GRAIN AND PRODUCE MARKET Wheat Finishes Higher After Being Weak CHICAGO GRAIN AND PROVISIONS Market Hesitates and Wavers During Greater Part of the Session. All Day. Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Sept. 8.—Improved demand from exporters caused a firm close in the wheat market here today. Final quotations on the December option were up %c. Corn is practically unchanged. Oats are up %6-5c. Provisions show a gain of 2½c to 124c. STRONG RALLY COMES NEAR CLOSE EARLY PRICES ARE AT HIGHER LEVEL Covering by Shorts and Export In-Union, Southern and Canadian Pato 1239c.

Notwithstanding higher prices at Liverpool, the wheat market here opened rather weak, December being off \$50 ac to \$50 ct at \$50 ac The easier feeding was due to improved weather conditions in the northwest. Pit traders generally were of the opinion that prices were soon to sag under the weight of increased onerings of new wheat. In consequence, sentiment was quite bearish the first haif of the session. Toward the middle of the session the market became considerably more active, and on fair support from several bull leaders, prices made a substantial advance. Boorts, also, were good buyers. Higher prices for eash wheat at outside markets helped to stimulate the demand. For December the highest point of the day was reached at \$50 ac The market closed firm, with December at \$50 ac Clearances of wheat and flour were equal to 11,500 bu. Exports for the week, as shown by Bradstreet and flour were equal to 11,500 bu. Exports for the week, as shown by Bradstreet and flour were equal to 11,500 bu. Exports for the week, as shown by Bradstreet and flour were equal to 11,500 bu. Exports for the week, as shown by Bradstreet and flour were equal to 11,500 bu. Exports for the week, as shown by Bradstreet and flour were equal to 11,500 bu. Exports for the week and 424 cars a year ago.

Sentiment in the corn pit was rather bearish early in the session. Improved weather throughout the corn belt was one of the reasons for the early weakness. Another factor was the Missouri crop reported receipts of 552 cars, against 424 cars a pear ago. Sentiment in the ourse of the highest point of the day. December opened weakness and the figure of the factor was the Missouri crop report, indicating a yield of \$50,00,000 bu., compared with 177,000,000 bu, last year. Later the market became firmer, in sympathy with the strength of wheat. Shorts were \$50 cars, and closed at the top. Local receipts were \$50 cars.

Provisions were firm as a result of a 10 c advance in the price of five hogs. The bulk of trading was published to 55 ac ar cifics Show Special Strongthquiry Are the Factors-Corn Un-Notwithstanding higher prices at Liver-Money Rates Are Quite changed-Heavier Argentina Stiffy Held. Shipments This Week, NEW YORK, Sept. 5.—For the greater part of the time today prices in the stock market wavered and hesitated in the same uncertain manner as was the case yesterday. But the active buying movement of the first hour had established a level of prices well above those of yesterday and it was about this higher level that the day's fluctuations occurred.

The bear element was impressed apparently by the evidence of resistance in the market and by some large buying that was attributed in the current supposition to the account of large banking and financial interests for the purpose of supporting prices. This is a new development in the recent situation and intimidated the bears. London also bought largely during the activity of the first hour, aithough the original source of cabled buying orders are always open to suspicion. London itself was not conspicuously cheerful and was under the influence still of yesterday's advance in the bank rate. Private discounts there made ah additional advance and the absorption of gold by Paris continued unabated, while further engagements were made for shipment to South America. Special strength was shown by Canadian Pacific, Union Pacific and Southern Pacific, Explanation was found in the strong annual report of the first named and in the handsome increases in net earnings for July by the two latter roads. Reading also showed greater strength than the average of the list. Otherwise gains were quite uniform and did not vary far from a point.

Money rates were quite stiffly held and the forecast of the currency movement for the week indicated the expected heavy decline in cash reservable. OMAHA, Sept. 8, 1965. Covering by shorts and export inquiry railied wheat at the close after a weak session. Prices at the close were a little higher than yesterday. There is expectation of a large movement of spring wheat soon. The northwest and southwest are furnishing as much ball resident. furnishing as much bull news as they were bear news a week soon. The northwest and southwest are furnishing as much bull news as shey were bear news a week ago. September closed at Si½c, December at Singlishe and May at Singlishe, December at Singlishe and May at Singlishe.

Corn was practically unchanged. Lighter receipts are expected by the bulls after next week. While Argentina shipments are 200,000 bushels larger than last week at the same time, the stock at the ports has decreased \$60,000 bushels and is now 1,000,000 bushels less than last year at this time. September closed at Single, old September at \$30,00 bushels and May at 430,00 did December at \$30,00 bushels and May at 230,00 did December at \$30,00 bushels of corn. December at \$30,00 bushels of corn. Liverpool closed \$4,000 bushels of corn. 20,000 bushels of oats \$3,000 barrels of flour and no wheat. Primary wheat receipts were \$10,000 bushels and shipments \$25,000 bushels and shipments \$25,000 bushels and shipments \$35,000 bushels and shipments \$15,000 bushels and shipments \$15,000 bushels and shipments of \$60,000 bushels. Argentina wheat shipments for the week were \$1,400,000 bushels and shipments \$15,000 bushels. Argentina wheat shipments for the week were \$1,400,000 bushels, against receipts last year of \$00,000 bushels and shipments of \$60,000 bushels. Argentina wheat shipments for the week were \$1,400,000 bushels, against \$1,376,000 bushels the week before and \$1,000,000 bushels the week before and \$1,000,000 bushels the week before and \$1,000,000 bushels the week before and \$2,000 bushels and shipments of \$00,000 bushels and shipments were \$2,000,000 bushels and shipments of \$20,000 bushels and \$2,000,000 bushels the week before and \$2,000 bushels and \$2,000,000 bushels the week before and \$2,000 bushels and \$2,000,000 bushels and \$2,000,0 Money rates were quite stiffly held and the forecast of the currency movement for the week indicated the expected heavy decline in cash reserves by the banks. But it was inferred from the absence of flurry in the call money market and from the freedom from pressure on stocks that the necessary liquidation of securities to keep pace with the expanding requirements for cash was fully abreast of money market needs. The estimates of the currency movement cover five days and including a loss on subtreasury operations of \$4.368,000. Reduction of deposits by loan contraction on a large scale is confidently expected, however, as a feature of tomorrow's bank statement. A brisk raily in the price of copper in the London market was a help to Amalgamated Copper here. The absence of any renewed selling presure on the market encouraged some fresh buying late in the day and the closing was strong at the top level. mates of 260,000,000 last month and 177,000,000 bushels a year ago. The government report for August indicated only 28,000,000 bushels. The crop is out of danger of frost. The Kentucky report makes the corn condition 101.

Manitoba grain merchants are using the Chicago market to help move their big wheat crop. They have made liberal hedging sales in Chicago in the last few days as a protection against their purchases in 10,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y. as a protection against their purchases in the Interior, or for grain in transit to strong at the top level.

Bonds were irregular. Total sales, par value, \$2.735.000. United States bonds were all unchanged on call.

The quotations on the New York Stock exchange ranged as follows: as a protection against their purchases in the interior, or for grain in transit to Atlantic ports. Manitoba is getting the lion's share of the export trade thus far. Oats shippers comment on the fact that Europe is already buying, although her own crop has just been harvested. This is regarded as a confirmation of reports of Russian shortage and is taken to mean that this country will later have an increased volume of export trade.

Both natives and westerns sold in about the same notches as yesterday, the market being without noteworthy change market being without noteworthy change in either direction. One bunch of very good corn-fed steers sold up to \$5.90.

There were not more than a dozen or lifteen cars of cows and helfers suitable for packers' purposes in the yards. What there were sold in the morning at prices steady with yesterday.

Bulls, stags, mixed stock and calves also sold at steady prices. As usual at the end of the week, the trade in stockers and feeders was dull. Speculators still had a few cattle on hand for which there did not appear to be much demand and they were not inclined to take on additional stock to be carried over Sunday, Fortunately, there were not many fresh cattle on sale, so that the yards were pretty well cleaned up of the day's arrivals before the close of the market.

REFER STEERS. *Balances paid in cash. †Not included in totals because containing other items than clearings. New York Money Market. HOGS-The receipts of hogs this morning were quite large for a Friday, over 100 fresh cars being reported in. The receipts this week have kept along about even with last week and with a year even with last week and with a year ago.

The market this morning was very dull and slow and it was later than usual before much business was transacted. Sellers seemed to feel that the market ought to be a little better and were pricing their holdings with that end in view. A few loads sold at the opening that looked a little strong, but as a rule buyers were holding off. They did not agree with sellers that it was time for a reaction, but were still bearish in their views. Intend of putting on anything they proceeded to take off a little, making the market wasker than yesterday. The general market might be described as steady to lower. Representative sales.

OMAHA LIVE STOCK MARKET SHEEF For a Friday there was a liberal SHEEP-For a Friday there was a liberal run of sheep, over twenty fresh cars being reported in, making the total for the week to date heavier by several thousand head than for the corresponding days of last week or a year ago.

The market did not show very much

than for the corresponding days of last week or a year ago.

The market did not show very much change as compared with yesterday. There was a fair demand for desirable killers and the most of the offerings changed hands in good season. The prices paid looked just about steady with yesterday, but fully he lower than a week ago on sheep. Good wethers, such as were selling at \$5.00 the high time last week, brought \$4.75 today. The lamb market has been alow all the week and they have suffered more decline than have sheep, being safely \$5500 tower than last week.

The feeders, like fat stock, did not show much change as compared with yesterday, but they are anyway logiche lower than last week. The demand for freders appears to have let up to some extent. Some buyers, after trying without success to secure something, have given it up, and others appear to have been scared out by the prevailing high prices. The result is that the market has gradually eased off.

Quotations on fat sheep and lambs: Good to choice lambs, \$6.0005.60; good to choice yearling wethers, \$6.0005.60; good to choice old wethers, \$4.5006.00; good to choice old wethers, \$4.5006.00; good to choice ewes. \$4.2504.75.

34.25@4.75. Quotations on feeder sheep and lambs: good feeding lambs, \$5.80@6.30; good feeding venrlings, \$4.75@5.00; good feeding wethers, \$4.50@4.75; feeding ewes, \$4.40@4.75. Representative sales;
