VIOLENT ELECTRICAL STORM

Thunder and Lightning Accompanied by Over Inch of Rain.

EFFECTS NUMEROUS, BUT NOT FATAL

Streets Were Flooded, Electric Wires Impaired and Street Car Service Obstructed for a Short Period.

A violent electrical storm visited this locality Tuesday night, continuing until about 3 o'clock Wednesday morning, and lame telegraph and street car wires, flooded streets and crippled car service resulted. One of the heaviest rains of the season accompanied the storm, the total precipitation being 1.19 inches from the time of the beginning of the storm at 2 a. m. until 3 a. m. There were occasional dashes of hail with the storm and a decided fall in temperature also was noticeable.

Fortunately the wind was not severe, the spectacular features being the incessant flashes of lightning and detonations of thunder. To a very great extent the lightning confined its work to a short distance but one or two instances of damage are thus far reported from lightning in this immediate locality outside the city limits. A barn up near Miller park was struck by lightning and the roof fell to the ground. Another barn located a short distance southwest of the city met a similar fate, the essential damages in both cases being confined to the destruction of the edifices and their contents of hay. Both fires were beyond the city fire limits and the fire department did not respond to the calls.

Rain in Torment

For about an hour, between 3 and 4 o'clock, the downpour was terrific and the streets consequently were veritable rivers. The country roads were in bad shape. The rain was apparently the heaviest in the history of the city. This rain has been the means of suspending building operations where there were unprotected excavations until the waters can be pumped out.

The rain was confined to eastern Nebraska and western Iowa, the heaviest precipitation being here at Omaha. At Clarinda, Ia., the precipitation was .86 of an inch, and there was a corresponding precipitation down as far as Ashland. Very little rain was reported from the western part of the state.

Light to heavy frosts are reported in the upper Mississippi valley, the heaviest being in the north. The temperature ranged from 10 to 12 degrees below Tuesday morning.

The storm came from the west and northwest. The temperature here at 7 o'clock Wednesday morning was 60.

STREETS AND BUILDINGS HIT

Thoroughfares Flooded and Few Streets Closed.

The rain played havoc with the trench down Farnam street, from Sixteenth east, where the Postal Telegraph company has torn up the granite blocks and substructure to lay its conduits. In places where the trench was not deep enough, the surface of the street it was washed out and caved in the trench until its course and width were very irregular.

Once more have Omaha people been reminded that a decade and a half ago, about the time of the Tenth and Twelfth streets, was laid with cedar blocks. Remnants of this provincial paving actually had floated with the current as far north as Sixteenth as Cumings, having come down stream through the streets of the city.

YOUNG GIRL TRIES TO KILL SELF

Despondent Because Family Falls to Meet Her Ideals.

DENVER, Colo., Sept. 13.—(Special Telegram.)—Despondent because her 10-year-old sister would not comb her hair, and angry with her mother because she had been chastised for not doing so, a young girl attempted suicide yesterday by drinking carbolic acid. The Whites came to Denver two weeks ago from Lincoln, Neb. Soon after they came to the city, the mother was employed as a day laborer and the mother a position at the Colorado laundry.

Edith said that they were no good. Yesterday the little sister, Mary, started off to school with tangle hair, and Edith severely criticized her. In a few minutes Edith returned with a bottle of carbolic acid and said that she was going to kill herself. Just as she was pulling the cork a woman entered the room. Edith ran down into the street. The woman started after her. Everytime the child would get a few yards in front of the woman she would try to drink the contents. Finally she fell and the bottle was wrenched from her hands.

Location of Town in Doubt.

FREMONT, Neb., Sept. 13.—(Special.)—The location of the new town of Estina is still in the air. Vice President Hill of the Great Northern is expected here soon and will decide where the town will be. Estina, it is conceded, is the place where the line to Omaha leaves the Ashland line and is likely to be a place of some importance. It is possible that neither of the rival lines will win out and that the railroad company

Lightning is Busy at Kearney.

KEARNEY, Neb., Sept. 13.—(Special Telegram.)—Kearney was visited by a bad storm this morning which resulted in some damage to houses and property. Lightning struck the gasstap on the city hall and running down the same knocked considerable of the slate off the roof. A large stack of alfalfa belonging to Charles Lancaster was ignited by lightning and completely consumed. Lightning also struck the residence of P. B. Dill. It ran down the chimney and severely shocked Mr. Dill and a young woman who was present, rendering them unconscious for a short time. The barn of August Eichmeyer, near Riverside, was struck, set on fire and completely consumed. Mr. Eichmeyer had just removed to another place and there was nothing in the barn. The home of Harry Ingham at Pool siding was struck and damaged to the amount of \$300. The plastering was knocked from the ceiling of all the rooms but none of the occupants was seriously injured.

THE STORK BRINGS JOY

To the household but how about the mother? It has been joyful during the weeks and months preceding the advent.

Too many mothers find it a time of fearful anxiety because they are "not in good health."

They have allowed weaknesses, pains and drains to accumulate till the health is completely undermined and they are "more than discouraged," and all because they have been misled by hearing friends or malpractised by an inefficient doctor.

To all such here to the news that there is a remedy that will heal and not hurt, till the health is completely undermined and they are "more than discouraged," and all because they have been misled by hearing friends or malpractised by an inefficient doctor.

Dr. Pierce's Favorite Remedy, which has to its credit the enviable and unparalleled record of more than a half-million of cures in the last forty years.

Only those who have given Dr. Pierce's Favorite Prescription a trial can appreciate what a boon it is to suffering women, writes Miss Virginia Moore of Ft. Toronto, Ont. "For two years I suffered intensely from female weakness and was completely unable to do my household work. I had distressing bearing-down pains so I could scarcely stand up. Had hot flashes and was very nervous and generally wretched. My physician gave me several remedies but obtained no relief until I began to take Dr. Pierce's Favorite Prescription. In four months' time I was as well and strong as ever."
