A Veiled Threat.

A Detroit man, H. B. McCullough, told this story of Japanese sharpness at a Louisville hotel:

"A young Jap was employed in the office of a big firm as a confidential clerk. One day, when the manager came upon an account a long time due, he handed it to the Jap and said:

"'We have tried every way to make this man pay, but have been unable to get anything out of him. He has ignored all the letters sent him in the last six months. See what you can do with him."

"In a few days the manager was as tounded to receive a check for payment in full from the man he had given up as a bad proposition and who had resisted his most powerful efforts. He was so interested that he began to wonder what the Jap had written and looked up the letter in the files. This is what he found:

'Dear Sir: If you do not remit in full immediately we will take steps that will cause you the utmost astonishment." Detroit Journal.
