WEATHER IS RIGHT FOR CORN

Warm Nights Contribute to the Maturity of the Crop.

YIELD IS CERTAIN TO BE ABUNDANT

Season Has Been an Exceptionally Good One, Though There Are Few Bad Fields in Sections.

From a climatological point of view the present corn-growing season will rank with the most favorable ever known in this state. The weather for the last few weeks has been all that could be desired both as regards precipitation and temperature in the southern and eastern sections of the state. The warm nights of the current week are just what is wanted for maturing the corn, and have been much better for the purpose than the cooler nights of last week.

Speaking of the weather conditions as bearing upon the corn, Forecaster Welch said:

"The better conditions prevail in the southern and eastern sections of the Nebraska corn belt. The season has been an exceptionally good one. The precipitation has not been uniform even through this district, nor was it expected that it would be in the natural course of events. There have been streaks of excessive moisture, as there have been streaks of delicate moisture, but as a rule the precipitation and temperature have been extremely favorable for corn growing. There have been

no bad conditions anywhere so far as the weather is concerned, nor is there any likelihood that the corn can be damaged from meteorological causes for the remainder of the growing season."

Only Few Fields Bad.
J. O. Moore, who has but recently returned from a trip through the extreme southeastern part of the state, said:

"There are a few fields in the Richardson county that look bad. The corn has needed rain badly and as a consequence is small and looks to me as if it had been badly dried. Right alongside such fields were other fields of corn that looked as fine as any I have ever seen. Westward as far as Fairbury the corn is uniformly good and looks healthy and thrifty. In some sections fields have been flooded by the earlier heavy rains and the weeds have taken full possession. There is considerable late corn in that part of the country which will turn out all right if the weather conditions continue favorable. The corn on the highlands looks as well as I have ever seen it and withal there is a prospect for a very heavy crop."

MILES OF DOUBLE-TRACKING

Great Deal of Work on Union Pacific to Meet Demands of the Road.

Anent the statement of Mr. Harriman that the Union Pacific was double-tracking the road at present, it is recalled that under the last regime considerable double-tracking was started. The Union Pacific now has in operation considerable double-tracking. At Kearney there are seven miles of double track, from Lockwood to Alda, thirteen miles, from Cheyenne east six miles and from Cheyenne west twenty-five miles, from Hermosa to Laramie eighteen miles. In Nebraska the grade is complete for sixty miles of track, on which the rails never were laid. The work was done two years ago by Owen Bros., and from Omaha to Gilmore there are nine miles of double track, which has been in service for some time. The sixty-seven miles of double track from Kansas City to Topeka, which is being constructed at present and which will be completed about October 1, was made necessary because the Rock Island uses the Union Pacific between these two cities and the fifty-six trains a day kept the track too hot.

CITIZENS DELAY THE TRACK

Property Owners Near Florence Unable to Agree on Route of New Line.

War among the factions at Florence is delaying the construction of the street railway spur to Forest Lawn cemetery. The railway company stands ready at any time to go ahead with the work, but property owners in the north section of the city say they will enjoin the construction of the line along the direct route to the cemetery and the people on that road say they will not have it built by a circuitous route over the hills. The company has expressed a preference to build over the south route, but the people of Florence think they would derive no benefit from passengers who were hauling that way, so

they are going to oppose it. The matter thus stands in statu quo, and if the line is built it will be when these warring factions get together.

CHICAGO RECEIPT RULE GONE

Amendment Making Warehouse Receipts Deliverable in Fulfillment of Contracts Repealed.

At a meeting of the board of directors of the Omaha Grain exchange, held Thursday, the following resolutions were adopted, effective August 11:

First—That the amendment to rules and regulations of the Omaha Grain exchange, dated December 5, 1904, which provides that warehouse receipts of licensed public elevators of Chicago may be delivered in this market in fulfillment of contracts, be and is hereby repealed.

Second—That the rules and regulations of the Omaha Grain exchange be and are hereby amended so that No. 2 corn is made deliverable on contracts at 5 cents a bushel under the price of No. 2 corn.

RECEPTION TO DELEGATES

Entertainment Will Be Provided in Omaha for Christian Church Representatives to Coast.

The Christian churches of the city will hold a meeting at the tabernacle, Ninth and Farnam streets, Saturday at 1:30 o'clock in honor of delegates to the international convention of the churches of Christ at San Francisco, who will arrive in the city at 1 o'clock and remain two hours. One hundred and twenty-five persons, officers of the church societies and their friends, will arrive on the "official" train. Members and friends of the Christian churches of Omaha, South Omaha and Council Bluffs are invited to be present at the meeting.

MR. BROWN WANTS TO KNOW

Attorney General is Set on Pushing Grain Trust Investigation.

NINE WITNESSES SUBPOENAED FOR OMAHA

Next Tuesday is Day Set for Taking the Testimony and Thirteen People Who Know Are Asked to Appear.

Attorneys Jefferies & Howell, who have been acting as attorneys for Thomas D. Worrall in his suit for damages against the alleged Grain trust, have been notified by Attorney General Norris Brown that on next Tuesday, August 15, there are to be certain depositions taken in Omaha touching the alleged grain dealers' trust. The witnesses called by subpoena are: Olive Overton and Clara McArdle, stenographers; Edwin S. Westbrook, Augustus H. Bewsher, Horace G. Miller, John T. Buchanan, C. T. Pavey, T. D. Worrall, N. B. Updike.

In addition to these all of the parties living in Omaha who are interested in the previous suits begun by Worrall and the state are notified that they are expected to be present and take note of the testimony and contradict anything that may be wrong.

Friday morning Sheriff Power's office received nine subpoenas and thirteen notices to serve. The subpoenas are for officers and members of certain grain and elevator companies, as will be noted, while the notices will go to other persons who are thought to know something that may prove of value in the present investigation. The sheriff's office found no difficulty in making service of the subpoenas.

The depositions will be taken before Court.

ANOTHER SERIES OF

Sherlock Holmes Stories,

By A. CONAN DOYLE.

THE unparalleled popularity of the Sherlock Holmes stories printed in The Bee has created a demand which can be filled only by another series of STARTLING ADVENTURES from the pen of the same author depicting the marvelous results achieved by that MOST SKILLFUL OF ALL DETECTIVES. These stories, which will appear from week to week in The Sunday Bee, are sure to hold the interest of every reader from the beginning to the end of the series. To avoid missing any of them make sure you receive The Bee as a regular subscriber.

A Sherlock Holmes Story Next Sunday.

SECOND TELEPHONE EXCHANGE

Beginning with December There Will Be Prefixes for 'Phones East and West.

Some time in December telephone subscribers will have to attach themselves to an entirely new system of numbering. The establishment of the new exchange at Thirty-third and Harney streets will be responsible for the change, the new exchange being made necessary by the fact that the main office has reached the limit of its capacity.

The fact that there will be two exchanges in the city will make it necessary that all subscribers have a prefix before their number in order that the operator may know in which branch the subscriber is located. The prefix for individual lines will be "Douglas," those subscribers in the business district and the east part of the city and "Harney" for those in the west part of the city. The names are those of the streets on which the exchanges are located. Other prefixes will be assigned to party-line subscribers in the two exchanges, the arrangement being such that only one prefix will be used with any number. For example, a subscriber's number on a party line in the Douglas exchange may be Locust-2462, but there will be only the prefix "Locust," the word "Douglas" being omitted. It will be necessary to change all the numbers in the Harney exchange, also some in the Douglas exchange, in order to avoid double prefixes in the latter.

The subscribers in the Harney branch will get as quick service with the subscribers in the Douglas exchange as those in one office will have with another. The connection between the exchanges is done over an automatic circuit and the subscriber is in no way annoyed or delayed by it.

The new building is finished all but the plastering. Workmen are putting in the conduits for the wires and as soon as the plastering is done they will put in the switch board. The exchange will not be ready for use until some time in December.

COLORED DRIVER IS ARRESTED

Coachman Held as Suspicious Character and May Be Charged with Burglary.

James Fletcher, a colored coachman living at 255 California street, was arrested Friday noon by Officers Shea and Woodbridge and charged at the police station with being a suspicious character. The evidence against Fletcher is such that it is believed a charge of burglary will be placed against him in police court. When arrested Fletcher was trying to sell eight boxes of cigars, said to have been stolen from the pool room of A. Buckenham, 2425 Cuming street, Thursday night. Buckenham said Fletcher was seen in the pool room just before closing time and the manager believes the colored man was locked up in the store. Fletcher says he is innocent.
