"Whether or not," the note continues. 'the value submitted represents the value upon which the railways of the United States might properly be taxed depends upon whether the state undertakes to tax the roads at their full commercial values, including the values of both tangible and intangible property, or whether it seeks to confine its taxation to the value of the tangible property alone. In the former case the value submitted is believed to be substantially correct, so far as it concerns United Statess is \$11,244,852,000, distributed | the operating properties of the railways; in the latter case it is too high."

Ayer's Hair Vigor is a hair-food. It feeds the hair and the hair grows. That's all there is to it.

And it is a splendid tonic to the hair, giving the hair follicles tone and strength. This is why it checks falling hair so promptly.

As a dressing, it keeps the hair soft and smooth and prevents splitting at the ends.
