## **CRAIN AND PRODUCE MARKET**

Rains Do Not Extend to Nerthwestern Barvest Pields.

WEAKER TENDENCY SHOWN IN WHEAT

Corn is Lower Also, with Liberal Receipts and Light Trading-Light Fronts Reported in Nebraska.

Rains are only in the Mississippi valley. With liberal receipts of wheat over the holidays and predictions of fair weather in the northwestern harvest fields, wheat showed a weaker tendency. Trading was light. There was some buying of September against sales of December. September crossed at 75%, December at 81%; and May at 84%.

Corn was lower, notwithstanding the conditions unfavorable to maturity Receipts

at \$44c.

Corn was lower, notwithstanding the conditions unfavorable to maturity. Receipts were above estimates. Chicago received 1.019 cars over the holidays and 432 cars are estimated for tomorrow. September closed at \$25c, old September at 355c, December at 45c, old September at 355c, December at 45c, old September at 25c, December at 25c, old September at 25c

Light frosts were reported in western Ne-braska Monday morning, but the districts reporting it do not raise much corn. Scarcely any frost was heard of in the eastern part of the state, except at Ash-land. Expected frost did not materialize in Iowa.

land. Expected frost did not materialize in Iowa.

A good lot of corn was taken out of unlicensed elevators at Chicago last week, the bulk of it for shipment. Postings foot up to 3,12,000 bushels and over; half of the amount was contract. In the same period 527,000 bushels of contract wheat were inspected out of private houses.

The Daily Commercial record of Duluth says the Duluth wheat market is rapidly shaping up to a point where the trade, castern as well as western, can do business with it. The market will spring into activity as soon as definite shipments can be promised.

Elevator people say threshing is pretty general in North Dakota. Minneapolis looks for increased receipts in a few days. Pringle, Fitch and Rankin say they think the price will not be affected much, even if there is a big free movement in the northwest.

abroad and there was talk of a possible advance in bank rates. Paris continued to absorb the bar gold from the market. Consols declined near the close. Home rails were active, Americans were quiet pending the receipt of Wall street advices. Business i nthe forenoon was light, but in the afternoon New York supported the market and prices hardened alightly. A fair amount of business was transacted and prices closed steady. Canadians maintained their strength and activity. Forceigners were the brightest section, owing to the strength of the Paris market. Russians hardened and Japanese were extensively bought at higher rates. Japanese imperial 8s of 190s were quoted at 165. BERLIN, Sept. 5.—There was a confident undertone on the Bourse today, but transactions were limited.

PARIS, Sept. 5.—Prices on the Bourse today were irregular. Russian 4s weakened notably, and the uneasiness over the Moroccan situation caused general feebleness, French rentes sharing in the weakness. At the close the tone was indecisive and weak. The price of Russian imperial 4s of 1905 was 96.05 and Russian bonds 502.

Boston Wool Market.

BOSTON, Sept. 5.—WOOL—A quieter tone prevailed in the wool market with the prices firm. The largest buyers are well stocked and great activity is not looked for until they come into the market sgain. Certain grades of wool are already becoming scarce, especially Oregon, both western staples and valley. A large part of the demand for territory wool continues to be for lots in the original bags. Pulled wools are selling fast. Foreign grades are strong. .5,810 5.615 alxiy-eight cars. Several of the trains were late in arriving, so that it was considerably after the middle of the forencon before everything was in. The late arrival of the trains, as well as the rain, made the market later than usual and it was well along toward midday before very much business was transacted.

The supply of beef steers was very small this morning considering the size of the receipts. There were only about fifteen

The supply of beef steers was very small this morning considering the size of the receipts. There were only about fifteen cars of corn-fed steers on sale. The feeling here is that cornfeds are selling at pretty stiff prices and there is a little incidination on the part of buyers to bear the market wherever there is an opportunity, but with so few cattle here and with a fair demand it was impossible to make much difference in values and the general market was about steady with yesterday. Western beef cattle were also in moderate supply and the market steady with yesterday on everything desirable. While the market was late in opening, the most of the fat cattle changed hands in reasonable season. The market on cows and helfers did not show any especially new or interesting features. The supply was not excessive and huyers went after the desirable killers about as fast as they showed up. In other words, the market was fairly active at just about steady prices. Some sellers who had common or inferior grades thought the market was hardly so good on that kind. A very considerable proportion of all the cattle in the yards consisted of stockers and feeders. There was a good, active demand for cattle of good weights, that is, cattle weighing around 1,100 or better, and the market was steady. Cattle of inferior quality and of lighter weights were not sought after and as a rule were not only slow sale, but anywhere from weak to loc lower. Representative sales:

SHEEP—The receipts were larger than yesterday, about fifty cars of sheep and lambs being on sale. Of this number a fair preportion consisted of feeders. The run for the two days this week foots up just about the same as for the corresponding two days of last week, but much larger than a year ago.

just about the same as for the corresponding two days of last week, but much larger than a year ago.

It was a dark rainy morning and the wasther seemed to have a depressing effect upon the market. Buyers were slow about taking hold and seemed to be lacking in enthusiasm. They evidently wanted supplies, but the size of the receipts removed to their anxiety as to being able to fill orders and they seemed disposed to take their time. The result was a slow dull market, it being late when it opened and late at the close, prices being anywhere from steady to a little lower.

The dulings and weakness of the sheep market and, aithough there were plenty of orders for feeders, buyers were disposed to take any advantage of lower prices on mutton grades to claim an equal reduction on their kind. The fact is that there is a general feeling that feeders are too high and so long as that feeling exists buyers may be expected to take the bear side of the deal whenever there is an opportunity.

Quotations on fat sheep and lambs: Octobice lambs, \$5.563.50; good to choice wes, \$4.5035.00.

Metal Market.

NEW YORK. Sept. 5.—METALS—There was a slight recovery in the English tin market and closing prices there showed spot at £147 10s and futures at £165 15s. Locally the market was steady with spot quoted at \$4.2004.25. Copper was also a shade firmer abroad, closing at £70.5s for spot and £70 2s 6d for futures. Locally, however, it was somewhat unsettled with buyers refusing to follow the recent advances and reports current of small transactions at a shade under recent prices. Lake and electrolytic are quoted at \$16.25c 16.75 and casting at \$15.75(60)6.374. Lead was quiet at \$4.55(6.90) in the local market, but joined in the general advance abroad, closing at £14 1s 6d in London. Spelter was higher in both markets, closing at £26 5s in London and at £7.506.85 in New York. Iron was irregular abroad with Glasgow closing at 51s 5d and Middlesborough at \$8.50. Locally the situation was unchanged. No. 1 foundry northern is quoted at \$15.507.15. No. 2 foundry northern. \$15.75(6) 15.75.

ST. LOUIS, Sept. 5.—METALS—Lead. Metal Market. ST. LOUIS, Sept. 8 - METALS-Lead, ateady, at \$4.774; spelter, steady, at \$5.65.

> ESTIMATES ON G. A. R. CROWDS Union Pacific, Burlington and Rock Island Put Their Traffic at Sixty-Five Thousand.

Sept. Oct. Jan.

8 72

Although a little too early for the exact figures on the amount of business hauled to Denver by the three roads running from Omaha to the Colorado capital, the estimates now are about what they were before the movement started, showing the perfection to which rallfoads have organized their forces for the bandling of immense crowds.

The Burlington hauled into Denver, counting the eleven sections of No. 3 now enroute, eighty-five trains, with an average of over 300 passengers to the train, making over 25,000 people hauled by this

rond alone The Union Pacific has had no report from the Kansas line, but the passenger department puts the estimate of people hauled into Denver at 25,000 people. hauled into Denver at 25,000 people. The Rock Island officials think that during the last six days, during which time the Grand Army of the Republic rates have been effective, that road has moved 15,000 people into Deaver. The Union Pacific hauled many via Cheyenne, these remaining over for Frontier day, so that the record is not complete.

No movement for years has so attracted the attention of the people of the east and the traffic on all lines has been phenomenal.

VISIT FROM OLD TEACHER Rev. C. W. Savidge Entertains Dr. Folwell, Former President of University of Minnesota.

Dr. W. W. Folwell and Mrs. Folwell of Minneapolis have just left Omaha for Denver to attend the Grand Army of the Republic encampment. Dr. Folwell was a colonel in the federal army, While in Omaha Dr. and Mrs. Folwell Were guests at the home of Rev. C. W. Savidge. The doctor, formerly president of the University of Minnesota and still a member of the faculty, was Rev. Mr. Savidge's instructor thirty-five years ago, when the latter was a student at the university. De-Folwell was succeeded as president by Da Northrup, the present incumbent.
