Board of Medical Examiners Issues
Certificates to Nine Applicants
and the Same Number
Fail to Pass.

(From a Staff Correspondent.)

LINCOLN, Aug. 21.—(Special.)—While there is very little talk being done about candidates for membership on the Board of Regents of the State university, there are a few men who have their fingers on the situation. These are the present members of the Board of Regents. In fact it is learned from reliable sources that the board members have served notice on prospective candidates that they would be expected to do or what would be expected of them if they desired to receive a nomination. Some time ago Rev. Luther P. Ludden, who has been urged to be a candidate, received a letter from the present regents, whether from the entire board or from a certain member could not be ascertained, but it was learned from reliable sources that the letter intimated that if Mr. Ludden would agree to certain propositions, or if he would fall into the ways of the board, he could expect to become a regent, otherwise he could not. Mr. Ludden was asked about the matter, but he evinced a disinclination to give out the matter for publication. He said he had such a letter, however, and acknowledged that reading between the lines one would get the idea that the present board desired to control the selection of the regents to be.

No State Book Store.

The Board of Regents of the State university will not this year follow the lead of the State Normal board in renting books to students or selling them to the students at cost unless the board has a change of heart. Secretary Clark, who was instructed by the regents to investigate the proposition, has made his report. He enters into an exhaustive discussion of the proposition and winds up with the conclusion that only a very small saving could be made to the students, and therefore the regents would not be justified in going to the expense and trouble of instituting the scheme. In the meantime the State Normal board, acting upon its experience at the Peru normal, will institute the same system at Kearney. It has saved about \$800 during the past school year. In discussing the proposition C. S. Allen, member of the Board of Regents, said:

"According to the report made by Mr. Clark the scheme would save the students very little money and therefore I doubt whether he will adopt it. However, we are sure the students are paying too much money for their text books and it is very probable that if we had the room we would give the plan a trial anyway."

Rev. L. P. Ludden, chairman of the Normal board, said: "The system has worked perfectly with us. The books that we rented to the students have been returned at the end of the year in good condition. We saved our \$800 or \$900 students between \$4,000 and \$5,000. The system worked so well at Peru we intend to adopt it at Kearney."

Board Turns Out New Doctors.
The Board of Secretaries of the State Board of Health met today in the office of State Superintendent McElroy and granted certificates to nine applicants and

turned down nine applications. Those who passed the examination were: H. A. Houshon of Ulion, R. W. Perkins of Center, Clyde A. Medlar of Ohiowa, Andrew B. Fellows of Chester, Clarence Minnick of Cambridge, A. G. Fletcher of Orchard, E. B. Wilcox of Okaloosa, Ia.; E. W. Rowe of Gresham, I. H. Phillips of Lincoln. Of the applicants two passed by just a quarter of a point. Eleven of those taking the examination had failed at the June examination and of this eleven nine failed and only two passed today.

Of the graduates of the Nebraska Medical college who took the examination 15 per cent failed, while of the students of outside colleges 32 per cent failed.

Bryan Changes Plans for Trip.
Contrary to published reports, W. J. Bryan will not meet Mrs. Bryan in Germany for a trip around the world, but instead Mrs. Bryan will return from Germany to Lincoln within three weeks. The two, with their son and daughter, William J. Bryan, Jr., and Miss Grace Bryan, will start for a trip around the world, leaving San Francisco about the middle of September, making the trip from west to east. Mr. Bryan had planned to join Mrs. Bryan in Germany and make the trip from east to west, but he found after Mrs. Bryan had already gone to Germany that under this arrangement they would reach India in the summer and the cold country in the winter. Under the revised plans for the trip they will reach India during the cool weather and the cold countries during the summer, thus making their trip much more enjoyable. The trip will consume a year, the return being set for the fall of 1906. Mr. Bryan was in Lincoln a short time Sunday and left that evening to resume his lectures before the various Chautauques.

Commutes Sentence First Time.
Lieutenant Governor McGilton arrived at the capitol this morning and became acting governor during the absence of Governor Mickey at Portland. The first official act of the new governor was to order the release from custody of Willard Johnston, a Lincoln boy who is serving a ninety day jail sentence in the Seward county jail. The young man had served half of his term and an appeal was made to Acting Governor McGilton, signed by the sheriff, the county judge and county prosecutor, for a commutation of the sentence. As soon as he was assured that he had the authority to commute a jail sentence Governor McGilton signed the necessary papers to release the prisoner. Young Johnston on the Fourth of July had some trouble at Seward and it is said when the sheriff went to arrest him he put up a fight. He was tried before a justice of the peace for resisting an officer and drew ninety days.

Winter to Return to Chicago.
Acting Governor McGilton this morning honored the requisition of the governor of Illinois for the return to Chicago of Boyd Slater, a young man under arrest in Omaha and wanted in Chicago on a charge of forgery.

Ex-Stateman in Police Court.
August L. A. Schermer, whilom socialist candidate for congress, who is a plasterer by trade, paid \$575 this morning in the police court to square a charge of assault preferred by C. M. Jones, to which the socialist assented, to a plea of guilty. The disturbance out of which the charge grew occurred down at the city mission on South Ninth street, where it is claimed by the police, Schermer was taking destructive liberties with the furniture and dishes.

New Teachers at Peru Normal.
Principal Crabtree, of the Peru normal has issued a circular calling attention to the fact that the faculty of the school has

been enlarged and strengthened by the addition of J. W. Seanson, formerly superintendent of the schools at Wahoo and a well known educational lecturer; F. M. Gregg, recently a member of the staff of the Wayne normal, and a member of the legislature for 1902; Harold Hewitt, of Freeport, Ill. The latter will have charge of the instruction in music and will lead the band. The principal speaks hopefully of the work to be done during the school year.

TRUTH STRANGER THAN FICTION

Woman Kidnaped When Child Finds Her Parents.

NORFOLK, Neb., Aug. 21.—(Special.)—After having been kidnaped and lost from her parents for eighteen years—ever since she was a little tot of 3—Mrs. Herman Wippen of St. Louis has arrived at Gross, Neb., and today found her father and mother, Mr. and Mrs. Mike Schmeist of that place.

Mrs. Wippen arrived at Butte, Neb., last night from St. Louis, believing she would find her father in the person of Uncle Schmeist, but he proved to be her uncle, the brother of her father. This morning she drove to Gross and met her parents.

Eighteen years ago Mrs. Wippen was a little baby girl in Brown county, where her parents owned a ranch. A neighbor named Ormsby seemed to be peculiarly attracted to the child and often invited her to his home to play. One evening just after the sun had gone down the little girl was playing in the yard. Her mother was busy and her father was in town. At dark the mother went to the door and called her little daughter, but there was no reply. A search of the county failed to reveal the missing child. A few days later Ormsby suddenly departed and was never heard from again. It was always supposed that he had stolen the child.

A few days ago the Schmeists saw a letter in a newspaper from a St. Louis woman whose story coincided with that of their lost daughter. The letter said that the writer had been kidnaped from a small Nebraska town years before, and she was searching for her parents. Schmeists asked for her photograph, in which they saw a family resemblance.

Mrs. Wippen until five years ago believed that her mother was Mrs. Hearsh of her deceased told Mrs. Wippen that her real name was Lela Franklin and that she had been stolen from a small Nebraska town. Then the search began, which culminated today. Although perfect strangers to her, Mrs. Wippen was delighted to find her mother and father and they were more than made happy by her return.

Mr. Reed had discovered a leakage of gas in one of the pipes leading from the gas machine and went into the pit to repair the leakage. According to his story he lit a match and the explosion followed, burning his body and blowing out the entire north end of the brick building and tearing the roof almost entirely from the structure. The damage amounts to nearly \$2,000. Reed probably will recover.

Swedish Epworth League.
STROMSBURG, Neb., Aug. 21.—(Special.)—The Swedish Epworth league of the state held their yearly camping here the past week, August 11 to 20. The grounds which the league bought for the purpose three years ago, were this year in an exceptionally good condition. The weather also except for one night, during a heavy rain, was as favorable as could be wished. A large attendance from all the different chapters and congregations in the state visited the meeting. There were forty tents on the grounds and about a hundred and

fifty campers. A large crowd from the neighborhood also attended the meetings especially on Sunday afternoons when the services were held in the English language. FATAL WRECK IN MONTANA

Nine Persons Killed When Freight Struck Street Car at Butte.

MOTORMAN FAILS TO OBEY THE SIGNAL

Freight Conductor Says He Was Warned, but Tried to Cross Railroad Tracks at High Speed.

BUTTE, Mont., Aug. 21.—Nine persons were killed, one fatally injured and about thirteen more or less injured in a collision between a street car filled with returning merrymakers from the Columbia gardens and a freight train on the Butte, Anaconda & Pacific railway last night.

MAGGIE HARRINGTON, aged 19, Butte, MAUD JOHNSON, aged 15, Butte, MARGIE KEENE, aged 15, Butte, VERA HAUGHTON, aged 14, Butte, MRS. EADIE SMITH, CHRIS WOLD, identified only by name on local identification check found in his tincket.

UNIDENTIFIED MAN AND WOMAN.
The injured:
Ters Kotlike,
John Harvey,
Harry Kinney,
Joseph Keeney,
Tennie Baird,
Albert Dockstader,
Agnes Sullivan,
Phelix Hughes,
Alfred Jackson, motorman.

Escape of Many Miraculous.
Loaded with passengers, most of them women and girls, the car returning from Columbia gardens, was struck by the end of a freight train on the railroad tracks north of the Butte, Anaconda & Pacific depot and crushed beneath the weight of one freight car, killing nine and fatally injuring one and perhaps another. Numerous others were slightly hurt and taken to their homes for treatment, their names as this time being unobtainable.

That more were not killed is miraculous, for the accident occurred with a suddenness that precluded any hope of escape for those on the front end of the car.

Most of them were women and young girls, and six of these were killed, the other two victims being men.

Protruding from beneath the bottom of the mass of twisted and broken timbers were the feet and lower limbs of several of the victims. The limbs were badly crushed and the feet of a woman were almost completely severed just above the ankles. Her agonizing screams could be faintly heard, but as the remainder of the body was obscured from view it was impossible to identify the victim.

The train which bore the street car was composed of fourteen freight cars being pushed on the tracks by a Butte, Anaconda & Pacific engine.

The street car was approaching from the south. Conductor Hoagland says he was on top of the train with a lantern, and warned the motorman, but the latter put on speed and attempted to cross ahead of the train.
