AGGRAVATED CASE OF NEGLECT Husband Deserts His Wife for the Company of Strumpets in

Her Hour of Agony.

James Hildebrand of 2306 South Twentieth street was arrested in the proscribed sponse. district Wednesday evening by Officers Ring and Murphy at a time when his

621,494.69 wife was home with a 3-hour-old baby dead at her side. When booked at the

station it was learned the police have been holding a warrant for his arrest ever since last May, when he jumped through a plate glass window at a resort to eson the charge of horse stealing. They are | cape from Officer Ring, who was trying to out on bonds of \$1,000 each until the date arrest Hilderbrand on a charge of assault and battery.

In police court Thursday morning the

prisoner was fined \$1 and costs on the charge of drunkenness and \$6 and costs on the charge of assault and battery. He pleaded guilty, Mrs. Hildebrand says her husband has

neglected her since last winter, but if he will return and promise to straighten up she will not prosecute him for abandonment. Hildebrand's father and neighbors have been assisting her for some time.

He says they are in use in Los Angeles, Cleveland, Akron and other cities and the police officials are enthusiastic about them He believes the Omaha department should save two gasoline motor cars, to be bought at an estimated cost of \$2,000. One, in the chief's opinion, should hold sbout fifteen passengers and have a maximum speed of sixteen miles an hour, and the other should be smaller, with room for a squad of five men and capable of traveling twenty-five miles an hour or faster.

"A burglar working at Fortieth and Farnam streets can hear the present wagon almost as soon as it is driven out of the police station at Eleventh and Dodge streets," says the chief. "The result is the ourglar gets away every time. An automobile would help a lot in this way, as well as contributing a great deal toward speed in any kind of a hurry-up call. I think they would work a saving under the maintenance of horses. Our shoeing bills alone run from \$30 to \$40 a month and repairs to the steel-tired wagons is another expense. There are few places in Omaha where an automobile can't go."

COWELL IS READY FOR ACTION

on Tradition of Federal Government.

Chairman Robert Cowell of the republican county committee has returned from the east and, bright-eyed and smiling, took up his work where he dropped it three weeks ago at Thomas Kilpatrick & Co.'s. He did not seem in the least alarmed by the reports that the anti-machine faction of the committee had been Fifth-Fifth, Sixth, Ninth and Twelfth planning rude designs upon the dignity of his position while he was away from home, buying goods in New York and Boston and taking a small vacation with his family at Lake Chautauqua. He ancounty committee for Saturday, September 9, to arrange for sending delegates from September 14.

"I shall be guided by the majority of the mmittee, as I have been in the past, and have no intentions of assuming to be a dictator," said Chairman Cowell, "If the antis believed there was any legality in their claim that a primary election could giving to the Fifth district the Twelfth be held under the Dodge law to select delegates to the state convention, why was the matter not brought up before I left? There was plenty of time for it, and everyone knew all the conditions just as they exist today. I was even approached by a prominent anti with a proposition that both factions be given equal representation on the delegation to the state convention, to be selected by the county committee. I gave no definite reply, but merely asked whether if the antis had control of the committee, would they be that kind to the machine faction. My visitor made no re-

Burns Knocks Out Barry.

SAN FRANCISCO, Aug. IL-Tommy Burns knocked Dave Barry out tonight in the twentieth round of a slow fight.

The first annual supper given to the boys of the Young Men's Christian association took place last night, when some fifty boys, nembers of the association, sat down to a spread in the auditorium of the association building, which had been gotten up for them by Mr. Dennison, who has charge of the boys' department.

The idea of the gathering was to talk over the possibilities of enlarging the membership of the boys' department, and a campaign will be instituted at once whereby t is hoped to secure at least 100 new members. Each boy who is at present a member is vested with full authority to go out

and get all the members he can, and a great deal of enthusiasm was shown by those present last night. Speeches were made by W. P. Graham

of the boys' committee of the board of directors of the association, and Ralph Doub of the boys' executive board. The boys' gymnasium class will reopen on September 11, and the night school will open its doors on September 18. On Sunday, September 24, D. Burr Jones, the well known lecturer, will start the first of the Sunday afternoon meetings after the summer vacation. Mr. Jones comes direct to Omaha from the Philippine islands.
