

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives. Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's illness—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so-called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney ailments by its use. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent, scanty or high colored, producing scalding or burning, or deposits like brick dust in it, or usual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back, running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills. The following letters show how marvelously successful it is. Lydia E. Pinkham's Vegetable Compound: a Woman's Remedy for Woman's ills.

RUSSIAN ARMY SATISFIED

Majority of Officers and Men Pleased that the War is Over. RANK AND FILE PRAISE ROOSEVELT Few Who are Disillusioned, Believing the Japanese Have Won Their Best Soldiers and Could Be Whipped.

GUNSHU PASS, Manchuria, Sept. 10.—Since news was received that peace negotiations had been concluded, the correspondent of the Associated Press has made a survey of all the Russian positions from Mongolia to headquarters, the object in part being to ascertain the extent to which the efforts made for peace were viewed by the army. The negotiations received no official recognition in the field prior to their successful conclusion, the army keeping in a state of preparedness for a battle until the receipt by General Linovitch of a telegram from Emperor Nicholas declaring that the treaty had been signed and that his majesty accepted the conditions arrived at. This telegram was officially published in the army newspaper on September 6, and the outlines of the peace conditions were printed in the same publication today. The officers thereafter observed military decorum in the strictest sense, but the soldiers, with the consent of the officers, engaged in feasting and other forms of celebration. It will be a week more before the entire army is fully informed of the conclusion of peace, but the news was discounted long since by the prevailing conviction that since the appointment of a foreign plenipotentiary, peace was a foregone conclusion. It may be said that to the great majority of the officers and men so far informed, the news that the war is at an end is most welcome. Drink Roosevelt's Health. Thousands are daily drinking to the health of President Roosevelt. The correspondent, who is the only remaining foreign newspaper man with the Russian army, was everywhere asked by the men if he was an American and on being answered in the affirmative they captured him and tossed him many times in the air after the manner of the Cossacks, while their officers gently protested against this seemingly questionable form of their admiration. Everywhere along the railway where newspapers could be obtained, the soldiers eagerly scanned the news and then expressed their joy by singing, which they continued late into the night, in intervals cheering for President Roosevelt. With the exception of the loss of a captain and two ordnance on the east front within the last two weeks and of nine men in the center, a week ago, there have been no casualties. Cessation of hostilities was preceded only by unimportant reconnaissance involving small parties of scouts. Owing to the enormous tract of country east of Halingueh and between the Russian lines and the Japanese position in the Chang Paishan range, it will require some time to reach all the elements operating in the interests of both armies and in restoring the regions occupied by both flanks to order. The officers are holding races at Toersu and at other places. The Fourth Russian army corps, which played a conspicuous part throughout the

STATE FAIR HAS BALANCE

Board Expects it Will Be Five Thousand Dollars to the Good. TOTAL RECEIPTS OVER FORTY THOUSAND

Attorney General Norris Brown is Preparing to Take More Testimony in the Grain Elevator Case. (From a Staff Correspondent.) LINCOLN, Sept. 10.—With the detailed expenditures yet to check up, Chairman Rudge of the State Fair board is of the opinion that the board will come out ahead of the game from \$4,000 to \$5,000. The total receipts of the fair this year amounted to \$40,244.45, or about \$10,000 more than last year. The new steel pavilion proved a good thing, especially because of the rain, and Mr. Rudge is anxious that a pavilion for exhibition of hogs be constructed during the coming year. The detailed receipts of the fair are shown in the following table, compiled last night by Secretary Bassett and Treasurer McIntyre:

Table with 2 columns: Item and Amount. Includes General admissions (\$15,488.29), Amphitheater (\$2,718.35), Reserved seats (\$1,267.75), Speed entries (\$1,386.00), Camping permits (\$2.50), Stalls and pens (\$1,125.00), Concessions (\$32.40), Miscellaneous (\$200.00), State appropriation (\$3,000.00), Railway coupons (\$1,000.00). Total: \$40,244.45.

Boost Room Rent.

An information bureau was opened at the university by the Young Men's Christian association to assist students in getting good rooms for the winter. The first thing the bureau discovered was that room rent had increased severely during the summer. Rooms that rented for \$3 a month last year now cost \$10, and to get a good room it is necessary for a student to put up \$12 a month. According to the information collected by the bureau, rooms are just as plentiful as last year, but the increase in price is attributed to the desire of the owners of buildings to get rich quick.

More Grain Case Testimony.

Attorney General Norris Brown will resume the taking of testimony in the grain case in the senate chamber September 18, a day before the recess from that place. The general is mentioned as among the first who will return home. The disability of General Zeritzky has steadily increased, and he will be compelled to return to Europe. This officer was noted for his singular bravery throughout the war. He was wounded at Mukden, where he lost three-fourths of his tenth army corps. It is reported that General Linovitch will leave soon. The general staff is engaged in plans for changing the general's duties throughout the army preparatory to evacuation. Among the soldiers generally there is a feeling of apprehension regarding the internal affairs of Russia, and many of them have expressed a desire to remain in Manchuria indefinitely. Prince Friedrich Leopold of Prussia, who has been with the army since the beginning of May, has announced his intention of returning to Germany.

Some Want More Fighting.

After a prolonged war on an enormous scale, and after the great preparations recently made to continue the struggle, the Russian army, in complying with the conditions of peace, surrenders two complete positions with field works of vast extent and even more intricate than those of the Japanese. The positions of great strength protecting its communications, but notwithstanding this the correspondent found among both officers and men a generally prevailing sense of the remarkable fairness of the conditions by which the terrible contest has been brought to a close. The advocates of further fighting, however, seemed to be convinced that the flower of the Japanese army had gone, leaving only old reserves and inferior recruits, while the constant strengthening of the Russians with young recruits they believed gave them a large balance of power which would have enabled them not only to fight one more great battle, but to enforce peace thereafter. The impression prevailed among these advocates that the army was nearly twice its real size, and their feeling of strength was due to this exaggeration of the facts. Since the reception of the emperor's testimony to the bravery and self-sacrifice of the soldiers and the declaration of the final acceptance of peace terms the army has become obediently passive. All peace news, except that direct from the ministers or the emperor, is placed at the end of the dispatches printed in the army publication and is given as little prominence as possible.

RUSSIAN VILLAGE CHOLERA

Eight Cases Have Been Found Among Lumbermen Returning from Prussia. WARSAW, Sept. 10.—In the village of Wysock, government of Volynia on the frontier between Poland and Prussia, a man returned from Prussia and eight other persons have died of cholera. The village has been isolated. LEMBERG, Galicia, Sept. 10.—All the persons suspected of being ill of cholera in Prussia have recovered and there are now no suspected cases in Galicia.

FIRE RECORD

CHATTANOOGA, Tenn., Sept. 10.—At least \$50,000 in the estimate of loss in a fire which broke out tonight in the freight yards of the Cincinnati, New Orleans & Texas Pacific Railroad company totally destroying the freight depot with its entire contents, forty-two freight cars, most of which were fully loaded, two mail cars, two baggage cars and the private car of Superintendent M. W. McGuire.
