Why Beal Should Be Nominated. OMAHA, Sept. 18.—To the Editor of The Bee: Taxation without representation has never been very popular in this country.

A Question of Bridges. OMAHA, Sept. 18.—To the Editor of The Bee: I wish to call the attention of the voters to the building of the bridge over the Elkhorn near Elk City.

A Word for Dickinson. OMAHA, Sept. 18.—To the Editor of The Bee: In accordance with your offer to publish communications pertaining to the candidates for the various offices to be voted for at tomorrow's primary election.

Gordon for Police Judge. OMAHA, Sept. 18.—To the Editor of The Bee: In his country's darkest hour, when the fate of the nation hung in the balance, when the bravest shuddered in contemplation of what the result might be.

primary election law has been read by many with much interest, and as you say, each voter can go to the polls and vote for the candidate of his choice.

Judge Charles T. Dickinson meets all these requirements. As every one knows he served as district judge for eight years and gave universal satisfaction by his interpretation of the law and his treatment of litigants.

He was not controlled in any way by any person or corporation—but was contented only by his desire to do justice to all Judge Dickinson will talk to the republican clubs in and about our city, has said that if elected to the office of county judge, he will account to all persons.

entitled to trust funds in his hands, of the county court, for all interest accumulated on same, and will be perfectly satisfied with the salary of the office, a matter which has been pending for years, and which is conceded by all to be the only honest way to care for the money trusts and interests of the widows and orphans.

None of us can tell how soon our estates may be put into the hands of the probate county judge and I know of no office or trust more sacred than the one that is empowered to handle the blood of our dead ones left to the cold charities of an unfriendly world.

Judge Dickinson has been tried and not found wanting. No one has ever accused him of betraying any public trust. His integrity of character and his ability as an honest judge has never been questioned. I trust those who may exercise their right tomorrow to the polls will bear his name and the office he seeks in mind, when they come to cast their votes.

UNION MEN BOOST THE LABEL. Cigar Makers the Hosts at a Meeting in Interest of Union Made Goods.

Several hundred men, representing various labor organizations of the city, accepted the invitation of the Cigar-makers' union and assembled at Labor temple Monday night to hear addresses on the subject of the union label and its use as a means of promoting the welfare of the worker.

Louis V. Guze, president of the Central Labor union, urged the use of union made goods of all kinds. The boycott and the strike he mentioned as the old and un-couth weapons of the unions and spoke of the union label as the weapon of the future.

T. W. McCullough said the union label on an article gave assurance to the purchaser that it was not made in the penitentiary. Union men should buy union goods, he said, if for no other reason than that their relations to the employers of the city were called for their patronage.

C. F. Michaelson, secretary of the Street Railway Men's union, advised his hearers to instruct their wives and daughters on the subject of the union label and request them to ask for the label as often as they made a purchase.

CZAR AS PEACE PROMOTER. Nicholas Issues a Call for a Second Conference at The Hague.

EXCHANGES VIEWS WITH ROOSEVELT. Belief That Invitations Were Sent Out Several Days Ago and That They Have Been Accepted.

ST. PETERSBURG, Sept. 18.—Empress Nicholas today again appears before the world as a promoter of universal peace. No sooner is the Russo-Japanese war over, and even before the peace treaty has been ratified, than his majesty issues invitations to a second peace conference at The Hague.

That the emperor has done so was learned today from a source which leaves no shadow of doubt as to its authenticity. The announcement created the greatest surprise here, and that Russia should plan a second conference, despite the steps already taken by President Roosevelt, was also heard with amazement. It is clear that the step could not be taken by Russia without first reaching a complete understanding with President Roosevelt.

There is strong reason to believe that the news of the invitation of the Russian government would not be given out unless invitations had already been sent to the powers and possibly their answers had been received. In this connection an interesting question arises as to how the invitation was communicated to Japan, in view of the lack of diplomatic relations, but the invitation may be delayed until such relations have been resumed, or it may have been forwarded through the United States.

It was impossible to learn tonight the proposed date of the second conference, or to gain even an approximate idea regarding it, but it probably will not be greatly delayed. Russia, as the power convoking the conference, will probably submit an official program, the other powers submitting suggestions.

Czar Will Sign Treaty. The Associated Press was assured today that the emperor's empire will not involve delay in the signing of the peace treaty. An official copy of which, with all documents pertaining to the conference is on the way here with the members of the peace commission, who arrived at Cherbourg tonight. The treaty is expected to be in St. Petersburg by Thursday or Friday next.

The full text of the treaty is already known to his majesty and his advisors having been cabled from Portsmouth, but comparison and scrutiny of the copies, engrossing and other clerical work will take two or three days.

A split ticket is being circulated which should be scanned carefully by the voters. One of its peculiarities is that it omits entirely the county judges.

Prof. Bodwell seems to have treated the candidacy of Prof. Clarendon with supreme indifference. He feels confident that the people who voted for him five times in a succession will do it once more without wincing.

If all the people on whom E. F. Thomas has smiled within the last twenty days, "THERE'S A REASON." That's All Right But What is It?

A lady teacher in South Dakota says: I was compelled to give up teaching for nearly four years because of what the physicians called "nervous dyspepsia." Nor was I of any other trouble, which will become chronic if continued. Then the nerves and brain grow weary, for they are deprived of the rebuilding elements the food must furnish to replace the soft, gray lining of nerve centers and brain which is partly used up each day.

Now comes the mission of Grape-Nuts to supply the "Reason." Made in a peculiar and scientific way of the selected parts of Wheat and Barley, this famous food contains natural phosphate of potash with aluminum, which combines with water in the body and makes that grayer matter quickly and surely. Then when nerves and brain feel the power of new made and properly made cells, the strength returns to stomach as well as to other parts of the body. There's a reason. Anyone can prove it.
