DUN'S REVIEW OF TRADE

Commercial News from All Points Continues Most Satisfactory.

CROP CONDITIONS ARE FAVORABLE

Industrial Progress is Accelerated by Broadening Demand for Iron and Steel Products.

NEW YORK, Sept. 8.—R. G. Dun & Co.'s Weekly Review of Trade will say:

Commercial news continues most satisfactory. Improvement being noted in almost every case except the further decline in prices of securities. Crops are being harvested under most favorable conditions and a few weeks more without severe frost will put the yield of corn and cotton beyond danger. Industrial progress is accelerated by the broadening demand for iron and steel products. Textile mills and other factories are well supplied with orders. Considering the prosperous condition, labor troubles are exceptionally few. Jobbers in many lines are unable to handle the business offered.

Wholesale firms report a wholesome distribution of merchandise, and there are few complaints regarding collections. Retail consumption has caused a further rise in the level of commodity prices. Dun's index number of September 4, advancing to 105.54 from 105.56 a month previous, and 105.54 a year ago, when business was much less vigorous. Some comparison of trade is noted and railway earnings in August were 6.2 per cent. larger than in the same month of 1934. Foreign commerce at this point for the week showed gains of \$1,248,490 in exports and \$97,122 in imports as compared with the movements of a year ago.

BRADSTREET'S REVIEW OF TRADE

Production and Distribution Are Near the High Water Mark.

NEW YORK, Sept. 8.—Bradstreet's tomorrow will say:

Wholesale distributive trade, already of full volume, has received new impetus this week from buyers' excursions at the southeast state fairs in the northwest and the general assurance that the corn crop is beyond danger of frost damage. Through-out a wide area. Cool weather and the ending of the vacation season, coupled with the partial reopening of schools, has made for more activity in retail lines north, west and east, while the prompt marketing at good prices of the first crop of the cotton crop has improved both wholesale and retail business. In industrial lines the feature has been unprecedented activity in the placing of further orders for rolling stock, a number of small machine agreements, and considerable volume of pig iron sales and a stiffening in prices of coke and bituminous coal, this latter being regarded as a very significant item. Anthracite coal has felt the stimulus of cooler weather.

Accompanied by marked activity in millinery, dry goods (probably the more expensive makes), clothing, hats, shoes, hardware and lumber at leading western markets, are reports of good collections.

Evidence that past and present heavy purchases of commodities, coupled with the usual movement of crops to market, will severely tax the railway interests of the country are already visible.

Business failures in the United States for the week ending September 7 number 127 against 161 last week, 141 in the like week of 1934, 181 in 1933, 197 in 1932 and 182 in 1931. In Canada failures for the week

number 25 as against 25 last week and 14 in this week a year ago.

A feature deserving note at present is the activity in all lines of building material reported in the central west and northwest. Wheat, including flour, exports for the week ending September 7 are 1,134,223 bushels against 1,423,250 bushels last week, 1,266,621 bushels this week last year, 2,046,010 bushels in 1934 and 2,444,148 bushels in 1932. From July 1 to date the exports are 10,100,668 bushels against 14,462,283 bushels last year, 11,525,748 bushels in 1934 and 8,286,742 bushels in 1932.

Corn exports for the week are 1,404,652 bushels against 1,157,370 bushels last week, 476,221 bushels a year ago, 844,518 bushels in 1934 and 215,112 bushels in 1932. From July 1 to date the exports of corn are 19,622,479 bushels against 17,750,232 bushels in 1934, 21,255,254 bushels in 1933 and 20,277,232 bushels in 1932.

HERRING SUES FOR MONEY

Attorney for School District Brings Action Against County Treasurer Fink.

Attorney C. E. Herring, acting for the Omaha school district, has brought suit for a mandamus to compel County Treasurer Fink to pay over to the school district the sum of \$119,550. This amount is alleged to be due for out-of-town pupils who received tuition in the Omaha High School during the years 1928-34. There were in the first mentioned year 641 weeks of such tuition and in 1931 861 weeks. The rate of tuition fixed by law is 76 cents per week for each such pupil.

Treasurer Fink, through the county attorney's office, has filed a demurrer, and the matter, which is largely formal, will have an early hearing.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take.

Announcements of the Theaters.

Between the hours of 7 and 11 o'clock a public reception will be held at the Orpheum tonight. The Orpheum orchestra, under the direction of Albin Haster, will be in attendance to render music while visitors are given a chance to view the city theater as it has been renovated for the new season that opens tomorrow with matinee and evening performance. Here is the vaudeville menu selected to create a pleasurable taste for this popular form of theatricals: Heading the bill will be Bert Leslie and Robert Dailey, the latter a brother of "Pete" Dailey, in their odd conceit, entitled, "Going Abroad." Like Leslie and Dailey and the majority of artists on the program, the De Koo trio, European gymnasts, come for the first time. Bertie Fowler, styled "the merry monologue maid," will be recalled as one of the stars of the Orpheum Road Show. Talbot Rogers are singing comedians. Knight brothers and Sawtelle are known as the twentieth century dancers. Fredo and Dare have a versatile musical turn. Schep's dogs and ponies. New photo pictures will be projected by the kinodromes.

This afternoon and evening and tomorrow afternoon and evening "The County Chairman" will be offered by the Boyd company by the same splendid company that made a hit with their previous season. This comedy show its author, George Ade, at his best, telling a decidedly interesting story in a merry manner, painting pictures of real life with careful detail and outlining characters so that you can easily recognize people you have known in the past. Theodore Roberts heads the company in the role of Jim Hackler, and George Thatcher is still doing the work of the town darkey, who is so funny and yet so natural. The play is under the direction of Henry W. Savage. Its stay in Omaha is limited to four performances.

Harry B. Davis, undertaker. Tel. 123.

Pennsylvania Picnic.

The Pennsylvania club of Omaha and South Omaha will hold a basket picnic at Krug park Friday afternoon and evening, September 13, beginning at 2 o'clock and ending when the lights go out. Arrangements have been made with the management of the park for some special amusement features, which will come in the way of a surprise. An interesting program, aside from the regular park program, will be given in the grove just west of the merry-go-round.

It is the wish of the society that every native-born Pennsylvanian, with his family and friends, living in Omaha, South Omaha, Council Bluffs and vicinity, will be present to enjoy this picnic, given on the lines of an old-fashioned backwoods Pennsylvania picnic. A special invitation is extended to the Pennsylvanians living in Washington and Burlington.

DEMOCRATS HAVE FIGHT ON

Two of Younger Element Want Secretaryship of County Committee.

PLAN ON FOOT TO UPROOT OLD MEN

No Salaries Are to Be Paid for This Work is Announcement that Has Gone Forth.

A vigorous little fight in the democratic camp is being pulled off over the secretaryship of the new county committee, which is to be selected at the primary. Two men want the position, M. S. Daniel, a young lawyer and a nephew of Senator Daniel of West Virginia, was the first to announce himself for the place and try to line up the committee candidates, but Joe Rapp, who will quit secretary under Ben T. Wite of the Northwestern at a stenographer September 15, declared his candidacy and started out to make good. Mr. Rapp is going on the supposition that the secretaryship will pay \$25 a week during the campaign. It is said, while Mr. Daniel will be satisfied with the honor and prestige. The announcement is made by the politicians who expect to rule the new committee that no salaries are to be paid, and this is supposed to be a resolve that will cast a dampness on Mr. Rapp's ardor.

The latter, however, has not given up, and Daniel is busy trying to stay on the inside track.

Few Contests Coming. There will be contests for committees in only a few Omaha precincts. These will be in the Second, Seventh and Tenth wards, where a few districts have two or more candidates on file. The issue is merely over the respective merits of John Power and Tom Flynn for sheriff.

Outside of the eight precincts concerned but one committee candidate has filed from each district and these are said to be of a mold that will give a young element in the party control—one that has not heretofore held the whip hand. Deputy Comptroller Cosgrove can be the chairman of the new committee if he will accept it.

The hottest of the primary fights is in the Third precinct of the First ward, where C. G. Cunningham, Dan J. Connell and Charles Young have filed. Cunningham is a Power man, Connell favors Flynn, and Young's attitude is not clearly defined.

CLUB WILL SPECULATE SOME

North Sixteenth Street Improvers Decide to Buy Building as a Venture.

The organization of a stock company for the purpose of buying a building on North Sixteenth street between Dodge and Cuming streets, negotiations for which are about to be opened, was the chief topic of discussion by the officers of the North Sixteenth Street Improvement club at the Midland hotel parlors last night. It was not the regular meeting of the club, but a few of the officers and members got together for the purpose of discussing the project of purchasing a site for speculatively purposes. In all probability a building will be purchased by the club members in the near future.

Whether or not the club has a site in mind, or whether the members will appoint a committee to investigate the project and ascertain the probable price set on a site, is not yet known and the members decline to state for the reason that the property owners would probably raise the price of their property when it becomes known that the club is after a building for speculation.

The meeting last night adjourned without taking any definite action on this matter. The club meets the first Friday of each month.

Report on Pneumonia.

NEW YORK, Sept. 8.—In a preliminary report by the medical commission for the investigation of acute respiratory diseases, which under the department of health officials of this city has conducted for a year experimental work with the microbe of pneumonia, it is asserted that in this city during the winter months the majority of inhabitants, ill or well, carry about this infectious and much-feared organism in their mouths. The minute microbe waits for a propitious time for increasing its

ELEVENTH WARD CLUB FORMED

About a Dozen Men Meet and Elect Officers for the Organization.

About a dozen men responded to a published call for a meeting to organize an Eleventh Ward Republican club at Washington hall last night. The principal performers were E. A. Benson, standing candidate for mayor; Joe Crowe, ex-postmaster; Simon Trostler, ex-councilman; J. L. Kaley, ex-county attorney; J. B. Haynes, private secretary to Senator Millard E. F. Butts, former organizer of the Patriotic League, and Lawyer Frank Crawford. The meeting resolved itself into a branch of the Fontaine club by endorsing the Fontaine candidates for county committeemen from the several precincts. Mr. Benson announced that he had had one of the voting places changed to suit the convenience of his friends, and by unopposed motions officers were elected, giving President the title of president; Benson, vice president; Butts, secretary, and entrusting the club to the custody of Trostler as treasurer.

DAY ON ANTI-CIGARET LAW

Judge Hears Argument and Takes It Under Advice for a Few Days.

Judge Day has taken under advisement for a few days the case of State against John Alperson, for violation of the state anti-cigarette law. Alperson is charged with giving away or allowing to be taken cigar papers and "the makings" as the term has it, of cigars.

Friday afternoon Alperson's attorney, Judge McHugh, argued that the title of the law is defective, as it covers only "the manufacture and sale" as being prohibited within this state. City Prosecutor Tom Lee argued that the title served notice on the legislators of what the intent of the law was.

This is the first test case of the anti-cigarette law in the state and Judge Day's decision is expected to set a precedent.

Wonderful Change in a Night. In a Month Face was Clear as Ever.

ANOTHER CURE BY CUTICURA

"I had eczema on the face for five months, during which time I was in the care of physicians. My face was so disfigured I could not go out, and it was going from bad to worse. A friend recommended Cuticura. The first night after I washed my face with Cuticura Soap, and used Cuticura Ointment and Resolvent, it changed wonderfully. From that day I was able to go out, and in a month the treatment had removed all scales and scabs, and my face was as clear as ever. (Signed) T. J. Smith, 317 Slagg Street, Brooklyn, N. Y."
