Another Advantage

of loans obtained by this Association is that borrowers pay no commissions to obtain their loans, and are given the privilege of repaying their mortgages at any time in full or in part, without notice.

Still another advantage is that our loans are repaid by the borrower's own money, and if security is kept in satisfactory condition.

These advantages are worthy of your consideration, as well as the fact that the borrower's own money is repaid by the borrower's own money.
