Tature and precipitation compared with to corresponding day of the last three strassession of the last three the corresponding day of the last three strassession of the last three technication	bought in lots ranging from 50,000 to 75,000 tons each. This haste of the western railroads to buy is in striking contrast with the slow- ness of last year. The deduction seems obvious that the railroad managers are anticipating for 1906 splendid business, both for the steel mills and for the railroads. Accompanying the large trading in rails there is good buying of track material.

FIRE RECORD.

Docks and Lumber Yards at Portland PORTLAND, Ore., Sept. 1 .- With a gale owing at the rate of thirty miles an hour from the east fire today started about noon, destroyed the dock of the Oregon Rajiway and Navigation company and the Pacific Coast Elevator company's warehouse in Lower Albina, entailing a loss of \$250,000. The wind carried the flames across the Williamette river and dry kilns of the Eastern and Western Lumber company on the west side were also burned. Previously a fire at St. Johns, a suburb of this city, one and a half miles down the river below the destroyed docks, had destroyed the plant of the St. Johns Lumber company, the Oregon Fir company's mill and the wood yards of the Peninsula Wood company.

A hundred freight cars on the Oregon Railway and Navigation tracks in Lower Albina caught fire and twenty-five of them were completely destroyed, with their loads of wheat, lumber and miscellaneous freight.

Residence at Tecumseh. TECUMSEH, Neb., Sept. 1.-(Special Telegram.)-Fire of unknown origin destroyed
