208 100 5 87% SHEEP—Conditions were unchanged and the big barn deserted again today, there being no sheep on sale. There has been only one car on sale here in three days, a condition that was never seen here before at this time of year, when the market should be flooded with supplies. As noted yesterday, packers are only waiting for the sheep to come. They are in need of mutton and would be free buyers. There is a good, strong demand from all sources and anything in the way of fat sheep or lambs would sell at good, strong prices. Feeder buyers are just laying back waiting. They have plenty of orders and are anxious to fill them and would pay strong prices for supplies.
