STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss: George B. Tschuck, treasurer of the Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of The Daily Morning Evening and Sunday Bee printed during the month of August, 1905, was as follows:

Table with 2 columns: Number of copies and Total. Rows include 1. 26,000, 2. 26,000, 3. 27,000, 4. 25,040, 5. 25,000, 6. 30,050, 7. 30,040, 8. 29,990, 9. 29,950, 10. 29,850, 11. 30,050, 12. 31,000, 13. 30,250, 14. 30,010, 15. 29,850, 16. 29,850.

Net total sales 318,824. Daily average 20,644.

Subscribed in my presence and sworn to before me this 15th day of August, 1905. M. B. HUNGATE, Notary Public.

WHEN OUT OF TOWN. Subscribers leaving the city temporarily should have The Bee mailed to them. It is better than a daily letter from home.

Primary election today. Registration day also today.

All railroad time cards now in force are subject to the approval of J. Plavius.

Half the victory at the election is gained by nominating a strong ticket at the primary.

It looks as if the new gas franchise proposition did not contain enough candle power to light up the city council.

One of the Fontanelle candidates is running for a sixth term in his office. Is this not coming pretty near the life tenure idea?

If there is any good reason why Edward Bralley should not be re-nominated and re-elected as coroner it has not yet been advanced.

If American fishermen continue to poach on the Canadian side of the lakes, President Roosevelt may find use for the big stick at home.

The calendar maker must have misplaced his autumn equinox and then made the blunder worse in trying to correct his mistake.

Registration day and primary election day are one under the new law. By voting at the primary you will be registered at the same time.

If you want an honest man as guardian of the widows and orphans of Douglas county cast your vote at the primary for Charles W. Haller.

It is as much the duty of the good citizen to participate in the primary that nominates the candidates as it is to vote at the election that comes later.

Japanese paymasters seem to have studied occidental methods to their personal discomfort, since three of them are under arrest for embezzlement.

The "anti-peace" party of Japan can with advantage to itself study the fate of the Anti-Imperialistic league of America before presenting its legislative program.

The beautiful Omaha campaign will have to be given an extra push to make good the loss of so many handsome trees that have succumbed to the windstorms of late.

New York police are interested in another "murder mystery." If some of these mysteries are not solved soon it will become necessary to number them in series.

In deporting the brother of Mme. Humbert to France, American inspectors doubtless felt that there were already enough high financial practitioners in this country.

With four theaters now continuously running, Omaha will be entitled to be written in big letters on the theatrical map as compared with other cities of its population.

Sir Thomas Lipton has been thrown from a horse in Edinburgh while parading before the king. The baronet has better luck when he confines his advertising efforts to newspapers and the briny deep.

Packers indicted at Chicago make the point that the federal grand jury was improperly drawn. It will not be difficult to convince every man indicted at the same time that this is true, but it required larger attorneys' fees than the ordinary offender can pay to discover the irregularity.

AS TO TARIFF REVISION.

Perhaps a majority of the American people feel that there is no more important question to be determined by the next congress than that of tariff revision. It is a question which touches vitally the industrial and commercial welfare of the nation, not alone for the time being, but for the future.

A SACRED GUARDIANSHIP.

The time is at hand when the lid must be taken off the county court depository, which for six years has protected the estates of more than 2,200 deceased persons, whose aggregate wealth must have amounted to from \$5,000,000 to \$10,000,000.

CHARLES W. HALLER.

It is now proposed by some to make a more or less radical departure from the policy which has admittedly been so potent an influence in building up the United States to the position it now occupies among the industrial nations of the world.

THE OHIO CAMPAIGN.

Although an off year in Ohio politics, the campaign in that state is attracting very general attention, perhaps due to the feeling that the result may have a more or less important bearing upon the chances of one or two of the prominent men of that state in the national republican convention of 1908.

DIVORCE IN CANADA.

The Episcopal church in Canada has set the question of the remarriage of divorced persons by clergy to remain a divorced person to the former husband or wife is still living. This is naturally taken as an encouraging symptom by the advocates of a similar reform in the church in this country.

REMARKS OF DIVORCED PERSONS FORBIDDEN BY EPISCOPAL CHURCH.

OMAHA "HOUNDS" CAN "SMOKE UP" IF THEY CAN ROLL THEIR OWN CIGARETTES.

Omaha "hounds" can "smoke up" if they can roll their own cigarettes, but as they have always been able to do this, Judge Day's decision is chiefly interesting for what it does not say.

ROUND ABOUT NEW YORK.

Ripples on the Current of Life in the Metropolis.

A heart-touching instance of heroic devotion of a girl of 18 to her brother and sister was brought to the notice of a court in Brooklyn last week.

Westward, Ho!

A great exodus of hungry politicians may be expected to set from their sections of the country towards the west.

Our Troubles Vanish.

Nebraska may now settle down to a real enjoyment of her blessings. Frost has removed danger of a yellow fever invasion and Mr. Bryan is preparing to go away for a couple of years.

Common Sense Points the Way.

Common sense can be counted on in the negotiations between Sweden and Norway to prevent a break over such a matter as a few old land fortresses.

Names of All Colors.

There are coincidences in the names of the United States military and naval surgeons who have been sent to New Orleans to fight yellow fever.

Preserve the Indian Names.

The suggestion has been made that when Indian territory shall become a state or part of a state the new state shall be called Sequoyia, in memory of the half-breed Cherokee who invented the syllable alphabet of the Cherokee language.

Effect of the Chinese Boycott on American Goods.

Secretary Taft would like to see what could be done to smooth away the difficulties created by the native boycott on American goods.

Information Offered an Inquisitive Politician.

This is the question which Colonel Bryan asks in the Commonsense. It is a natural question for Colonel Bryan to ask, for just nine years ago he was predicting that if his way was not followed disaster would come to the masses.

IS IT PROSPERITY?

At times the German emperor, always very saving of his money, pushes his economy to the verge of stinginess.

THE CASH ACCOUNT.

Louisville Courier-Journal. I cannot make the thing come out. Though I have thought and thought and thought.

There are no less than four-

teen remedies in this standard family medicine.

Among them we might mention sarsaparilla root,

yellow dock root, stillingia root, buck-

thorn bark, senna leaves, burdock root, cimi-

cifuga root, cinchona bark, phytolacca root.

Ayer's Sarsaparilla is certainly a medicine, a genuine medicine, a doctor's medicine.

Made by Dr. J. C. Ayer Co., Lowell, Mass. AYER'S HAIR VIGOR—For the hair. AYER'S PILLS—For constipation. AYER'S CHERRY PECTORAL—For coughs. AYER'S AGUE CURE—For malaria and ague.

PERSONAL NOTES. China discriminates shamelessly in the boycott matter. Shanghai liars are working overtime to supply the demand. The shah of Persia is said to be a victim of acute melancholia.

Prof. Theodore A. Schurr, who has just died in Baltimore, was a pioneer in the crusade against killing birds for hat adornment. He had a collection of birds and butterflies representing some specimens, valued at about \$100,000.

At times the German emperor, always very saving of his money, pushes his economy to the verge of stinginess. When he visited Constantinople some time ago he was magnificently received and was loaded down with handsome presents.
