### AFFAIRS AT SOUTH OMAHA

Missouri Avenue Paving Bonds Are Bold to Toledo Brokers.

MILE OF PAVING STARTS AT ONCE

Hugh Murphy Will Begin the Work of Improving the Thoroughtare from Thirteenth to Twenty-Fourth Street.

After nearly a year's litigation, the Missouri avenue paving bonds have been sold, Monday the city clerk received the blank bonds from Hoehler & Cummings and the mayor and clerk set to work at once to sign the seventy bonds. The interest coupons had the signatures of these officials agraved on them in order to save signing. In a letter to the clerk the buyers of

these securities requested that the bonds be signed at once and shipped to the Surety and Trust company of Toledo. Upon the receipt of the bonds at the office of the trust company the \$35,000 will be paid and sent here. After the bonds had been signed Clerk Gillin turned the securities over to Frank J. Moriarty, cashler of the Packers' National bank, who shipped them east last night. It will only be a few days now before the trust company will send the money paid for the bonds to the Packers' bank. Contractor Hugh Murphy has agreed to

start the work on the paving just as soon as the money is deposited to the credit of the city. The first work to be done will be the setting of the artificial curbing. As fast as a block of curbing is set the graders can get to work and these will be followed the payers. The street car company must pave between its tracks and it is understood that arrangements have been made with Mr. Murphy for this work so that when once started the paving can be pushed right along.

The city officials are more than pleased with the manner in which the buyers hurried the bonds through, as It is now a certainty that this street from Thirteenth to Twenty-fourth will be paved this year,

Council Pays Salaries.

A short session of the city council was held last night. Adkins was the only membor absent. August salaries were ordered paid and warrants will be drawn so as to be issued on September 1. The August pay roll amounts to \$4,249, divided as follows: Salaries of officials, \$2,150; police department, \$1,229; fire department, \$870.

City Engineer Beal and City Attorney Lambert approved the petition for grading Eighteenth street from Missouri avenue to

Fire hydrants were ordered located on Twenty-first street, south of Q and at Twenty-first and S streets. Sparger & Lindburg and W. J . Perry & Co. filed written protests against a raise in the 1905 tax assessment. The remonstrance was referred to the city attorney. An ordinance for the changing of the grade on Twenty-third street from D to F

The ordinance providing for the sale of bonds for the grading of Sixteenth street from Missouri avenue to I street was usual. Some work will be done in the early passed and the city elerk will advertise part of the forenoon, such as loading out these bonds for sale.

walks as per the list submitted by City Claim Agent Barrett. This was carried. The council will meet on next Monday night and adjourn until Tuesday evening, on account of Monday being Labor day.

Electric Lights for Ft, Crook. Today the Omaha Electric Light and Power company will start setting poles and stringing wires from South Omaha to Fort Crook. The start is to be made from the company's substation on M street and the fort will be entered from the west side of the reservation. About 300 poles will be needed to cover the distance, about five and one-half miles. The wire is bare copper. When this line is built the fort will be lighted by electricity, something the troops stationed there have desired for a long time. Fifteen men will be put to work on this line today.

Connecting Boilers with Stack. Workmen are now engaged in connecting the eight boilers at the Armour plant with the mammoth stack only recently completed. These boilers will be connected one at a time so that the plant will not have to shut down. As soon as the boilers. are connected the big steel stacks on top of the building will be taken down. These eight stacks will come down one at a time. A scaffold has already been built around one of the stacks in order that it may be taken down next week. General Manager Howe said that smoke from one boiler would be pouring out of the new stack by week from today. He expects that it will be fully a month before the connections are completed and the iron stacks removed.

Tax Van Out Again. Monday afternoon City Treasurer Howe ordered out the tax van and with E. E. Ridgeway in charge the van was driven to the grocery store of T. V. Allison, 297- Manufacturers' Agent Writes to Bee Q street. Allison owed \$74.60 personal taxes, the accumulation of about ten years. For nearly a year Personal Tax Collector Ridge way has been trying to get some sort of a settlement out of Allison, but always failed. When the van backed up at the store the

With the use of chemically pure giverine, of proper strength and at a proper sustained temperature, Dr. Pierce extracts from Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root, medicinal principles which, when combined in just the right proportions, constitute his widely famed "Golden Medical Discovery." It restores the tone of the atomach, the activity of the liver and the atasdiness of the nerves, pouring vitally into the blood till the once sick and debilitated one is so renewed in health, strength and power that he can resume his work, whatever it is, with vigor and elasticity.

All medical authorities, of whatever school, agree that Hydrastis, or Golden Seal—one of the essential roots in the make-up of Dr. Pierce's Golden Medical Discovery—is of very great value as a pure tonic, and as an alterative—valuable in chronic affections of the stomach, intestines and bladder.

**VOTING MACHINES FOR OMAHA** 

to Explain Some Things in Connection with Contract.

A letter has been received by The Bee from A. C. Powers, state agent for the United States Standard Voting machine written at Lincoln, explaining how the machines were offered to Lancaster county for \$600, whereas \$650 was charged in the recent equipment of Douglas county. The \$50 difference is due to a difference in the sizes of the machines, those sold to Douglas county providing for forty candidates for any one party and those submitted to Lancaster county for \$600 only thirty candidates, Assurance is given also that the machines will be shipped to Omaha is time for demonstration at every polling place primary day; September 19. Mr. Powers says:

day. September 19. Mr. Powers says:

When the company's proposition was made last year it named two prices to omaha and Douglas county, to-wit: For thirty candidates to each political party, \$600 each; for forty candidates to each political party, \$600 each.

It was found, and the joint committee so recommended, that a machine that would provide forty candidates for each party was needed in Douglas county, the highest number of candidates ever appearing in any one year upon the official ballot of a single party being thirty-three. In Lancaster county the maximum has been twenty-three. For the reason that a thirty-candidate machine is ample the proposition was made to Lancaster county on that machine. The impression that we have not been treating Omaha exactly as we have treated other cities is wrong.

In regard to instruction of voters on machines, will say that the machines will be in Omaha in ample time to have them placed in the registration booths, so that every voter appearing on September 19 can be instructed. S. C. Hamilton and myself will give this our personal attention, arriving in Omaha between the 12th and the 15th.

give this our personal attention, arriving in Omaha between the 12th and the 15th for that purpose. We shall do everything in our power to have the Douglas county voters thoroughly familiar with the machine before election, and Mr. Hamilton's long experience in that line will be of great advantage in getting results.

County Treasurer Says Reducing Prices at

Scavenger Tax Sale is Bad.

CITY HAS NO SPECIAL RIGHTS Objects to Fleming's Plan of Huckter-

ing Certificates, insisting City and County Are Coequals.

County Treasurer Fink appeared before mittee Monday afternoon to protest against the action of the city attorney's office in many from here will attend the celebration securing an order from Judge Troup reducing the prices at which a number of pieces of property were bid in at scavenger tax sale. The city's representative bid in these lots at figures ranging from \$30 to Lands," "Temagami," "Deep Water," are \$50, in round figures. The order issued by udge Troup on request of Assistant City as low as \$1, and from that up to \$6.50. The county treasurer takes the position that if this can be done on the part of the city it car also be done on behalf of private purchasers. This he will not for a moment admit, and he wants the city authorities to understand just where he stands and what he proposes to fight for. Mr. Fink contends that both the city and county legal departments have held air along since the scavenger law has been in operation that the city and county stand in exactly the same position as the private purchaser under the scavenger law. If he can the county treasurer wants to maintain a consistent rule until the finish of the scavenger sales.

Takes Issue with Fleming. County Treasurer Fink also takes decided issue with Tax Commissioner Fleming's plan for handling certificates by means of private barter. He says:

"Under the law assignments of these certificates can be made only by indorsement of the county treasurer in his official capacity. No other person whatever has any right to authorize assignments, and I do not propose to give my indorsement in any form to Fleming's proposed huckstering of these certificates. The interest of the city is the interest of the county in this matter. They are coequal in every respect. This office, in protecting the interest of the county has all through made it a point to protect the interest of the city at every turn. We have done this in every instance and will continue to do so. Neither usurp the duties of the county treasurer."

RETURNS FROM MUNICIPAL LEAGUE

Confirmed in View that Streets Can Be Better Cleaned with Flushing Wagon Than

Omaha would have stood a fair show of getting the League of American Municipalities convention for 1906 if Chicago had not entered the race, according to City Engineer Rosewater, who was this city's sole representative at the meeting at Toledo last week. Mr. Rosewater made a speech outlining the advantages of this city. He had secured the promise of Chicago's support if that city decided not to try for the convention, but the commercial organiza-

About 500 delegates from the large cities attended the meeting, which Mr Rosewater thinks was a decided success. He had one of the big papers read before the convention. It was on asphalt pavements and has been printed in The Bee-It was discussed by former Mayor Head of Nashville, Tenn., who is now an attorney for the Bitulithic company. Mr. Head attempted to attack asphalt in favor of bitulithic and the city engineer took the Conclusions Confirmed.

"My conclusions that Omaha is spending about two and one-half times what it should by cleaning the streets by flushing with hose were confirmed," said the engi-"I find the flushing wagons which I advocated are in successful and economical use in a great many cities. Progresssive municipalities have discarded the hydrant flushing and are using the wagons or machines, as they are called. I was told by a representative of the firm that makes the wagons that he visited Omaha and was told by a high city official that nothing that would eliminate the use of men on the street would be permitted

"Any assertions that our sewers are not constructed so as to permit the use of flushing wagons is rot. Are we to understand that no sewers are needed when cleaning is done by a stream from a hose, that ruins the pavement and is very costly, without taking the destruction into consideration?

"The sewers are all right. It is the game of politics that is keeping them out of Omaha."
