Indians Do Not Approve Proposed Distribution of Funds to Reds.

What They Want is to Get Benefit of the Principal Be-They All Die Off.

On motion of Assistant United States District Attorney Lane, the Thurston county case pertaining to the distribution of the Omaha Indian trust fund has been ordered transferred to the United States circuit court. An order to this effect has been issued by Judge Munger. This step was necessary in order that the

by Judge Howard Kennedy of the district court of Thurston county might be acted upon formally before the United States FLEMING AND ALTSTADT FILE circuit court. The formal title of the case is the Omaha Tribe of Indians against Ethan Allen Hitchcock, Secretary of the Interior; W. H. Beck and J. F. Mackey, The hearing on the motion to dissolve the injunction was set for Friday morning, but the attorney for the Indians, Hiram Chase, who is, by the way, an Indian, was not ready to proceed with the case and the hearing was continued until Saturday

Omahans Not in Sympathy. During the pendency of the case in its various phases here at Omaha several of the Omaha tribe of Indians have been present as spectators. An intelligent Indian by the name of Prevest said Thursday even-

The Omaha Indians are not in aym pathy with this case at all. We petitioned the government a long time ago to begin paying us the principal of the trust fund. Installments of \$100,000 or whatever sum the government saw fit to pay, and the act of April 21, 1904, was in conformity with the unanimously signed petition of the Indians, and Hiram Chase himself was one of the signers of the petition. Before this time we were paid only the interest on the fund. What we wanted was to get the benefit of the principal before we all died off. The fund is the proceeds of the sale of certain Omaha Indian lands and was placed to the credit of the tribe at Washington. For years we have been getting only 5 per cent interest on this fund and so we petitioned that we be paid the principal. You see, some of us are getting old and this fund is payable only to those Indians who were members of the tribe at the time the sale of the lands was made.

Only to Survivors. "The fund goes only to the Indians living then, in 1882, and not to any Indiana born

council, when this matter was brought upthere were but twelve in the council-we voted against bringing this suit because we were satisfied with the act of 1904, because it let us realize a part of the principai. This is the second payment of the \$100,000 under that act. The other was about a year ago. So, you see, by this suit brought by Chase we are now stopped from receiving our pro rata portion of the princimotion to dissolve the injunction ordered pal, and we are not in sympathy with his

The county clerk's and county treasurer's offices will remain open until 5 m. Saturday in order to receive filings and fees of candidates.

Politicians noted a subtile difference in the filing fees of County Treasurer Fink, republican, and William Fleming, democrat, for the nominations for county treasurer at the primaries. Mr. Fleming filed Friday and deposited \$80 with County Clerk Drexel, whereas Treasurer Fink anted in but \$60. The difference was made by the addition of the salary of \$1,000 a year as treasurer ex-officio for the city, as provided by the new charter. One per cent of this for two years is \$20. A question is up as to which is right.

It is also gratify-ing to note that pending and existing labor troubles are less numerous, a higher scale was adopted at glass factories and the wages paid to harvest hands have reduced the ranks of the unemployed to a minimum. The letter came in response to an inquiry from E. W. Spencer, a citizen of Denver, who had sent to the United States circuit court here for the naturalization record of his father, who was naturalized in Gage county in the year 1884. Deputy Circuit Court Clerk Nicholson wrote to Gage county for the requisite information.

The admission of Clerk Quien of Gage county that there is no record of this kind for ten years is likely to cause an endless amount of trouble to the heirs of parties naturalized in Gage county during those ten years. It was during the period from 1872 to 1884 that the big Mennonite colony was entablished in Gage and Clay counties and the descendants of these colonists are now among the weaithlest and most prosperous citizens in that section of the state, and they comprise a very considerable portion of the population of Gage county.

> Outlook for Fall Business in All Lines. is Promising. NEW YORK, Aug. 18.-Bradstreet's to

Fall trade, while not yet under full head-way, is steadily gathering force. Buyers are more numerous. Good weather for harvesting and threshing, except in portions of the northwest, continue to bring favorable results in both spring and winter sown grains. Combined cereals will probably excel all peat years in quantity and quality. Relatively high prices for agricultural products, manufactured materials and staple products do not deter buying operations. Collections, on the whole, have improved slightly and even in the south, except in a small area of the fever-infected zone, trade and collections are alike better than anticipated earlier, while the west and east also return more favorable advices. Currency shipments to the country are increasing but have had no particular effect on money rates as yet. norrow will may:

Some of the Cattlemen Are Taking Down Their Fences, but with Deliberation.

Special Assistant United States District Attorney S. R. Rush has returned from an official visit to the cattle country in order to familiarize himself with the fencing eituation up there. He said: "Many of the fences are coming down

However, it looks as if the cattlemen in that locality are inclined to obey the law fully, but they are taking all the time they can get In the Alliance district there is very little oing in the direction of taking down fences. The big cattlemen are up that way and are inclined to put a good deal of reliance pon their influence at Washington to allow them to hang on to their fliegal fences for a while longer.

EXAMPLE OF ILL WIND STORY Lightning Puts Chandeller Into Working Order that Never

Went Right Before, Lightning played a queer prank at the home of George A. Hoagland at Dundee Thursday night. In the parlor was an electric chandelier, which never had been in order since it was placed there. An electrician had been called to examine it, but he could not determine the difficulty and left it as he found it. Thursday night. just after a blinding flash of lightning and a terrific thunder clap, light burst forth in the globes of the chandelier. Mr. Hoag land thought the good fortune might be only temporary, and in order to find out turned the light off and then on again He found that it worked perfectly. The
