GRAIN AND PRODUCE MARKET

Feature of the Trade is a Better Price for Wheat.

GOVERNMENT MONTHLY REPORT ISSUED

Is Very Bearish on Corn, but Considered a Stand-Off on Other Grains—Estimate of the Russian Crop.

OMAHA, Sept 11, 1905.

The government monthly report came out today. It was decidedly bearish on corn, forecasting a crop of 2,524,000 bushels. Some traders considered the wheat report slightly bullish, but the majority said it was a stand-off. Spring wheat was made 6,000,000 bushels less than last month, corn 14,000,000 bushels more and oats 5,000,000 bushels less, it had the effect of making the wheat market strong.

December wheat was up 1c. Valentine has a long line of wheat and no great decline is looked for until he lets loose. September closed at 82¾c, December at 83½c and May at 85¾@85½c.

Corn was firm, September finished at 63½c, old September at 63¼c, December at 43¾@43¾c, old December at 45¼c and May at 45½c.

Oats showed a little higher tendency after the government report. September closed at 25c, December at 27¼@27⅜c and May at 29½c.

Liverpool closed ⅛@¼d lower on wheat and unchanged to ⅛d higher on corn. The market had reports of continued heavy exports from Russia and beneficial rains in the Punjab and Rajputana districts of India.

Primary receipts of wheat today were 1,210,000 bushels, and shipments 517,000 bushels, against receipts last year of 1,758,000 bushels and shipments of 515,000 bushels. Corn receipts today were 736,000 bushels and shipments 513,000 bushels, against receipts last year of 954,000 bushels and shipments of 949,000 bushels. Clearances were 20,000 bushels of wheat, 71,000 bushels of corn, 296,000 bushels of oats, and 8,000 barrels of flour.

World's wheat shipments for the week were 10,088,000 bushels, against 9,664,000 bushels the week before. Corn shipments were 4,306,000 bushels, against 4,356,000 bushels the week before. Wheat on passage is 32,368,000 bushels, a decrease of 1,728,000 bushels. Corn on passage is 19,256,000 bushels, a decrease of 650,000 bushels.

Broomhall gives the following preliminary estimate of the Russian crop: Winter wheat, 192,000,000 bushels, against 294,000,000 bushels last year; spring wheat, 336,000,000 bushels, against 460,000,000 bushels last year; rye, 624,000,000 bushels, against 930,000,000 bushels last year; barley, 272,400,000 bushels, against 428,000,000 bushels last year.

Crowe of Winnipeg estimates the wheat crop of the Canadian northwest at 85,000,000 bushels, which is 6,500,000 bushels under the estimate of the Manitoba grain dealers.

Advices from the country tell of increased receipts of wheat at interior points and of large estimated movement with favorable weather. Receipts at Minneapolis and Duluth for the week were 2,436 cars, compared with 1,968 cars, the previous week and 1,977 cars last year. A few of the elevators in the southwest and Kansas are beginning to ship their surplus to make room for future receipts. This condition is not general, as other elevators are moderately stocked. Receipts at Kansas City and St. Louis for the week were 150,000 bushels less than the previous week, but 90,000 bushels more than last year.

WEATHER IN THE GRAIN BELT

Fair and Cooler is on the Schedule.

OMAHA, Sept. 11, 1905.

Showers occurred within the last twenty-four hours in the lower Missouri, middle and lower Mississippi valleys and west gulf states, and rains were general in the Ohio valley and Lake region, and continue in the lower lake region and eastern states this morning. The weather is generally clear in the central valleys this morning and is fair throughout the west.

Temperatures are higher in the Missouri valley and west, but are lower in the northwest, and will be lower in the central valleys by Tuesday.

Omaha record of temperature and precipitation, compared with the corresponding day of the last three years:

	1905.	1904.	1903.	1902.
Minimum temperature	62	50	57	50
Precipitation	.00	.48	.02	.00

Normal temperature for today, 65 degrees.

Deficiency in precipitation since March 1, 7.22 inches.

Deficiency corresponding period in 1904, 8.68 inches.

Excess corresponding period in 1903, 4.30 inches.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Sept. 11.—Official announcement of a big shortage of wheat in Russia strengthened the wheat market here today. The December delivery closed practically 1c up. Corn up ⅛@⅜c. Oats are practically unchanged. Provisions are down 2½@c to 12½c.

The wheat market opened firm and after early trading advanced, additional strength developed. At the last the December option was unchanged to ¼c higher at 82½c to 82¾c. Fit traders and commission houses were fairly active bidders. The demand was due largely to a report made by a statistical committee appointed by the Russian government which showed a shortage of 12,800,000 bushels in winter wheat as compared with last year's total. In spring wheat the deficiency was estimated at 125,300,000 bushels. The effect of these figures was to completely offset the depressing influence of lower quotations at Liverpool and neutralize the market effect of clear weather northwest. Another bullish factor was a report from New York claiming that a fair amount of wheat for export had been taken. The government report was as about had been generally expected. The market closed strong with prices at the highest point of the day. Final quotations on December were at 82¼c. Clearances of wheat and flour were equal to 306,000 bushels. The amount on passage decreased 1,728,000 bushels, and the visible supply increased 497,000 bushels. Primary receipts were 1,210,000 bushels, compared with 1,196,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 716 cars, against 628 cars a year ago.

The corn market was a trifle easier early in the session as a result of clear weather throughout the corn belt. Liberal local receipts was an additional bearish influence. Later in the day shorts covered moderately on the upturn in wheat, causing a slight advance. The market closed firm with prices at the highest point of the day. December opened ¼c lower at 43¾c, sold between 43⅝@43¾c and 43¼@43⅜c, and closed at 43¾@43¾c. Local receipts were 802 cars, with 429 cars of contract grade.

Oats were steady in sympathy with other grain. A good export demand was another important factor. December opened ¼c lower at 27¼c, sold up to 27⅜c and closed at 27¼@27¼c. Local receipts were 471 cars.

Trading in provisions was of extremely small volume. Sentiment in the pit was somewhat bearish following a 5-cent decline in the price of live hogs. Leading longs were credited with some selling of lard. At the close January pork was off 7½c at $12.82½. Lard was down 5c at $6.82½. Ribs were 10@12½c lower at $6.40.

Estimated receipts for tomorrow: Wheat, 33 cars; corn, 727 cars; oats, 321 cars; hogs, 20,000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS

Market Remains Under the Shadow of the Money Situation.

BANK OF GERMANY ADVANCES RATES

Contest of Foreign Banks for Funds Affects Trading on Wall Street—Values Are Generally Lower.

NEW YORK, Sept. 11.—The stock market remained under the shadow of the money situation today. The principal event of the day in the world's market was the absence of the official discount rate of the Imperial Bank of Germany from 3 to 4 per cent. It was generally expected that after the rise in the Bank of England rate, the German institution would raise the rate, but the advance of a full 1 per cent was not fully expected.

The incident is a movement in the international contest for funds now developing among the world's money markets. The great foreign banks seem to desire to accumulate reserves in preparation for larger government and other loans to be floated. It is clear that they will have to contend with pressure from New York to obtain additional funds in order to do this. Probably the action of the English and the German banks is partly a defensive measure against New York's demand. It did not prevent a further quite violent break in foreign exchange rates here in New York, which carried the price of sterling within measurable distance of the point at which gold could be engaged for import at Ogdensburg. It is expected that before that rate is touched further obstacles will be interposed in foreign markets. The price of gold was advanced in the London market as one such obstacle. Opinions in the banking community differ as to the likelihood of an early inward movement of gold.

The unprecedented loan contraction revealed by Saturday's bank statement continued the subject of interested discussion and the field was industriously canvassed to discover special operations which may be held to account for the astonishing figures. It is believed that holdings by an underwriting syndicate of railroad bonds have been transferred in large volume abroad either for delivery to purchasers or to hold with funds borrowed in foreign markets.

The week opens with a further large absorption by the subtreasury, and all reports point to the activity of business in all lines and the enormous movement of grain and merchandise over the rails. The drain of currency to the interior is certain, therefore, to continue for several weeks yet. It was this discouraging prospect which carried prices downwards through early dealings today. The lack of urgency in forced selling and some very large individual buying of a few stocks on the impressive character held the bears in check and the market set about a dull recovery about midway of the session. The government crop report had its part in this, the condition both of corn and spring wheat being regarded as fully holding the previous promises. Some positive strength in Canadian Pacific, St. Paul and Smelting and a notable absorption of Erie had a strong sympathetic effect on the recovery. Prices were carried very generally above Saturday night and the closing, while slightly irregular, was at a higher level.

Bonds were easy. Total sales par value, $1,625,000. United States bonds were all unchanged on call.

The following was the range of prices on the New York Stock exchange:

*Ex-dividend.

Total sales of the day, 861,400 shares.

Foreign Financial.

LONDON, Sept. 11.—Money was in fair demand in the market today. Discounts were steady. Trading on the stock exchange was fairly cheerful in places although dealings were meager, the mining settlement absorbing attention. The movements were irregular. Consols and kindred securities were affected by the increase in the Berlin bank rate, but recovered a fraction at the close. Americans dropped generally on the monetary outlook in New York, became inactive and closed weak. Grand Trunk was buoyant on the traffic increase, largely exceeding the estimates. Foreigners mostly were neglected. Japanese had a better tone and were bought on the more peaceful news from Tokio. Kaffirs had a hardening tendency. Rhodesians were very firm. Japanese imperial 6s of 1904 were quoted at 106¾.

New York Money Market.

NEW YORK, Sept. 11.—MONEY—On call steady, 1¾@2 per cent; closing bid, 2¼ per cent; offered at 2½ per cent. Time loans, steady; sixty day bills, 3¾@4 per cent; ninety days, 4@4¼ per cent; six months, 4¼@4½ per cent.

PRIME MERCANTILE PAPER—4½@4¾ per cent.

STERLING EXCHANGE—Weak with actual business in bankers' bills at $4.8520@4.8525 for demand and at $4.8260@4.8265 for sixty day bills; posted rates, $4.83½@4.84 and $4.85@4.85½. Commercial bills, $4.82¼@4.82¾.

SILVER—Bar, 62c; Mexican dollars, 47c.

BONDS—Government steady; railroad bonds easy.

Closing quotations on bonds were as follows:
