Normal Board Adopts Scheme to Save Building Appropriation.

AUDITOR WILL NOT ISSUE WARRANTS

State Officers Have All Returned from Their Vacations and Air of Life Pervades the Capitol Building.

(From a Staff Correspondent.) LINCOLN, Aug. 29. - (Special.) - After colding intermittent meeting all day, agreeng on various plans, only to change them at the next sitting, the State Normal board finally, late this afternoon, decided to approve vouchers for the payment to the contractors of the remainder of appropriations for permanent improvements for work yet to be done on the normal schools at Peru and Kearney. This was upon the recommendation of Attorney General Norris Brown, who in a written opinion filed with the board held that it would not be contrary to the constitution or the statutes to "O. K." these vouchers. He recommended that the board protect itself and the state's money by entering into an agreement with the contractors that the warrants were to be held by the auditor until the work was completed and the board ordered them turned over to the con-

Auditor Searle announced to the board that he would refuse to issue the warrants of all his employes and that he and suggested that the members bring himself would name the employes of the mandamus proceedings against him in order to get the matter before the courts. This will be done, Mr. Searle said he would issue no warrants unless the vouchers specified that the work had been done. State Treasurer Mortensen refused to act with the finance committee in making the recommendation in accordance with the attorney general's ideas because he did not want his future action in the matter hampered by any action at present.

The vouchers which the board approved were as follows: George A. Berlinghof, \$1,652.07; Joseph A. Sparks, \$6,182.65; Dussell & Son, \$807.75; Kuntzen & Isdell, \$6,234.92. It is presumed the same action will be taken by the Board of Regents of the

State university. Before noon the board rejected the sug-Auditor Searle said he would not issue gestion of the attorney general because the warrant until the voucher showed the work had been done and decided to change the contracts, which provided that but 15 per cent of the contract price shall be held by the board until all work is completed. Attorney General Brown was called in to "O. K." this proceeding after noon and told the board such a scheme was absolutely foolish and the worse thing the board could possibly do. To change the knows more about the racing game than contract, he said, would be to release the bondsmen of the contractors and to leave the state without any protection whatever. By paying the contractors the 15 per cent retained the board would have just about wiped out the appropriation, as that is practically the amount due the contractors.

# BABY'S HEAD ONE SOLID SORE

Little One's Terrible Suffering and Sleepless Nights of Mother-Skin Now Fair as Lily with No Scar to Recall Awful Sore,

### WRITES MOTHER IN THANKS TO CUTICURA

"I herewith write out in full the boy ginning and end of that terrible disease ecsema, "says Mrs. Wm. Ryer, Elk River, Minn., "which caused my babe untold suffering and myself many sleepless nights. My babe was born seemingly a fair, healthy child, but when she was three weeks old a sweiling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spreed from the size of a dime to that of a dollar. I used all kinds of reme-dies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the bat y

the told me to get Cuticura Soap and Cintment right away.

"To please him I did so, and to my surprise by their use the sorc began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning."

## CURE PERMANENT

Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head, which at that time was a solid sore on top and down the back."

Officials Are at Outs.

A fight between Mayor Brown and Water Commissioner Deffenbach over the appointment of a city electrician to take charge of the municipal lighting plant soon to be completed threatens to end with Commissioner Deffenbach having he office filled with unfriendly employes, appointed by the mayor. The city ordinances provide that the mayor must appoint the electrician upon the recommendation of the water commissioner and with the approval of the council. Many months have passed since the ordinance was enacted make a recommendation. During this time he and Mayor Brown frequently discussed the matter and finally the water commissioner, having falled to find a suitaable man, the mayor suggested a Mr. Cornelius of Creston, In. The latter came to Lincoln and it seemed settled he would be the appointee. Last night at the councll meeting, however, Deffenbach sprung the name of Mr. Marks of Seward. Mayor Brown, who was taken by surprise, asked that the matter be laid over for a week and by a vote of 8 to 3 the request was granted. This morning Mayor Brown sent word to the water commissioner that he would shortly ask for the resignation water commissioner just to show him a thing or two. Heretofore Mayor Brown had not interfered with the appointees in this office, allowing Deffenbach to make his own appointments. Call for Bank Statement.
