ty-nine cars heavier than the corresponding any last year. Westerns made up the old end of the onterings, although sprinkling of native cattle on sais. The beef steer trade was in about the same condition as yesterday, although prices were a shade lower on both the native and western stuff. The corn fed tattle are greing scarce and no one is looking for heavy runs of these kinds. There has been an unusual number of ha-tives marketed alroady this season. On these good corn feds, prices were a little weak and the commoner grades are lower.

these good corn feds, prices were a little weak and the commoner grades were lower. The westerns make prices lower on the common native cattle as they come in competition with them. Sellers did not have their stuff ready to show early and little was done till alter 10 o'clock. Trading was slow and dull and there was a weak tone all through the morning. Western cattle was just about steady on the good grades, but lower on the common stuff. The cow and heifer trade suffered again today and conditions were aftered again ing interasts. There were a few native cows offered, but the most of them were westerns. There was a decline noted of 10c, with the natives geting the full benefit of the loss. on everything, but the builts which were lower.

Dry Goods Markei.

Dry Goods Market. NEW YORK, Aug. 16.—DRY GOODB— In the dry goods market today country jobbers and retilers, believing that the cotton goods market would not hold at the recent high level, became alarmed at the scarcity of merchandise and increasing firmness of sellers. More advances in bleached cottons and staple ginghams were announced to-day. Many lines were absolutely sold up. The local jobbers did a record trade in prints and ginghams, as they were selling at less than the prices quoted by first hands. Silk trade continues dull.

Evaporated Apples and Dried Fruits, NEW YORK, Aug. 16.-EVAPORATED APPLES-Market continues firm at about

the recent prices; common to good are quoted at 500%c; prime, Tc; choice, 7%c; CALIFORNIA DRIED FRUITS-Prunes

nglas les on diagonal corners that have supported the swinging lamps are being taken away. The new poles are not as massive or ornamental as the ordinary municipal type, but are a big improvement on the straight arm affairs recently put in. No wires are exposed and the underground conduit system is made absolute.

The whole business district will be equipped as rapidly as it is possible to do the work, as Paxton & Vierling has completed the order.

From now on the removal of wooden poles down town will take place, and as soon as the Western Union and Postal conduits are in the improvement will be completed, or by early winter.

NEW BUILDINGS OUT IN STATE

Y. M. C. A. at Central City Will Follow Other Towns in Putting Up Homes.

Architect John McDonald has finished plans for a \$10,009 Young Men's Christlan association building at Central City. They have been sent to the board of directors of the association. It is expected the building will be started in a month.

State Secretary Balley has returned from a trip over the state in which he visited Central City, Hastings and Bestrice, Hastings, he says, is getting along nicely and lacks only \$4,000 of having the \$30,000 necessary for a fine new home. The Beatrice association building, to cost \$30,000, is about half done. When finished it will be the finest association building in the state, outside of Omaha, and it will start out with a rental income of \$1,300 to \$1,500 a year.

# RETAIL BUILDING ST. PAUL, MINN.

## FOR RENT

I offer for rent the building on the northwest corner of East Sixth and Minnesota Streets, St. Paul, Minn., now occupied by the Smith & Farwell Company. This is an attractive, modern, wellbuilt retail building; five stories high, with a frontage of 85 feet on East Sixth and of 100 feet on Minnesota Street; contains a total floor space, including basement, of 51,000 square feet. The best location in the city for a large, high-grade retail business;
