MID-WEST TENNIS TOURNEY

Play Starts with a Vim and Weeding Out Well Under Way.

MATCHES GET DOWN TO SECOND ROUND

Off in Quick Time, to Delight of All in Spite of

Middle West Tennis tournament at the Field club under the auspices of the United States National Lawn Tennis association, nearly and second rounds being run off. The large number of entries is the pride

of the committee, there being but fortyfive in 1904 and sixty-six this year. The seven courts were kept busy from early morning yesterday and the weeding-out process was run off fast. Now the better matches are coming on, as the number of players is reduced and only the higher class remains. The idea of the managetournament is meeting with great favor all over town and the gallery is much larger than ever, with the prospects of the ing all utilized before the week is out.

Hughes and Gilman put up the most interesting match of the day, as the play was even. The placing of Gilman was beautiful and his running to the net was so skillful that Hughes was unable to displace him, and by this he won.

Praise for the management was heard on all sides for the finesse and speed with which the various matches were run off, there being no waits nor delays and the seven courts were filled most of the time. The spectators are picking the winners now and the cracks are watched with interest whenever they appear. Although the Iowa boys pick Hayes as winner in the singles, the other well known players still have plenty of followers.

DOCTORS FOR MEN

We are living in an age of specialiem; an age when success can only be attained by the concentration of every thought upon the unswerving pursuit of a single object. We are precisely such specialists. This accounts for the difference between success and failures in the treatment and cure of diseases of men. The physician who tries to explore and conquer the whole field of medicine and surgery becomes proficient in no particular branch. We have confined ourselves entirely to a single class of diseases and their complications and mastered them. We do

not scatter our faculties, but concentrate them on one particular specialty. We have made a life study of diserse and weaknesses peculiar to menspending thousands of dollars in researches and evolving a special system of treatment that is a quick, safe and certain cure for all skin, nervous, blood and private diseases of men. liood and private diseases of men.
