of the island, the grant of fishing rights, the handing over of the interned warships and the limitation of Russian naval strength in the far east to their previous demands.

The expenses of the war to the Japanese are estimated here to be in the neighborhood of \$550,000,000, and it is thought that this is about the amount that will be demanded as "reimbursement." Russians in London consider that the

aval limitations and the grant of fishery rights are inadmissible, but incline to the belief that Sakhalin will be ceded, and expect negotiations on the subject of "reimbursements for war expenses. Say Russia Will Pay.

BERLIN, Aug. 12.-The newspapers this norning seem disinclined as a whole to express their opinion on the Japanese peace terms. Some regard them as hard for Russia, but say that they are only what was to be expected.

Russian utterances at Portsmouth and St. Petersburg pronouncing the terms unacing. It is pointed out that the French talked in the same way in 1871 concerning the cession of Alsace-Lorraine, but they agreed to it rather than prosecute a hopeless war.

Baron Komura's withholding of the amount Japan will ask as reimbursement for war expenses is regarded as a shrewd move designed to get the Russian commis; sioners to accept the proposition that Russia must bear them before the Russian M. NET RESULT FOR WEEK IS SATISFACTORY Yellow Fever Epidemie and Strike

Troubles the Principal Obstacles to Increase in Volume of Business.

NEW YORK, Aug. 11 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

Trade reports are uniformly favorable, but adverse factors are of a temporary nature and the net resuit for the week is satisfactory. Numerous strikes have occurred, exercising the customary pernicious influence over business and the epidemic of yellow fever is restricting southern trade. On the other hand, thermal conditions have facilitated retail trade, crop prospects have greatly improved, and out of town buyers are numerous in all the leading markets. Manufacturing plants are increasingly active; textile mills still occupying the strongest position, while shoe shops are not making concessions to get huminess. Iron furnaces and steel mills make progress but less rapidly. Lumber mills and dealers are having an exceptionally busy season. Raliway carnings in July were 14 percent greater than in the same month last year, and foreign commerce at this port for the last week showed an increase of \$1.980.227.

Little change has occurred in the financial

Little change has occurred in the financial situation, rates raing easy while prices of securities have risen close to the highest point on record. Bank exchanges at New York for the week were 47.8 per cent larger than last year and at other leading cities the increase amounted to 14 per cent. Recovery in the Iron and the steel industry comes more slowly than was anticipated yet there are numerous indications of a better condition. Quotations are practically unchanged. Export trade is expanding and several important contracts are pending that will add a large tonnage to the business of the mills when satisfactory terms can be arranged.

Textile markets have had the stimulus of an increasing number of western buyers. At present the only event which might weaken the position of cotton manufacturers would be the cancellation of Chinese orders, as many mills have withdrawn from the market on account of export trade. Woolen goods are meeting with small demand.

The footwear industry continues quiet. Little change has occurred in the financial

mand.

The footwear industry continues quiet, hides commanding the highest price since the civil war and showing no indication of reaction. Footwear markets respond to the upward tendency of the materials in so far as any changes are recorded, but western since jobbers have not placed the customary amount of spring orders owing to disagreement as to values.

Fallures this week numbered 222 in the United States, compared with 222 a year ago and 19 in Canada against 33 last year.

BRADSTREET'S REVIEW OF TRADE Level of Prices for Cereals and Cotton Highest for Fifteen Years.

NEW YORK, Aug. 11.-Bradstreet's toorrow will say: Fall trade, stimulated by excellent crop advices, continues to expand at wholesale. Increased purchases, a wider range of selection and some improvement in collections are noted east, west and southwest. Lines noting special activity at the west are dry goods, notions, hardware, jumber, groceries and shoes.

the west are dry goods, notions, hardware, lumber, groceries and shoes.

One-half of the 1906 wool crop has been sold, worsted manufacturers report orders booked for six months, the shoe and leather trades are doing an increasing business at steadily advancing prices, cotton goods sellers cannot begin to satisfy requirements and for prompt shipments, finished iron and steel show great activity and although there is some unrest in labor matthough there is some unrest in labor matthough there is some unrest in labor mat-ters, the industrial situation reveals few important flaws. Prices of cereals and cot ton show some easing on better crop re-ports or increased movement, but taking staple prices as a whole the level of val-ues is at the highest point reached in midsummer for a period of fifteen years past.

Farmers are busy on harvest work and retail trade is naturally quiet, but an increased number of fall buyers is noted in all leading markets. Cotton bleached goods have been advanced this week: prints are scarce and in demand and worsted are scarce and in demand and worsted goods sell well with mills reporting six months' orders ahead. An average advance of 50 per cent in raw wool is shown over this time a 'year ago.

The south has obtained good prices for its last crop, which was a very large one, and the new crop is beginning to move before the old one is all disposed of. Better weather has beined crop and trade before the old one is all disposed of. Det-ter weather has helped crop and trade prospects in the eastern half of the cot-ton belt. Alabama's pig iron output will run 16 per cent ahead of that of 1994. Bradstreet's advices are that the corn crop of the south will be the best ever

crop of the south will be the best ever made and the southwestern crop is well nigh assured. In Illinois, Indiana and Ohio dry weather or heat has caused firing and rain is needed. In the northwest spring wheat is being cut with little or no complaint as to rust damage and a good wheat and hop crop is looked for in the North Pacific states. Proposition to Endorse Chicago Strike Nearly Provokes Riot.

PRESIDENT SHEA DEFENDS HIS COURSE In His Speech He Admits that He Falsified Union Records to

PHILADELPHIA, Aug. 11.-The session this afternoon of the International Brotherhood of Teamsters was the stormlest in the history of the union. Physical violence was several times narrowly averted. Nothing was accomplished and the convention was adjourned until tomorrow to permit the delegates to cool down. The disorder was the result of a motion made by G. W. Briggs to endorse the Chicago Edward today visited the American auxii- strike. As soon as the motion was made

> P. J. McDermott of New York wanted the convention to go into executive session, but this was vigorously opposed by President C. P. Shea, who took the floor and said he wanted the world to know the truth concerning the Chicago strike. The motion to go into secret session was defeated. This caused another uproar and a large body of delegates in the rear of the hall, who were in favor of an executive session, made a rush toward the front of the hall, where the Shea delegates met them. For a moment it looked as though there would be a clash, but President Shea by the vigorous use of his gavel

brought a semblance of order, 'It does not matter what delegates have in their pockets," he shouted, "this convention must be conducted in an orderly manner."

Accusations Against Shea

President Shea then became the object of attack by some of the delegates. They accused him of misconducting the strike and also made general charges of incompetency. His friends came to his rescue and then the delegates charged each other

"Cur" and "flar" were among the eptthets exchanged. John Sheridan of Chicago, seventh vice and warmer in the east and south portions. president, charged President Shea with violating the constitution in calling the strike. Mr. Shea took the floor and admitted

that the Montgomery Ward strike, which started all the trouble, was not endorsed east portion; Sunday fair, warmer in south by the general executive board, as required by the constitution. The situation was such, he said that he could not wait for the slow process of getting endorsements from members of the executive board, who lived in different parts of the country. He said it was the most justified strike ever called in America. Albert Young of Chicago attacked the sembers of the executive board. He said

Air by People in Peoria. PEORIA, III., Aug. 11.-Edward Drouin, ormerly a wealthy and influential merchant of Philadelphia, is dead in this city Drouin married the daughter of the late S. H. Thompson, a wealthy wholesale grocer of Peoria, and inherited the entire fortune, which has since been lost. When found, his wife, apparently distracted by the death of her husband, was holding the feet in the air, in order, as she said, to allow the soul to escape. Mrs. Drouin was formerly a belle of this city. Her husband
