MINISTERS ARE ASSIGNED

Bishop Hamilton Announces Stations for Preachers in Conference.

SEVERAL CHANGES IN THE DISTRICT

One of the Most Interesting and Largely Attended Meetings of the Conference Holds Final Session at Albion.

ALBION, Neb., Sept. 18.—(Special Telegram.) The North Nebraska Methodist Episcopal conference which has been in session here the last week adjourned this morning. It will go to the history of the district as one of the largest ever held.

Yesterday the attendance was the largest of the session. There were many visitors from neighboring towns. The visiting ministers are loud in their praise concerning their treatment by the people of Albion.

Appointments for Year.

Appointments for 1936-1937 are as follows: Grand Island District—H. H. Millard, presiding elder; Columbus, A. J. Taylor, presiding elder; Trenton, H. H. Millard, presiding elder; Belgrade, A. J. Warner, presiding elder; Grand Island, J. S. Green, presiding elder; Grand Island, J. S. Green, presiding elder; Grand Island, J. S. Green, presiding elder.

GRAIN MEN FAIL TO APPEAR

Owing to Absence of Witnesses No Testimony is Taken in Grain Cases.

DEFENDANTS DEMUR TO THE ACTION

State Officials Not Only Return Railroad Passes, but Also All Commissions Extended Them by Corporations.

(From a Staff Correspondent.)

LINCOLN, Sept. 18.—(Special.)—No depositions were taken today in the grain case because, owing to the rains, none of the witnesses reached Lincoln. Attorney General Norris Brown, Tom Worrall and Attorney Howell and the attorneys for the grain men were here, but failed to appear in the matter as the witnesses were absent. The attorneys for the grain men filed in each case a demurrer and with the exception of the Nye-Schneider-Powder company all were identical. This latter company claimed the injunction was asked for under the McKinley law and the injunction against the transactions of the grain men before that law was enacted is not germane. In its motion this company alleges the petition of the state is framed as a suit in equity under the Junkin act, which took effect July 1, 1935, and no other law previously enacted or now in force will support such an action in equity. It is alleged that the Junkin act, if it is now enforced at all, and applicable to this case, repealed by implication all prior statutes on this subject, hence all acts occurring prior to July 1, 1935, are immaterial and should not be permitted to be presented. This defendant therefore moves to strike from the petition the words "for the last three years," and if the plaintiff desires to substitute any other time therefor to limit such time to a date not prior to July 1, 1935. In the alternative, they asked regarding these matters, Mr. Brown and Attorney General Norris Brown, to vacate the order of injunction. The demurrer of the other grain men all are: First—That the court is without jurisdiction over the subject matter. Second—That the court is without jurisdiction over the person of this defendant. Third—That there is a misjoinder of causes of action. Fourth—That there is a misjoinder of parties. Fifth—And for the further reason that said application and petition fails to state facts sufficient to support the cause of action in favor of the state of Nebraska and against this defendant.

All Courses Returned.

It has just been light this morning that when Governor Mickey, Attorney General Norris Brown, Superintendent McBrien and Land Commissioner Eaton returned their passes to the railroads, they also sent back Pullman passes, telegraph franks and express franks. They were asked regarding these matters, Mr. Brown and Attorney General Norris Brown, to vacate the order of injunction. The demurrer of the other grain men all are: First—That the court is without jurisdiction over the subject matter. Second—That the court is without jurisdiction over the person of this defendant. Third—That there is a misjoinder of causes of action. Fourth—That there is a misjoinder of parties. Fifth—And for the further reason that said application and petition fails to state facts sufficient to support the cause of action in favor of the state of Nebraska and against this defendant.

ESTIMATE DAMAGES AT BURWELL

Conservative Estimate Places Loss at \$200,000. BURWELL, Neb., Sept. 18.—(Special.)—Conservative men who have estimated the damage done by the tornado place the loss at \$200,000. There are twenty-six buildings damaged from partial to total loss. Three business buildings were completely destroyed. A general merchandise store, the stock of Mike Sals, and the stock of the store came down the Calamus valley from the northwest and struck Burwell just about 6 o'clock Saturday evening. The funeral of Mrs. E. B. McKinney was held from the Methodist Episcopal church yesterday and was attended by nearly the entire town. There are four other parties that were seriously hurt, but they are all reported as doing well and undoubtedly will recover. A special excursion was run on the Burlington yesterday and hundreds of people came to view the wreckage.

News of Nebraska.

SHELBY—Wheat threshing from the stack has stopped because of the continued heavy rains. BEATRICE—Burglars visited the home of Mrs. Walton Saturday night but secured nothing of value. SHELBY—The Shelby school started up this morning, instead of two weeks ago. TABLE ROCK—The eighty-sixth birthday of Mrs. Margaret Jones was celebrated here yesterday at her residence, a reception being held for her. GENOVA—A storm of wind and rain raged here yesterday, causing much damage. HARVARD—Mrs. Rita S. Burns, wife of Rev. Charles Burns of the Methodist Episcopal church, died at 7 o'clock this morning at her home. ALBION—Another heavy rain fell last night, causing much damage to crops and property. A rain has fallen almost every night for the past week, and the ground is thoroughly pelted. Corn is maturing nicely and fall grain is going in fine shape. The prospect for a heavy crop of corn was never better.

Saloon Man Punished.

BLAIR, Neb., Sept. 18.—(Special.)—The saloon of Alex. Finlayson was closed this morning by order of Mayor Williams for violating the Sunday closing law. An ordinance passed by the council last spring allowed the proprietor of each saloon to have from 7 o'clock a. m. to 8 p. m. for the purpose of cleaning up and fixing fire in the winter. The saloon men were called before the council and agreed to the above before they were granted a license. Finlayson, it is alleged, has violated this ordinance in all his saloons since before and was notified by the mayor that it must not occur again. Five of the six councilmen stood pat with the mayor and the saloon will be closed for two days in lieu of a fine and the matter will not be brought into court. Friends of Finlayson are loud in their denunciation of the closing act, claiming that the other six saloons are guilty of the same offense. Mayor Williams asks for the proof and says he will give them the same discipline if the evidence is produced.

Price Corn from Blair.

BLAIR, Neb., Sept. 18.—(Special.)—The finest batch of corn, counting height of stalks, size of ears and distance of ears from ground, that has yet been produced in this county was brought in today by J. W. Jacobs. Living five miles north of Blair on the large ranch owned by Judge W. C. Walton of this city, and was shipped to Omaha tonight for exhibition. The six stalks, with seven large ears of corn on them, average fifteen feet in height and the highest ear is about eight feet from the ground. Mr. Jacobs says he has 120 acres of this corn and estimates that it will go over thirty bushels to the acre.

Urging Special Session.

Governor Mickey is still receiving numerous requests to call a special session. Some are anxious that he wait until he sees what action the railroads will take on their 1935 passes, while others desire that he call immediately after election. One man at the state house today said that he had received information from a merchant at Grand Island that in ordering a car of sugar from California, it was necessary for him to pay freight rates from Omaha to Grand Island even though the train reached Grand Island before it did Omaha and the sugar was never in Omaha. He also said that in buying sugar manufactured in Grand Island the merchant had to pay the added freight rates from Omaha to Grand Island and back, even though the sugar was never more than a mile from the merchant's place of business. It is such instances as these that are being called to the attention of the governor as a reason for the special session of the legislature. The governor hesitates to call a special session because the members who would compose it did nothing when they

had the opportunity and may repeat the performance.

Members of Legislature Resign.

Saves Judge's Embarrassment.

It is common talk around the state house that considerable embarrassment has been saved some one by the defeat of Commissioners E. R. Duffie and Ames for the republican candidate for supreme judge. Had either been made the nominee it is said not less than three men would have journeyed to Lincoln, each with a promise in his pocket for the place made vacant in the commission by the elevation to the bench of the commissioner. The men whose names are connected with the place are Judge Hamer of Kearney, who made a speech in favor of McGilton for chairman; Abbott of Grand Island and "Jack" Martin of Central City.

Marries Despite Protest.

James McGuire, a Western Union operator, son of Captain McGuire of the police department, and Miss Winifred Yule tied themselves in holy matrimony yesterday in the opposition of relatives of the girl and returned at midnight Mr. and Mrs. McGuire. The bride is a sister of the laundrymen of her name and they opposed the wedding to such an extent that they sent to Omaha a month ago. McGuire followed by another sister, and the two went to Council Bluffs. The objection to the union was based on the youth of the couple, the groom being just 21.

Nebraska Soldiers Visit Lincoln.

Captain W. H. Oury of the Twenty-second and Lieutenant J. S. G. and Lieutenant Clarence C. Culver of the Twenty-first U. S. A. are in the city of guests of Adjutant General Culver. The two officers are stationed at Fort Assiniboine, Montana, and will depart soon with their regiments to the Philippines. Captain Oury's regiment will go to the Philippines, while Culver's is a graduate of the state university and was promoted to the regular service while a member of the First Nebraska regiment during the Philippine war. Lieutenant Culver was a member of the cavalry and during the Spanish war was a member of the Rough Riders, later enlisting in the United States volunteers. Both officers secured their regular army commissions for distinguished bravery on the field of action and both have served in the Philippines.

ESTIMATE DAMAGES AT BURWELL

Conservative Estimate Places Loss at \$200,000. BURWELL, Neb., Sept. 18.—(Special.)—Conservative men who have estimated the damage done by the tornado place the loss at \$200,000. NERVOUS PROSTRATION

Leonard Weinheimer, Who Was About to Collage from Nervous Prostration, is Brought Back to Complete Health and Strength in Three Months by Duffy's Pure Malt Whiskey.

"I never felt so well as I have since I began its use, and I recommend it as the greatest tonic in the world." "I tried many different remedies in the effort to build up my system, which had become nervous and run down from overwork, but nothing seemed to help me, so I began to take Duffy's Pure Malt Whiskey. One bottle of your medicine almost cured me, and in three months I was a healthy, strong man. Really, I have since I began its use. I heartily recommend Duffy's Pure Malt Whiskey as the best health builder and tonic in the world." —LEONARD WEINHEIMER, 1306 S. 33rd St., St. Louis, Mo.

For more than fifty years Duffy's Pure Malt Whiskey has been prescribed by doctors and used in over two thousand leading hospitals as a tonic for the nervous system. It is endorsed by the clergy and professional nurses and recommended by all schools of medicine as a positive cure for nervous prostration, all other reasonable forms, but nothing seemed to help me, so I began to take Duffy's Pure Malt Whiskey. One bottle of your medicine almost cured me, and in three months I was a healthy, strong man. Really, I have since I began its use. I heartily recommend Duffy's Pure Malt Whiskey as the best health builder and tonic in the world." —LEONARD WEINHEIMER, 1306 S. 33rd St., St. Louis, Mo.

There is but one Duffy's Pure Malt Whiskey. Insist on having the genuine and refuse cheap substitutes and imitations, which are placed on the market for profit only and which are positively harmful to both body and brain. Look for the trade-mark, the "Old Chemist," on the label, and be sure the seal on the bottle is unbroken. Sold in sealed bottles only; never in bulk.

All reliable druggists and grocers, or direct, \$1.00 a bottle. Advice and medical booklet free. Duffy Malt Whiskey Co., Rochester, N. Y.

FORECAST OF THE WEATHER

Fair Today and Tomorrow in Nebraska and South Dakota; Warmer Tomorrow. WASHINGTON, Sept. 18.—Forecast of the weather for Tuesday and Wednesday: For Nebraska and South Dakota—Fair Tuesday and Wednesday; warmer Wednesday. For Iowa—Fair and cooler Tuesday; Wednesday, fair and warmer. For Missouri—Fair Tuesday, preceded by showers and cooler in the east and south portions; Wednesday, fair. For Kansas, Wyoming, Utah and Colorado—Fair and warmer Tuesday and Wednesday. For Montana—Fair and warmer Tuesday; Wednesday, fair.

CONDITION OF CORN CROP

Some Swimming in Water, but Bright Weather Will Save It All. "Some of the corn is swimming along the creeks and river bottoms, but as a rule the corn is all right. To reach the bumper crop, however, we need a week of good hot weather to bring out some of the later corn," said Charles J. James, first assistant general freight agent of the Union Pacific.

Another week and all corn will be out of danger of frost, the light frost will do no damage it any and the crop is sure to be great, but to reach the limit we need a little more good weather. We have had no reports of any damage from this recent rain. How can you damage corn that is as far along as that Julesburg corn?" Try Chamberlain's Colic, Cholera and Diarrhoea Remedy and you will never wish to be without it in your home. It has saved many lives. Evidence Against Edwards. Detectives at the city jail are securing evidence against a man charged with the murder of a woman. The man, named Edwards, is charged with the murder of a woman named Josephine. The man is charged with the murder of a woman named Josephine. The man is charged with the murder of a woman named Josephine.

Table with columns: Station and State, Temp., Max., Min., Rain-fall. Includes reports from Blair, Cheyenne, Chicago, Denver, etc.

the people

That greatest of all powers in this country, the working people, are being treated as slaves. You should see the results. Do the working people want steady work and steady wages? Do the merchants, clerks, lawyers and teamsters, as well as other citizens? Do the manufacturers appreciate steady wages? Do the railroad owners care to have their trains on the line humming along day by day and the railroad employees living in satisfied peace? Is it worth while for people in a community to enjoy a steady flow of property in place of the badly broken condition of industrial warfare now and then fed on many communities to produce effective work the National Association must have financial means to carry the clerical force and employ a small army of competent organizers in the field. Some prominent men to detect the practical workers, have contributed liberally. Manufacturers can afford to contribute from \$100,000 to \$200,000 each. A strike is as bad as a fire, and this is simply a very easy and certain form of strike insurance. Merchants can well afford to expend \$5.00 to \$10.00 a year toward the work. Philanthropic people with a motive for helping their fellows can invest their "public good" funds in no more practical way, and the working man and common citizen of small means who feels a desire to do his little share towards a great national movement for industrial peace can send \$1.00, fifty cents or even a quarter of a dollar to the National Citizens' Industrial Association. The cost is practically nothing if the active man will give his time, although it has been found best to pay a salaried man to do the work. Every merchant becomes interested, because he prospers best when the factories and shops are going. Every doctor, lawyer, manufacturer, teamster and the thirdly, law-abiding union men will help in enforcing industrial peace and maintaining the law. If they can be assured freedom from union punishment, and the Citizens' Association can in a practical way insure that. How do we prevent strikes? Each local Citizens' Association is thoroughly in earnest in demanding that no strikes occur, but all differences be placed before the local "Industrial Jury," made up of equal numbers of the workmen and the employers. The findings are made public, and thus the voice of the people is expressed, carrying with it public opinion, that greatest of all powers in this country.
