WHIZ WAGONS AND ANIMALS

Some Experiences of Omaha Autoists on Country Boads.

DRIVERS STAMPEDE QUICKER THAN TEAMS

One Instance in Which the Descon Put the Whole Pienic Party to Flight by His Zeal.

One of the greatest hardships automobilists have had to contend with on the country roads has been the passing of animals that have not yet been city broke. For a ong time, particultarly in certain communities, motorists have had to bring their cars to a full stop every time, or zearly every time, a rig was met, get out of the car and hold the horses or mules while the auto was moved past, or lead the Inimals past the auto, as the case might But a great change has taken place n this, and the day is fast approaching when the auto and the horses may lay fow; together, even as the lion and lamb tid in the days when King Solomon reigned The auto and the mule have been on good terms for some time. It is a fact, declare sutolats, that the mule is quicker to take up with modern inventions than is the horse, that much maligned animal, the mule oppears to have more concell and good sense than most people are wont to give hem credit for. When the mule is given to tegistering a kick now and then, he takes ife more philosophically than does the iverage horse. The mule rarely runs away ever was known to die from heart failure for to be afflicted with nervous troubles. To believes that sure and slow goes far in a day and that whatever is is best. And so the mule was quick to ingratiate him-

RELIGIOUS NOTES.

Charles M. Alexander, the noted singing evangelist, has arrived in this country to attend the Moody summer conference at Northfield, in which he is to take part. In a recent sermon on "Other Worldli-ness," Ian Maclaren said that it is "the unbroken and intolerable sameness of life which takes the heart out of many peo-ole."

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, how-

ever, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughers and renders

pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at \$1.00 bottle by druggists. Our book of priceless value to all women sent free. Address BRADFIELD REQULATOR GO., Atlanta, Ga.

"I reckon'! know a thing or twe about them that infarnal gasoline wagons, so I just told every one to get out and take as chances," began the well meaning old leacon.

"And I refused to get out; I knew the most came to worst," said the old woman from her lone station on the carryail.

"But my friend, there was no occasion for such excitement. Your horses do not appear to be the least frightened of automobiles," remarked John Weaver.

"But they might be, they might be; there's no telling what's going to happen, it's best to be keefful," rejoined the old deacon, as he threw his umbrella into the aid deacon, as he threw his umbrella into the aid deacon and the rest of the party hat the horses took kindly to the machine and even seemed to view it with interest.

The deacon then confessed that he might have been rather hasty in the matter, introduced the autoists to the machine and even restered the members of the party and even invited the combines." The child so have not been rather hasty in the matter, in the party and even invited the Omaha men to join the picnickers in a nearby day evening and the program will begin promptly at 9.

Continuing, Mr. Lobeck says in the preface:

For a number of years past the city council has not thought it best to have the annual reports printed. Had it been the custom to do so, I am sure that the officials would have made fuller reviews and recommendations for the future benefit and administration of their departments.

In accordance with the provisions of the laws passed by the last legislature, the city officials are directed to publish annual reports and I believe that the report for 1906 will be more satisfactory to this and the other departments. I desire to furnish in the next annual report a complete statement of the resources and properties of the reason that there has not been an appraisement for some time of the values of the real estate owned by the city. There has also been a large amount of special taxes cancelled by the courts, but it is helieved that a considerable amount can be relevied, thereby making another item of value belonging to the city.

I feel under obligations to the various departments for courteeins shown me fin preparing this report, and especially do I feel grateful to the employes in my office for assistance rendered.
