Prices are tending upward and the market is very strong and steady. The larger mills are again buying for future requirements, it is understood, white the smaller manufacturers are not in evidence. Sales have been made in fleeders at slight concessions and it is said by some that the movement has been heavy, while others take the position that conditions precide substantial contractions. Pulled wools, whenever available, sell readily at top prices. The season for Australian and South American wools is practically over, although it is said from 1,500 to 2,000 bales of Australian Merinos have been sold during the week. The foreign markets are stiffening with particular strength in Austrilan 40s and Merinos. The slibments of wool from Boston to date, from December 29, 1994, are 183,823,302 pounds against 183,835,844 pounds against 305,135,449 pounds against 305,135,440 pounds against 305,135,440 pounds against 305,135,440 pounds 305,440 pounds 305,440 pounds 305,440 pounds 305,440 pounds 305,440 pound

HOGS-There were about sixty cars of hogs on sale today, forty cars representing the day's receipts and twenty cars held over from Saturday. Trade today was simply a continuation of Saturday's market, the same features being noted. It was a slow, draggy, long drawn out market, buyers being particularly indifferent on anything but the good light weights. There were only a very few loads sold till well along in the forenoon, buyers being decidedly bearish and sellers holding out for better prices. Heavy hogs were not wanted if any other grades could be obtained. In fact, the rough heavy stuff was nimost a drug on the market. The general market was easy to 5c lower than Saturday's best time, with the heavy stuff selling at \$5.70% 5.80 and the light weights at \$5.50% 5.90. Buyers were willing to pick up the hogs at the decline noted, but sellers were slow to let go of their holdings at the prices. Representatives sales:
