

NEW TERRITORY FOR TRADE

Kansas and Colorado Will Be Invaded by Omaha Commercial Boosters.

ROUTE ALONG THE ROCK ISLAND

After Taking All of Kansas City and St. Joseph Trade Delegation Will Mount Pike's Peak.

An invasion of new territory is planned by the trade extension committee of the Commercial club. It is the country in northern Kansas on the Rock Island, at the towns of which, with the exception of those from Manhattan to Belleville, shipments from Omaha arrive at the same time as those from St. Joseph and Kansas City.

Towns to Be Visited.

The towns to be visited are: Manhattan, Keats, Riley, Bala, Broughton, Clay Center, Morganville, Clifton, Clyde, Agenda, Cuba, Belleville, Scandia, Courtland, Formosa, Monroe, Mankato, Otego, Erbon, Lebanon, Bellair, Smith Center, Burlington, P. (Colo.), Kanorado, Goodland, Brewster, Colby, Gem, Rexford, Selden, Dresden, Jennings, Clayton, Delvaie, Norton, Almena, Prairie View, Stuttgart, Phillipsburg, Agra, Kensington and Athol. Nine of these towns have populations larger than 1,000.

RAILROADS AND GRAIN CROP

Traffic Already Is Heavy, but Test Is Coming When Wheat and Corn Four In.

During the first week in August the railroads of the country delivered more grain at primary points than in any other week since last December. This is only a forerunner of what the railroads expect to do when it comes time to move the bumper crop of the present season.

Whether the road will be "awamped" by the wheat output depends on how the crop is marketed, the officials say. They will not be able to handle it in three months, as they have been called upon to do in some years, but if the marketing is distributed through six months they say they will have no difficulty in transporting the crop.

If the weather is favorable the harvesters will be busy over the greater portion of the northwest.

The roads are getting 10 per cent more traffic there than ever before at this season. In the southwest, where the crops have been harvested, except the corn, there is a heavy traffic in grain and merchandise, and the roads west of the Missouri river are short of cars. There is a free movement of the small grains.

NEXT DOUGLAS COUNTY FAIR

Agricultural Society Preparing to Make Show in Conjunction with Ak-Sar-Ben.

The Douglas County Agricultural society will hold its annual fair for 1905 in conjunction with the Ak-Sar-Ben carnival, September 27 to October 7. The premium lists are now ready for distribution and can be had at the Douglas Printing company on Howard street. The agricultural society is thoroughly organized for a most successful fair and unusual efforts are being put forth in all departments. This society has also planned to make a county collective exhibit at the state fair.

Quaker Maid Rye Was the Victor.

S. Hirsch & Co., Kansas City, Mo., distillers and distributors of Quaker Maid Rye Whiskey are receiving many letters of congratulation on account of the fact that their excellent product captured the gold medals at both the St. Louis World's fair and the Paris Pure Food exposition. This victory means a great deal, both to the manufacturers of this whiskey and the public generally.

The judges selected to pass on the qualities of the many different kinds of whiskey on exhibit at these two great expositions were men especially qualified to act. They were the best skilled experts that could be found, on all matters pertaining to the making and aging of whiskey as well as its purity and other qualities. The fact that they united in awarding Quaker Maid Rye the gold medals speaks loud for the good qualities of this whiskey.

The Quaker Maid exhibit at the Portland exposition this year includes an electric Quaker Maid girl made up of hundreds of lights. It is attracting much admiration from the thousands of visitors there.

The program as originally planned will be given and many interesting features added to make it one of the most pleasing events of the year and for the purpose of aiding a worthy cause. Weather favorable weather the building fund of the new hospital is expected to gain quite a substantial monetary lift through the efforts put forward by the combined L. O. B'nai B'rith lodges.

EXPERT DESIGNER FOR OMAHA

A. H. Proud, Expert Cutter and Designer of Men's Garments, Comes to City.

Omaha will have the distinction this fall of claiming the residence of a designer of men's clothing. The person in question is A. H. Proud, whose services have been secured by the Dresser Tailoring company of this city. Mr. Proud arrived in the city recently and immediately will take up his work as head cutter at the Dresser establishment.

A new style of overcoat, designed by Mr. Proud, has already been accepted since he came to Omaha by the "American Gentleman," which regulates the style of men's garments; he is the regular designer for this journal.

It will be the privilege of Omaha men to bring out this new style of overcoat this fall and winter before the fashion plates shall have reached many of the eastern cities.

Mr. Proud is a Frenchman by birth, having learned his profession in Paris. For years he has been identified with Brooks Bros. of New York City, which firm sends out most of the leading cutters of the country.

Mr. Proud's services with the Dresser company will include that of designer of men's garments as well as being designer of this large tailoring establishment. No tailor has ever paid the salary, outside of New York or Chicago, that Mr. Dresser pays Mr. Proud.

Another advantage that is offered to Omaha men by the Dresser company, by engaging the services of Mr. Proud, is that patrons of the Horse Show this fall may have their "show clothes" made in Omaha and according to correct and approved styles, thus obviating the inconvenience and delay of sending east for these garments, as some did last year.

Tin Roofing Guttering Spouting

A poor tin roof is very expensive. Tin plate, cheaply made, has no lead in it, and therefore rusts out quickly. Good roofing tin must have plenty of lead which never wears out, and when properly laid—the way Koch lays it—it will last a life-time. Guttering and Spouting of the best tin or galvanized iron. Prices very reasonable. All kinds of furnaces cleaned, repaired and rebuilt. The famous GREEN FURNACES installed, recognized as the most economical heater in use.
