St. Paul Republican: Having licked the "allied forces of reform" out of their boots, Nebraska republicans are in fine fettle to go against an allied railroad combination.

Schuyler Free Lunce (ind.): Regardless of the platform and regardless of anything the opposition does the nominees will be elected with good, big majorities because this is a republican year in Nebraska. With fusion or no fusion, regardless of candidates or issue the democrats and populists will get snowed under by a vote that will back up the statement that this is a republican state.

Valparaiso Visitor: The biggest railroad fight Nebraska has ever seen is now fairly on. The abolition of the pass, it is generally the strongest blows against "boodling" recognized, is not the end of the war, but a means to an end. The program of the younger element that made its influence felt includes the creation of a railroad commission with power to fix rates, the removal of discriminations and excessive freight charges and perhaps the enactment of a flat 2 cent passenger rate law. These things have virtually been agreed upon by the men who made their influence most felt in the gathering recently.

Tekamah Journal: No intelligent person can review the platform as enunciated by the republicans in their state convention and not feel that the principles it advocates are of the highest order. Along all lines live stock be allowed to fix the rates it speaks in a decisive manner. President Roosevelt's administration is given an unequivocal endorsement and the demand is made on Nebraska's representatives in congreas to uphold the president in his efforts towards correcting abuses by transportation corporations. A direct primary is favored; the use of railfoad passes by state officials and the judiciary is condemned and a law demanded to prohibit their distribution. If the party lives its platform, Nebraska and the national government will be the better for it.

Butler County Press (dem.): That the republican party is taking a stand on some questions is gratifying to many fairminded democrats and populists. It does not follow that we need to rush to the rescue of the reform element of that party, because they have shown those of us who have endeavored to teach better things very scant courtesy. The reform element in the republican party are still in the attitude where they have no confidence in any one resolutions in county conventions, and their defeat of the old liners at Lincoln recently was a break in the monotony. And this new leadership will be halled with delight by the rank and file of the party, who have awakened to an active opposition to the bold and aggressive methods of the corporations. The party is stronger for the victory won by the independents in the convention. AUTUMN.

Allce Carey. Shorter and shorter now the twilight clips The days, as through the sunset gates they crowd,

And Summer from her golden collar slips And strays through stubble fields, and aloud moans

Save when by fits the warmer air deceives, And, stealing hopeful to some sheltered

bower, She lies on pillows of the yellow leaves, And tries the old tunes over for an hour.

The wind, whose tender whisper in the May Bet all the young blooms listening through the grove, Sits rustling in the faded boughs today. And makes his cold and unsuccessful love.

The rose has taken off her tire of red-The mullein stalk its yellow stars

The mullein stalk its yellow stars has lost, And the proud meadow pink hangs down her head

Against earth's chilly bosom, witched with frost.

The robin, that was busy all the June, Before the sun had kiesed the topmost bough, Catching our hearts up in his golden tune, Has given place to the brown cricket now.

The very cock crows lonesomely at morn-Each flag and fern the shirking stream divides-Uneasy cattle low, and lambs forlorn Creep to their strawy sheds with nettled sides.
