POLITICIANS ARE QUIESCENT

Little Talk Around Capital of the Coming State Convention.

BURGLAR VISITS TREASURER MORTENSEN

Takes a Few Dollars in Money and the Annual "Courtesies Presented to Him by Railroad Companies.

(From a Staff Correspondent.)

LINCOLN, Sept. 11.—(Special.)—That the republican state convention will meet in Lincoln next Thursday is not evidenced by any political talk at the state capital. Old politicians who have been able to give the right "hunch" as to who would be nominated at a state convention weeks before the convention claim to be up in the air about the matter, and it is the general belief here that the matter has not been set but that the nominations, both for supreme judge and for regents of the university, are still up in the air. A well-known politician from northwestern Nebraska who was here yesterday predicted the nomination of Supreme Court Commissioner C. B. Letton, and said that all along the line of the Northwestern railroad there was a general sentiment in favor of Letton. Whether or not the legal department of the Northwestern has been using its influence or will use its influence for Letton he could not say. Other men from out in the state who have visited Lincoln lately say there has been very little discussion of candidates and that no one could make a safe prediction as to what would be the outcome of the convention.

Around the state house the idea is general that an anti-pass resolution will be adopted, and one state officer at least has announced that if such a resolution is adopted he will at once surrender his pass. This man, during the month of August, traveled over 4,000 miles on official business without cost to the state. He is now making arrangements to conduct his business at long range, at least until the next legislature makes an appropriation for his traveling expenses.

There is some talk of a resolution requesting the nominees for regents to pledge themselves to hold open meetings when transacting business for the state university and thus do away with the executive session and the censored reports of the meeting which are now given to the public.

Burglar Robs State Treasurer.

A thoughtful burglar who entered the residence of State Treasurer Peter Mortensen last night relieved that officer of a delicate duty which probably he himself would have performed after the next republican state convention. The burglar wilfully and maliciously did take from the coat pocket of the state treasurer certain annual "courtesies" over certain railroads in Nebraska, which had been presented to the state treasurer in the form of passes. Along with the courtesies the burglar took $9 in cash, a gold watch and some jewelry, the latter the property of Mrs. Mortensen. The burglar removed the screen from a window, raised the window and walked into the room, lighting the way, evidently, by matches, as a number of burnt ones were found scattered over the room. The fact that Mr. Mortensen failed to awaken during the visit of the midnight intruder is attributed to his easy conscience and the knowledge that no complaint has ever been made against him as state treasurer. Burglars also entered the house of Judge Tibbetts and attempted to enter the house of Frank Hollingsworth of the land commissioner's office. At the latter place Hollingsworth awakened and scared the men away. At Judge Tibbetts' the burglars secured a quantity of silverware and a small sum of money.

Troubles of Normal Board.

Governor Mickey in all probability will be called upon to take a hand in affairs of the State Normal board. The minority faction of the board is not pleased with the manner in which the majority is transacting the business which comes before the board. It has been customary for some time when a matter comes before the board to refer it to the executive committee "with power to act." The executive committee is composed of Chairman Ludden, Tom Majors and C. H. Gregg. When the proposition comes to a show down, Deizell usually votes with the executive committee, thus making a majority. By giving the executive committee power to act, Ludden, Majors and Gregg virtually control every act of the board. These are all appointees of Governor Mickey, and the governor has the power, if he so desires, to discipline them, and it is intimated that a member of the minority faction will request the governor to cast his eagle eye over the situation.

Must Return to Missouri.

Governor Mickey this afternoon honored a requisition for the return to Adair county, Missouri of J. N. Hatfield, wanted for forging a note. Hatfield is in jail at McCook and Sheriff Curry of Adair county went there for him as soon as the requisition was honored.

New Bank at Bladen.

Thorne and Charles Spence.

STRANGER KILLED BY A TRAIN

Man Giving Name of John Bernhardt Struck by Engine Near Tekamah.

TEKAMAH, Neb., Sept. 11.—Special.)—Passenger train No. 7, southbound, ran over and killed an unidentified man about four miles west of this place this morning.

The man appeared to be a workingman, about 38 years old; he had a telescope and a small grip and was standing in the middle of the track when the train came around a sharp curve. He seemed to be scared, as he made no effort whatever to get out of the way.

The coroner's inquest, held here this afternoon over the body of the man killed by train No. 7 this morning, supposed to be John Berhardt, completely exonerated the train crew.

Conductor Caplinger, Brakeman Palmantier, Engineer McClair and Fireman Jones were the principal witnesses, and all testified to practically the same thing—that the deceased when first seen by the engineer was standing in the middle of the track with his face turned sideways, and he seemed to be looking down. The engineer blew the whistle and rang the bell, but he did not move. The train struck him and threw him over against the right of way fence. The train stopped, backed up and brought the body to this place and turned it over to the coroner.

In an interview with The Bee reporter this morning Burn Kelly, aged 12, told the following story: "The man that was killed by the train this morning rode from Herman to Tekamah yesterday with me and my brother, arriving here about 6:30 p. m. He gave his name as John Bernhardt and said he was on his way from Omaha to Sioux City to see a sister who lived at that place, and also to find work."

Kelly also said that the man was so hard of hearing that they had to yell at him or he could not hear at all.

Although the deceased had a telescope filled with clothes, there was not a scrap of paper found that would in any way lead to his identity.

No Fusion in Polk.

OSCEOLA, Neb., Sept. 11.—(Special.)—Of all political conventions that have ever come together at Osceola, the ones held by the populists and democrats Saturday were the slimmest. George Horst presided over the populist convention and C. C. McCune of the Stromsburg News, was secretary. The parties not only failed to get together but succeeded in putting in a good sized wedge in the way of future unity of action. All the democrats asked for was county treasurer, and if they were given that, then they would support all of the other candidates for office on the populist ticket. They were granted the office and their selection was Conrad Thelan of Shelby, and when that name was brought into the populist convention it was rejected by a vote of 87 to 16. The democrats were maddened that their candidate was turned down and they adjourned to some future date when they will meet and nominate a complete county ticket. These are the populists nominated for county offices: county clerk, J. N. Norton; treasurer, John Lees; judge, W. A. Cornish; sheriff, William Ehlers; superintendent, Miss Minnie Rydberg; coroner, Leclare LeMar, M. D.; surveyor, R. E. Dearborn; commissioner, C. E. Wamsley. The delegates to their state convention that meets at Lincoln on the 20th are: J. N. Ireland, F. J. Skidmore, John Tongue, William Carlson, William Ehlers, W. B. Jones, J. N. Norton, A. P. Tilley, S. B. Johnson, George Horst, W. J. Brigham, W. S. Funkhouser, Otto Hasselbach, J. B. Gilbert, J. P. Carlson.

Grading All Done in Dodge.

FREMONT, Neb., Sept. 11.—(Special.)—The Sioux City & Western has nearly all of its line within Dodge county graded and ready for ballast, ties and rails. Nothing has yet been done within that part of the city where houses are being moved. The grading camps north of town broke up Saturday and Sunday. A big gang is working on the Platte river bridge. None of the smaller bridges and culverts have been put in, they evidently coming under a separate contract. ILER GETS ALL HE ASKS FOR

Promoter Makes Requests to Facilitate New Hotel and Council Readily Accedes.

WILL START WORK IN FEW MONTHS

Puts Councilmen Up to Date as to the Progress on His Various Projects Over the State.

Peter E. Iler asked the general council committee for a number of important privileges in connection with his proposed new twelve-story hotel at Sixteenth and Howard streets, yesterday afternoon. The committee agreed he should have everything he asked for. Mr. Iler had his requests carefully written out and attached to a picture of the hotel and cuts of the plans for each floor; also a map of the city showing the route of his conduit line for the supply of water; carbon dioxide and heat.

Tabulated Mr. Iler's wants are these:

Permission to lay pipes through streets and alleys from Sixth and Leavenworth streets to Sixteenth and Howard for the distribution of water taken from a subterranean current of the Missouri; the transmission of carbon dioxide to be used for refrigeration, preservation of foods and fire protection, and for the distribution of heat from a central plant under the new hotel. These conveniences are to be extended not only to the hotel but to other buildings that Mr. Iler owns along the right-f-way. All the pipes are to go in the same trench.

Permission to move the old Iler residence from the corner of Sixteenth and Jackson streets back on the same lots to the corner of Seventeenth and Jackson; to move the west one-third of a four-story, 22x100 foot building, known as the Garfield block to the southwest corner of Sixteenth and Jackson streets; to move the three-story brick 60x99 foot building at Sixteenth and Howard to a lot next to the alley on Fifteenth street.

Permission to excavate under the sidewalk on Howard street to the curbline and eight feet in the alley between Howard and Jackson streets; also to build a subway in the alley so as to connect with a hotel laundry.

Necessary to New Hotel.

Mr. Iler said all these things are necessary for the construction and renting of his new hotel, on which he expects to begin construction within six or eight months. The city attorney advised him, he said, that the pipe line privileges are not in the nature of a franchise, as he is to supply only his own buildings. An ordinance will be prepared embracing all the concessions and submitted to the council for passage.

Incidentally Mr. Iler told the council that he is about to make a contract with G. E. Goldner, manager of the Stoneybrook Brick and Slate company in York county, Pennsylvania, to assume the supervision and management of a new brick manufacturing plant at Sarpy City, which will have an output of about 50,000 bricks a day. He produced letters from Mr. Goldner, who was out here recently, in which the writer agreed to terms made by Mr. Iler and digressed on the details of brick manufacture. Mr. Iler announced that he will attempt to form a stock company to establish the plant, but that if this fails will go it alone.

Good Soft Mud Bricks.

"Experiments have shown that a superior quality of soft mud bricks can be made from the clay at Sarpy City," said he. "This means that the price of brick in Omaha will be cut from 10 to 15 per cent. We can make the material to sell for $6 per 1,000 for the best, or face brick, as against prices of from $7.50 to $8 now prevailing. The brick can be shipped up here for $4 a car. They will be first-class building brick and of a kind now largely used in the east. Oil will be used in the plant for fuel and we will be making bricks for the new hotel."

Mr. Iler announced that about ten miles of the Omaha, Beatrice & Lincoln electric railway has been laid between Lincoln and Bethany, and that recently twelve cars of steel were received, which is going down as fast as it can be laid. Three contractors have the grading work in hand.

A request from Mr. Iler for the sale to him by the city of a small piece of ground near Second and Hickory streets is pending. He says that the land is needed for the construction of a four-story brick building that will be used by a new raditor manufactory and a new paint factory. The latter will make the product from ore found in mineral deposits on a tract of land near Louisville, Ky., that Mr. Iler has bought.
