BOSTON, Aug. 14.-Chicago won the earlier game of two played here today by a score of 6 to 1, and Boston took the second by 5 to 2. Dinsen's numerous bases on balls were followed up with hits in the first game, while Altrock was effective when men were on bases. The stick work of Freeman and Perris and the latter's fielding decided the second game. Green, the regular Chicago right fielder, split his hand in practice before the games, necessitating the playing of Isbell. Score first game: Double-Hender.

Oity Attorney Breen Says Its Validity is Beyond Question.

NINETY-DAY LIMIT IS NOT MANDATORY

Harm Could Be Done to Any Person and Therefore No One Has Any Ground on

Which to Enjoin,

The fact that the ordinance redistricting proved by the mayor less than ninety days over it. He said: before the general election, which is the time limit set by the charter, will not, in the opinion of City Attorney Breen, affect the validity of the ordinance.

The question of the validity of the ordinance was based on section 4, which reads: within sixty days after the passage of this act the city council shall divide such city into twelve wards and such election precincts as may be necessary. No further division or change of boundaries shall be made of said wards or election precincts unless ninety days or more prior to any

The Zimman ordinance does not change which it is intended to repeal, though it does change the precinct lines in a num her of the wards. It was passed August 8. his approval August 11. The election is to be held November 7, so there will only remain eighty-seven days from the time of the approval of the ordinance by the mayor until the election, or three days less than the time prescribed by the charter.

The Evans ordinance, which the Zimman ordinance repeals, was introduced July 11. passed July 20 and approved July 25. It s held by some that the Evans ordinance is the legal ordinance and the election should be held under its provisions.

What City Attorney Says. In discussing the Zimman ordinance City

Attorney Breen said: "The act which provides that the ordinance shall be passed by the council ninety days before the election is not mandatory even though it does say the council "shall" pass it in that time. No harm could be done any one because the ninety days' time was not given before the election and no one could claim injuries. Therefore no one could secure an injunction to prevent the holding of the election. If the election is held, the ordinance could not be knocked

in view of past decisions in such matters. The question has been raised, but I think the ordinance is good."

Superintendent of Motive Power McKeen left for Cheyenne Monday morning to inspect a new gasoline weed burner which he recently put into service on the Union he city, introduced by President Zimman Pacific. The machine worked Saturday of the city council, was passed and ap- and Mr. McKeen was quite enthusiastic

"This is not a new idea, as other roads have had weed burners, but they have all been simply on cars hauled by a locomo tive and required a train crew to handle them. This burner has been placed on a motor car with power of its own, and three men can run it. Saturday the car covered twenty miles of track, which is quite a stretch when you consider that three men of a section crew would have burned but

"Motor car No. 1, which has been brought back from the Portland exposition, is in the ward lines from the Evans ordinance, the shops at Grand Island at present undergoing a few minor repairs, when it will be put into service on the branch line between Kearney and Callaway, sixty-five given to the mayor August 9 and received miles in length. Other cars will be put into service as soon as completed." Officials at Union Pacific headquarters

said that Mr. McKeen was also going on another mission to the west. This was to inspect the Laramie rolling mills with a view of reopening them, which would give employment to a large force of men. The mills have been owned by the Union Pacific for a number of years, but have been leased to the Colorado Iron and Fuel company, which operated them up to two years ago, when for some reason the mills were

are the product of the most successful tobacco growers and

cigar makers of the day. It's a cigar intended for men whose

10 cents at your tobacconist

tastes run to extravagantly priced imported goods.
