through President Roosevelt at Sagamore Hill. He is in practically constant communication with the St. Petersburg and Tokio government. By both of the warring nations his good offices have been sought and his efforts to bring their plenipotentiaries into accord and thus prevent a failure of the peace conference are unremitting. Early in the day the president had an extended conference with Baron Kaneko, the recognized confidential agent of the Japanese government in this country, Neither the president nor Baron Kaneko would discuss the nature of the interview While the baron's expressed views of the peace negotiations were not optimistic, he left a distinct impression that the last word by no means had been spoken, and hope of successful issue of the conference still was strong. Whether the negotiations now being con ducted through President Roosevelt will have reached such a state by the hour at which the conferees are to reassemble at Portsmouth tomorrow as to enable the plenipotentiaries to proceed with imconsiderations is regarded as doubtful. It appears to be likely that the envoys will meet and after a perfunctory session, adjourn their deliberations until

Behind Russia's refusal to pay an indemnity there is not only the determina tion not to do an undignified thing, which is without precedent in Russian history, but the belief that the payment of an indemnity would permit Japan soon to assume the aggressive again. Story Told by Husband. The story told by Parmenter at the police station is that when he drew his pay check on August 8 his wife asked him for enough money to pay a visit to her parents at St. Paul, Minn. He gave her the money and she was to leave the following morning. He went to work as usual the next morning, thinking that his wife would take a late train. NEW YORK, Aug. 25 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow

will say:

Distribution of autumn merchandise is in progress unusually early this year and the volume of forward business is so heavy that the last half of 1905 promises to establish a remarkable record of commercial activity. Current retail trade is well maintained, the urgency of orders received by jobbers indicating that dealers' stocks are becoming depleted, and there is little compisaint regarding collections. More labor disputes have reached settlement and no serious controversies are threatened, while in many sections the supply of wage earners is inadequate. Freight blockades and insufficient rolling stock cause delay, despite widely extended facilities as compared with last year, and this trouble will probably increase as the crop-moving season advances.

Special reports regarding manufacturing conditions have been received from about forty leading industrial centers and there will say

number of such cars operating in the state and the manner of taxation followed on such property in other states. Under the new revenue law the board has until December 1 to investigate and place on the taxation, and it is the intent of the board to take some steps toward collecting the proper revenue from this source, and it is more than likely that this class will yet get on the list this year and a certainty that it

does not encourage delay in providing for future requirements.

Recent conditions in hides and leather are accentuated and it is evidently the policy of strong interests to sustain hides at the best position, while neglecting leather. Foreign dry hides are unchanged at the recent advance. Shipments of footwear from New England factories continue heavy, but fewer new orders are placed owing to the high quotations.

Production, Distribution and Collections at High Water Mark.

morrow will say:

August, a period of exceptional activity in all lines of trade and industry, draws to a close with buying anowing further expansion, escal crop yields or prospects close to the best, railway tonnage increased, collections in the west, north and east reported generally better, money exceptionally east for this season, notwithstanding increased crop moving requirements, and confidence on all hands of a large and prospectively profitable fall and winter trade.

Dry goods of all kinds, but especially cotton fabrics, are in active sale with buyers eager to secure supplies and slow deliveries complained of. Shoes, millinery, hais, clothing and hardware are relatively active, and groceries show improvement at most markets.

At eastern markets features are the strength of cotton goods, the eagerness of buyers of these goods to obtain supplies even at present advanced prices, and the

strength of raw material, hides and leather. Reports are of a better demand for territory wool suitable for worsted goods, which have been and are selling well.

Gross raiway earnings returns point to enlarged traffic compared with the expanding earnings noted a year ago in August. For the first half of August gross receipts of leading roads shew a gain of 5 per cent over the same period of 1904. For the first half of August gross receipts of leading roads show a gain of 6 per cent over the same period of 1904.

In finished products, ralls and structural materials show marked activity. Predictions of a very active fail in all kinds of steel are supported by strong prices for billets, bars, sheets and, in fact, nearly all kinds of material, except pipes, prices for which are being cut. Other metals are strong. Coal is quite at most markets, but Bultimore notes large sales to New England and to the west.

Business failures for the week ending August 34 in the United States number 176, against 147 hast week, 185 in the like week of 1904, 142 in 1903, 140 in 1807 and 185 in 1901. In Canada failures for the week number 14, as against 22 last week and 16 in this week a year ago.

as against 25 last week and 26 in this week a year ago.

Wheat, including flour, exports for the week ending August 24, are 1.170.340 bushels, against 1.088.519 bushels last week 1.084.833 bushels this week last year and 3.26.056 bushels in 1903. From July 1 to date the exports are 7.477.504 bushels, against 10.634.161 bushels last year and 26.05.109 bushels in 1803. 634,151 bushels last year and 25,0%,109 bushels in 1903.

Corn exports for the week are 987,304 bushels, against 1,177,039 bushels last week, 763,546 bushels a year ago and 863,330 bushels in 1906. From July 1 to date the exports of corn are 8,064,447 bushels, against 4,563,339 bushels in 1904 and 8,335,295 bushels in 1903.

CONVICT GOES TO FUNERAL

Man in Pentientinry for Murder Permitted to Attend Burial of His Two Daughters.

(From a Staff Correspondent.) DES MOINES, Aug. 25 .- Governor Cummins today granted permission to Julius Metzner to leave the penitentiary at Anamosa in company with a warden in order that he might attend the funeral of his two daughters. Pauline and Ida Metzner. at Humboldt. The death of the two girls occurred vesterday from drawning, Julius Metzner has served four years of a twentyfive year term for murder in the second degree and his release for a few days is the second such action that has been taken by Governor Cummins during his term of office. The funeral of Pauline and Ida. Metzner will be held tomorrow at Humboldt, and the father immediately after the funeral will be returned to the penitenti-

ary at Anamosa. While according to the dates on the blils the state fair opens today the opening is really only for the arrival of the stock and exhibits. The real opening is Monday. However, there are more exhibitors on the grounds this evening than ever before at this time. It has been found necessary to erect two big tents in order to get all the cattle housed. There will be 462 stalls of cattle and about 800 head. There is even a greater gain in the horse exhibit, which last year was rather light and this year is very large, filling every available space on

the grounds. The official figures show that the population of Page county is 23,576, and five years ago was 24,187. Clarinda and Shenandoah, the two largest cities, have each made good gains. Clarinda is now 4,070 and five years ago was 3,276. Shenandoah is now 4,242 and five years ago was 3,573.

Captain Max Emmert of the new company of the National Guard at Atlantic has tendered his resignation and Captain Bryan of the company at Newton has also dates for the election of their not yet been set.

Resume Operations by Sunday. DENVER, Colo., Aug. 25.-The cloudburst that flooded road and stock canyons near Trinidad last evening was not so damaging to the property of the Colorado Fuel and Iron company and the Colorado & Southern Railway company as at first reported, according to a statement given out tonight at the headquarters of the former companies in this city. The greatest loss to the fuel company will come from the shutdown of its mines and other properties consequent and the death of stoppage of railroad traffic. Shipments of coal to the coke ovens will necessarily be held up, although the fuel company offiand the Colorado & Southern people have named Sunday as the time they expect

coffee, and for years drank it at least three times a day. At last, however, I found that it was injuring me. "I became billous, subject to frequent and violent headaches, and so very nervous. that I could not lift a spoon to my mouth without spilling a part of its contents; my heart got 'rickety' and beat so fast and so hard that I could scarcely breathe, while my skin got thick and dingy, with yellow blotches on my face, caused by the condition of my liver and blood. I made up my mind that all these afflictions came from

the coffee, and I determined to experiment

"So I quit coffee and got a package of Postum which furnished my hot morning beverage. After a little time I was rewarded by a complete restoration of my health in every respect. I do not suffer from billiousness any more, my headaches have disappeared, my nerves are as steady as could be desired, my heart beats regularly and my complexion has cleared up beautifully-the blotches have been wiped out and it is such a pleasure to be well again."
