CHICAGO, Sept. 7—Milling demand helped maintain firmness in the wheat market today. At the close December delivery was up %5%c. Corn is up %6%c. Oats show a gain of %5%c. Provisions are unchanged to 7%c lower.

The volume of trading in wheat was not large. At the opening December was up %5%c at 83%682%c. Commission houses were moderate purchasers on the unsettled condition of weather in the northwest. In addition higher prices at Liverpool induced some buying. The factor, however, that perhaps exerted most influence on the situation was the firmness of cash wheat at all outside markets. The fact that primary receipts today were 751,600 bu, compared with 1,118,000 bu, a year ago, bad also a builtsh effect. Throughout the day prices fluctuated within a small range, December selling between \$2c and \$23.60%. The market closed firm, with December at \$2\chi_0\$2%c. Clearances of wheat and flour were equal to 132,000 bu. Minneapolis, Duluth and Chicago reported receipts of 277 cars, as against \$56 cars last week and 719 cars a year ago.

The corn market was firm as a result of NEW YORK. Sept. 7.—There was further heavy liquidation of stocks early today following that of yesterday and quite unform declines of between 1 and 2 points resulted in the course of the first hours trading. The market gave evidence of being oversold and the perception of this fact induced some renewed covering of short contracts by the bears. The tone of the market became extremely incertain and unsettled at the resulting fally in prices. The taking of profits by the bears was due partly to the fact that some of the adverse factors in the day's news were anticipated in the selling of yesterday. This was notably true in the advance in the minimum rate of discount of the Bank of England which was made today. The usual wide influence throughout the financial world of a change of discount rate by that institution occurred nevertheless. No previous change had been made since early in the spring and it was not since September of two years ago that the interest rate charged by this influential financial institution had moved upwards. The successive changes since that date have been downwards from 4 per cent to the ½5 per cent which ruled since last spring until today's advance to 3 per cent. The active demand from Paris upon London for gold and the large engagements there for shipments to South America seem to be the immediate explanation for the action. Call money rates went to above 2 per cent and the asking rates for time longs were advanced by many lenders. The liquidation effected in the stock market seemed, nevertheless, to have relieved the money market to some extent and the tendency in New York and Chicago exchanges inflicated that the higher rates for money here were affecting the interior demand upon this center. The belief that the stock market liquidation had kept pace with the need for contraction of credits had the effect of checking short selling by the bears.

Any purpose to take action towards the money market was discisimed as an object of the visit of the secretary of the treasury to Wall street t

Wool Market.

BOSTON, Sept. 7.—WOOL—A quieter tone prevailed in the wool market with the prices firm. The largest buyers are well stocked and great activity is not looked for until they come into the market again. Certain grades of wool are already becoming scarce, especially Oregon, both western staples and valley. A large part of the demand for territory wool continues to be for lots in the original bags. Pulled wools are selling fast. Foreign grades are setling fast. Foreign grades are strong. LONDON, Sept. 7.—Money was plentiful in the market today, but the demand was poor. Discounts were firmer, owing to the gold withdraws and the increase in the Bank of England's rate of discount. This was considered to be a precautionary movement in view of the export of buillon abroad and the probable money requirements in connection with the quarter-end and Russian finances. Business on the Stock exchange was quiet. There was profit taking in most of the departments except consols and other first class securities, which were supported by investors. Consols declined later owing to the advance in the bank rate. Americans declined being disappointed at the Wall street liquidation. They dropped further till near the close, when a slight hardening occurred, but closed unsettled. Foreigners were generally lower the rioting at Tokio inducing further selling. Japanese imperful &s of 1904 were quieted at 104%.

The market opened up more active this morning, buyers seeming to be more analous for supplies than they were yesterday. The more desirable fat sheep sold quite readily at prices generally steady with yesterday and the most of the offerings changed hands in reasonable season. Some of the same wethers sold yesterday brought the same price today.

There was a fair supply of feeder sheep and lambs on sale, a considerable proportion of the holdovers being that kind. The feeder trade did not show much change in any direction as compared with yesterday.

NEW YORK, Sapt. 7.—METALS—There was quite a severe break in the London tin market, with spot closing at £147 5s 64 and futures at £147, which was followed by weakness locally and a decline to \$32.259 \$2.59 for spot. Copper lost further ground in the London market, closing at 68s 7d for spot and 58s 5d for futures. Locally the situation shows no change from yesterday, the market being weak, with lake and electrolytic quoted at \$15.000,050 and casting at \$16.15916.25. Lead was quiet and unchanged at \$4.1594.25 in the local market, but declined to £14 in London. Spelier was unchanged at £25 7s 6d in London and at \$5.7596.65 locally. Iron closed at \$18 7d in Glasgow and at 48s 5d in Middlesborough. Locally the tone is firm, with No. 1 northern foundry quoted at \$18.50911.25. No. 2 northern foundry at \$18.20916.75 and No. 2 southern foundry at \$18.75916.25.

ST. LOUIS. Sept. 7.—METALS—Lead, steady, \$4.776. Spelter, \$5.65. Metal Market.

NEW YORK, Sept. 7.—COFFEE—Futures opened steady, net unchanged to 10 points lower, under a continuance of Wall street liquidations, but offers from this source were not so heavy as on the previous day and there was a fair scattering demand promoted by fairly steady cables and light Brasilian receipts. The market continued around opening figures during the early session, but railled and closed steady, unchanged to 5 points higher. Bales were reported of 5.325 hags, including October at 8.95c; January, 7.55c; March, 7.60p7.55c; July, 7.50g7.55c. Spot. steady; No. 7 Rio, 85c. Coffee Market,

week and not much different from a year the same as yesterday, with a \$2.50 top.

Sing.

The market opened this morning with hyers bidding about 5c lower than yesterday and quite a good many hogs sold on that basis, but sellers were holding for better prices and they gained their point to the extent that the market improved and closed steady with yesterday. While the early trade was slow, owing to the lower hids, the inter trade was more active and the most of the hogs sold in good season. The bulk of all the hogs sold at \$3.505.40, the same as yesterday, with a \$2.50 top.

While the average market did not show much change, as compared with yesterday, there was an undercurrent of weakness, especially on the common to medium their view. CROWD TOO BIG FOR DENVER Old Vets and Visitors More in Number Than Colorado City Counted On.

John Dixon of Davenport, Ia., returned Thursday morning from Denver, having left there Wednesday night. Mr. Dixon is a veteran of the civil war and was a visitor to the national encampment of the Grand Army of the Republic. He said: "It is the biggest and best encampment I have ever attended and I have attended most of them. But the crowd is too big for Denver. I was in the parade Wednesday, and its only equal is the grand review at Washington in May, 1865, of which I was also a participant. The fact is the crowd was bigger than the Denver folks figured on. There were at least 50,000 old vets in the grand march and it was worth a lifetime to see it. Denver is treating the old boys all right and they appreciate it. Many of them left last night. Our train had sixteen coaches and hundreds great trouble is going to be to get the crowds away from Denver. Most of the
